North Carolina is surely Democratic this year, just as surely so, in fact, as it was four years ago, when Cleveland's majority was not far from 20,000. Still, this result was not accomplished without a lot of good, hard, honest work and the same is necessary this year for the same result.

Along the Florida coast, it is re ported, the birds are fast disappear ing before the guns of the plume hunters. There is an especial scarcity of the great American egret the snowy heron, the Louisiana hen, the reddish egret, Ward's heron and the little blue heron. Birds that were common at Fort Ogden a year and a half ago are no more to be met with. The past dry season has enabled the merciless plume hunter of the border to penetrate dry shod into the former impenetrable retreat of the birds.

Mexico continues to attract Amer ican capital in a way to indicate that previous ventures of the kind have not been misplaced. Senator Hearst, of California, has just been down there making some extensive investments, including the purchase of 2,000,000 acres of land in the State of Vera Cruz to be devoted to the Ican sell you any of the first-class manu- raising of coffee, sugar and tobacco. Along with other California capitalists he has also obtained concessions for building a railroad from the city of Mexico to some point on the Pacific coast.

On the European Plan.

The Seaside Restaurant, of which we spoke last week, is now open at No. 8 North Front street, next North of the drug store on the corner. It has been neatly fitted up and sup plied with the electric light. Gentlemen can take their lady friends there with perfect propriety and get anything to eat from a light refreshment to a hearty meal. Mr. R. J. Lewis, the well-known caterer, is in charge.

Wrightsville all Alive.

Wrightsville Sound is agitated from centre to circumference by the advent there of the Seacoast Railway. There is a bustle and known there before. All about the road it is a scene of almost feverish activity. Capt. Manning has put up a large new open pavilion and has modernized and enlarged his house and cottages and the entire place presents a new aspect. At Mr. Stokley's also the spirit of improvement has penetrated and soon the sound of the saw and the ham mer will be heard there also.

Rock Crystal Spectacles and Eyeglasses Advice to old and young: In se lecting spectacles you should be cautious not to take more magnifying power than has been lost to the eve as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

paris green with the ashes until thoroughly combined, in about the proportion of one onnce of paris green to one gallon of ashes. Take some of this mixture in sieve and dust it lightly on the vines, so that they may be slightly sprinkled with the dry stuff. Early in the morn-cursion To-Morrow Evening, June 12. Leave ing is the best time to apply it. This plan is decidedly better than using the paris green mixed with water for the reason that the poison remains on the leaves and the bugs get the benefit of the dose as soon as they move about, while those on which it falls are done for within a life visible everywhere that was not few hours. When applied with water the most of the poison runs off the leaves at once and has but little effect.

Remember that paris green is a violent poison and should be careully handled. It need not be touched with the hands at all and persons with a sore or cut about the hands should not touch it or mix it, Sift the ashes on newspaper and put in the poison and stir through with a stick. Use an old sifter to apply it, or a home-made one of gauze or fine muslin.

Regiment, on the case of interest being that of Abra-Fourth of July, either at Wrights | ham Carter, who was arraigned as yille or old Camp Wyatt, near Caro- being instrumental in the death, by others at points adjacent and earn- ter. There were six witnesses for est efforts are being made to get the State, all colored boys, who were eye witnesses of the affair. The testimony of these was to the effect that at about 1 o'clock on Saturday a number of boys were in bathing in the river at Hilton. Ben Cronly, the drowned boy, who was about 12 years old, had undressed and as he could not swim had been playing in the shallow water. He was seated on a log near some other boys when Carter came up and seized him and taking him up bodily carried him, despite his struggles and protests, out into the river, into deep water, and then turned him loose. They both sank and when they came to the surface Cronly at tempted to get hold of and cling to Carter, but the latter pushed him off and Cronly went down again and was seen no more. One of the witnesses, by name Colonel Lamb, testified that when Carter carried Cronly out and turned him loose he said to him: "Swim or drown."

Carter, who is about grown, and said to be 20 years old, was bound over to the Criminal Court in the sum of \$500. In default of security for his appearance he was committed to jail.

The King Clothier.

Within the past decade a most im portant change has been effected in the clothing business of Wilmington. In former days the only ready-made clothing kept for sale was a cheap "slop-shop" class of goods from "buzzard shops," and the inconvenience of misfits, the rips and tears were calculated to disgust a person of taste. But now a days when the ability to manufacture clothing equally as good as custom made and much cheaper, has led to steps which have finally reached the splendid establishment now under notice
