capital invested in the tobacco and sugar plantations and factories of the Island of Cuba. Still larger investments of the same kind are being made at this time. A few days ago an agent of a syndicate of English capitalists arrived in New York city, on his way from Havana to London. They had empowered him to visit Cuba and make an offer for the purchase of the largest and most valuable tobacco estate which yields the highest price leaf that grows in the Island. His offer was accepted, but the change of ownership will not be consummated till he reaches England. The smokers of the Partagas brand will doubtless be made aware of the facts in course of time.

common occupation among the Hartz Mountains, and a ready mar ket is found for them in the city of Goslar, an aristocratic place of some 30,000 inhabitants, where some of the deceased rulers of Prussia lie buried. The birds generally sell at prices ranging from a few dollars to fifty dollars, but there is one variety, exceptionally fine singers, which frequently bring one hundred dol lars. This bird serves the purposes of a teacher to the others in the matter of singing, and is therefore eagerly sought after. Recently a dealer in canary birds from the Hartz Mountains landed in New York, bringing with him upward of 2,000 beautiful songsters. It was his intention to dispose of them in the large cities of the country.

The child is all he has left of a happy home and a farm of 200 acres. 'This pathetic story from real life might furnish the theme for a campanion poem to Miss Ingelow's well known "High-tide on the coast of Lincolnshire."

An application has been filed by a New York civil engineer for a patent for a locomotive and tender designed for making faster time than has ever been made in this or any other country. The boiler is rectanglar in shape, having a large and permanent area of evaporating sur face, supported by a great extent of heating surface, the pressure to be carried being 210 pounds per inch which is but one-third of the bursting pressure at its weakest points. The cylin lers are in the rear of instead of between the truck wheels, and the fire box is supported be-Obertin, University of Penn., Michigam Uni- tween the centre of gravity of driv ing wheels. All the combinations of parts are in exact harmony, and it is intended to easily make the time of sixty miles an hour with ten coaches, and can, without violent strain, be brought to ninety-five miles an hour with the same load. This gain in performance over the present machine is obtained by a mathematical construction with reference to the distance between rail centres upon which it is supported, and is the first application made which has embraced and specified every portion of a locomotive and tender constructed mathematically with reference to the limits within matten, Heals the HAY.FEVER which they must be confined and sores, Restores the supported. ### It is a Curious Fact

That the body is now more susceptible to benefit from medicine than at any other season. Hence the importance of taking Hood's Sarsaparilla now, when it will do you the most good. It is really wonderful for purifying and enriching the blood, creating an appetite, and giving a healthy tone to the whole system. Be sure to get Hood's Sarsaparilla which is peculiar to itself.

At no other season is the body so much in need of, or so susceptible to the benefit to be derived from Hood's Sarsaparilla, as now. The impoverished condition of the blood, the weakening effects of the long, cold winter, the lost appetite, and that tired feeling, all make a good spring medicine absolutely necessary. Try Hood's Sarsaparilla and you will be convinced that it is the ideal spring medicine.

CURE OF

Judge T. C. McLendon writes to the Swift Specific Co., Atlanta, Ga., under date of February 14, 1883 : " About three years ago, Jerry Bradley, a colored man, had a cancerous sore on his face, near the right eye. It caused him a great deal of pain, and he lost the sight of the eye, but was finally cured of the cancer by the use of Swift's Specific. This case is well known in Wilkes Co., Ga, where he lived (near Danbury), and of this case, I, myself, had personal knowledge."

Mr. L. Cox, of Arkabutla, Tate Co., Miss. writes, February 24, 1888 : " I suffered a great deal from old ulcers for six years. Your medicine was recommended to me, and after using six bottles, I was completely cured. I never saw its equal as a Blood Purifier. My neighbors will use no other. Your medicine does even more than you claim for it. I have known it to cure cases which were thought to be hopeless. It is the best medicine made."

Mrs. A. M. Goldsmith, No. 674 Warren St., Brooklyn, N. Y., writes, February 22, 1888: "I commenced using S. S. S. about three years ago. I had suffered with a sore throat for over a year, when I commenced using your remedy: I used a great many other remedie with no good results. My little girl, also, had sore fingers; it commenced from the quick, and then the nails would come off. We doctored her for over two years, and when I commenced using S. S. S. I thought I would see what it would do for her. I am thankful to say that it entirely cured her. It is the best remedy I know of for the blood. I really believe it was the means of saving my life. The doctor told me I had a throat disease similar to General Grant's. I cheerfully recommend it to all suffering from dis-ordered blood. I use it now as a tonic whenever I think I need it."

Mr. B. F. George, Milford P. O., Ellis Co. Texas, writes: "I had a cancerous wart or mole on my eyelid, as large as the end of my thumb, which had the appearance of cancer, causing me much pain and inflammation, from which I suffered a long time. Seeing the S. S. S. advertised I commenced using it, and after the use of a few bottles the sore dropped out, my cancer was gone, and I was entirely relieved."

Mr. G. W. Pettis, of Aikin, S. C., writes: "I was a sufferer from cancer of the breast, and had been under the treatment of three physicians, but it did me no good. It was so bad that I had to stop work. After taking a course of S. S. S. I was entirely cured." Treatise on Blood and Skin Diseases mailed THE SWIFT SPECIFIC Co., Drawer 3, Atlanta. Ga.
