O, Almighty God, with Whom do live in joy and felicity the spirits of those who depart hence in the Lord, we give Thee hearty thanks for the good examples of all these, Thy servants, who, having finished their course in faith, do now rest from their labors. And in particular we thank Thee, O Father, this day for the good examples of these, Thyservants; who, to the convictions of their lives were faithful unto death. We come to recall afresh their gal lant death by mournful song and eloquent speech and floral gift. May we keep fresh the memory of their noble lives by filling the land they loved with true words and brave deeds. Strengthen us, OHoly Spirit with Thy might that we may fol low them in a higher, holier warfare So guide our desires and aid our ef forts that peace and happiness, truth and justice, religion and piety, may be established among us, may reigu over and bless us, for all generations. All this we beg through the merits and mediation of Him who this day ascended whither we pray to ascend Jesus Christ, our Lord and Saviour

ADDRESS BY THE ORATOR OF THE DAY, HERBERT MCCLAMMY, ESQ. Ladies of the Memorial Association

Friends and Fellow Citizens: We stand to-day upon hallowed ground, consecrated to the chivalric spirits of a lost but glorious cause, their empire fallen into decay and their banner furled, the flashing eye and martial form but heaps of pulseless dust, watered with our tears. covered with flowery incense and sweetness, guarded by beautiful woman, their burning courage commemorated in marble and bronze. their high heroic deeds wreathed in splendors eternal. At the request of the ladies of the Memorial Association, the guardian angels of the sacred memories of our honored dead, with no fitness for the pleasing task of this historic hour, with no associations in those deadly perils, upon whose glowing recital by the eloquent lips of your gifted speakers you have rested with enchained and delighted attention, I come as the representative of a new era and of another generation to thank you for the proud honor of your regard and for the opportunity of plighting the inviolable assurance of my generation to that immortal one of men and women, alas! rapidly passing from the earth, that we will cherish in our hearts forever the great sacrifice and eternal debt which we owe the Confederate dead

The sentiment which seeks to perpetuate the fame of a nation's heroes is born of a kindred passion that has lived through ages gone. The ancients piled upon the graves of their heroic dead the rude memorial stones. Homer embalmed in immortal verse the high exploits of Trojan and Grecian hero. The minstrel, thrilled by martial memories, swept in melting mood the strings of his tuneful harp. The artist, fanned by the wings of his divine inspiration, carved in marble and bronze the commanding form of the breathing hero; while history pournative land is the fairest gem that flashes in the coronal of ancient glory! Standing to-day as mourners at the graves of our loved and lost, our souls surging with memories of their toil, their courage, their sublime and glorious worth, our es-

capital, and thou, Jackson, looking victory. still with unquailing eyes upon your beautiful Shenandoah home, and thou, sentinel, keeping guard too, thank God, upon the most priceless treasure of all, the bravery, the sacrifices of our unknown dead! Nothing has been quitted to perpetuate their valor and devotion by the women of the South. Theirs indeed has been a labor of love which angels smiled to see! Undaunted by the great labor, unmoved by the scoff of the cruel jester. the land full of mourning and desolation, they began the holy work of gathering the dust of our fallen heroes from the silvery sand of the sea that drank their blood, and the mountain peak, crimson with the mighty oblation, and bore them back and placed above them this faithful sentinel, brothers of a common cause and heirs of a deathless glory. The proud banner which ding plame and glancing light was furled forever, The paroled prisoner with lagging step had passed to his home across a land which the be som of ruin had swept. That union of coequal and sovereign States no longer existed; above the palladium of liberty gleamed the bayonet, through the legislative halls of the free the clangor of the mailed sentry sounded; amid the dirges of the brave for coffined liberty, no sable banner waving over them, these angels of home received back into the bosom of their beauteous land the precious forms of their martyred

How unlike the return of the grea armies that had crushed them Countless thousands of banners waved in the glanding light, hoars cannon thundered their welcome home to the victorious warrior beauty crowned valor with love and approval, their honored dead were laid to rest among the splendic creations of wealth, the cold marble leaped into graceful life at the touch of art and burst into living bloom at the command of gold. No wonder it was said that these our heroes had vainly died; that this mighty sacrifice of valor was for naught that the cruel grave held faith and hope and all, save woman's divine and holy love and the stainless glory of our citizen soldiery. "Trofa resurgat," the legend of a band of fugitives from a conquered state who formed on foreign shores that infant colony which flourished until as the mighty Roman Empire it swayed the sceptre of the world, awarened no responsive chord. The heroic deeds even of our Saxon ancestry thrilled us with no hope of recovery. It requires something from the shattered idols of the bast to the solemn responsibilities of the future. Who shall say that the lous courage with which these warriors died? that the constancy of these devoted women to the Contrue, has not builded from the ashes fears of the former, as that can safeof that last empire one greater and
