MASON & HAMLIN ORGANS, \$22 TO \$900.

The cabinet organ was introduced in its present form by Mason & Hamlin in 1861.— Other makers followed in the manfacture of hese instruments, but the Mason & Hamlin Organs have always maintained their supre mach as the best in the world.

Mason & Hamlin offer, as demonstration of the unequalled excellence of their organs, the fact than at all the great World's Exhibitions, since that of Paris, 1867, in competition with best makers of all countries, they have inva-riably taken the highest honors. Illustrated

The critical predicament in which the 1,700 inhabitants of Rodrigues found themselves awhile ago is not often paralleled. Rodrigues is a little island in the Indian Ocean with an area of only 120 square miles. here."-Judge. Owing to a violent hurricane, followed by a prolonged draught, the grain and potato crops were almost a total failure. Rice was the sole support of life, and the supply was rapidly getting exhausted when a public meeting was called, and it was resolved to send a boat to Mauritius, 400 miles away. Four men volunteered to undertake the perilous voyage. They narrowiy escaped destruction in the stormy sea, but at last they reached Mauritius, and 1,300 bags of rice were at once sent in steam tugs to the suffering pecple, who were found almost on the brink of starvation. It is not long ago that the people of the oceanic specks, known as the Kneeling Islands, petitioned the British Government to give them cable communication with the world. The islanders on Rodrigues, who are British colonists, would undoubtedly like to have a cable also if further failures of crops are impending.

The Garden of Eden is given a new location—in Central America by Mme, Alice Le Plongeon, who with her husband, Dr. Le Plongeon, the eminent man of science, spent fourteen years in Yucatan, studying the antiquities of that country. Mme. De Plongeon is also a firm believer in the submerged continent, Atlantis, which Ignatius Donnelly wrote about before he began to annihilate Shakespeare. She says that among the manuscripts of the May as, the prehistoric inhabitants of Yucatan, is an account of the sinking of Atlantis, which once joined America to the Western coast of Africa and Europe. Other Maya writings give us, she asserts, the whole history of the intellectual de velopment of the human family, free from all priestly or philosophic tinkering. The palaces and temples of the ancient race are situated in almost inaccessible forests, and the Spaniards are worse than indifferent in respect to archæological researches. They are unwilling to have their land disturbed for the sake of digging up a few more an tiquities. Mme. Le Plongeon hopes that when her husband's book about Yucatan appears, as it will shortly. wide interest will be awakened in the matter of further investigations. tuners, sent, together with descriptive cata- The two explorers brought back with them to New York two thousand photographs of the prehistoric edifices, and hundreds of drawings and models. Impurities in the blood produce diseases. Bodily and mental health depend upon a healthy condition of the blood. The blood, particularly in the spring and during the hot summer months, becomes clogged with impurities, which poison it and generate disease. A harmless blood purifier, without a particle of mineral poison in it, such as mercury or potash, is necessary to remove these impurities and to restore the healthy tone of mind and body. The best purifier and tonic known to the world is Swift's Specific (S.S.S.). In regard to its wonderful purifying and tonic powers we give a few testimonials as follows:

Mr. Wm. A. Siebold, with Geo. P. Rowell & Co., 10 Spruce Street, New York, writes March 29th, f888: "I feel it my duty, for the benefit of others who may be afflicted as I was, to write you this letter, which you can use as my testimony in any way you choose, I will answer any inquiry from others in relation to the facts herewith stated. In February last I suffered great pain and inconvenience from boils, all over my neck; I could not turn my head without acute pain and my blood was in poor condition. After trying all the usual remedies in such cases, and finding no relief, by the persuasion of Mr. J. W. Fears, Manager of your New York Office, I used one bottle S. S. S, and I improved rapidly and very soon I was entirely relieved of my "Job's Comforters." Now not a sign of my affliction can be seen. I feel strong and cheerful. S. S. S. is a fine tonic as proved in my case. I sleep soundly and my appetite is good.

Dr. J. N. Cheney, a well-known physician writes from Ellaville, Georgia: "I use S. S. S. in convalescent fever cases with the best results. It will, in my judgment, prevent summer dysentery, if one will take a few bottles in the spring, thus preparing the bowels for the strains of summer."

Mrs. Scott Liston, 116 Zane street (Island), Wheeling, West Virginia, writes: "Having used S.S.S. for the blood, I can safely say that it beats anything I have used to cleanse the blood and make a new being out of a per-Mr. M. S. Hamlin, Winston, N. C., writes;
