FOR ELECTORS AT LARGE: ALFRED M. WADDELL, FREDERICK N. STRUDWICK.

Although there have been signs of late years that divorce was becoming less common in some parts of New England, the change for the better has not yet affected New Hampshire. On the contrary, the report of the registrar of vital sta tistics for the year 1886, just published, shows a remarkable and alarming increase of the tendency shrink. - Hotel Mail. since 1870. In that year and in 1871 the number of divorces decreed was only 149; in 1886 it was 385, and since 1880 it has only once fallen as low as 273. The average number for the seven years beginning with 1870 was 212, while for the seven years beginning with 1880 it was 318, an increase of 50 per cent., although the population of the State was less than 10 per cent. larger in the second period steal a mule. - Merchant Traveller. than in the first. During 1886 there were ten divorces to every eightythree marriages-a proportion sel dom reached in any State, and far too large to be viewed without apprehension.

The report that the Czar is to be crowned Emperor of Central Asia at Queen Victoria's Indian title is not unlikely, nor would the coronation be merely the piece of flummery that it at first appears. It is reported that it gratifies the Queen to be called Kaisar-i-Hind, and to be able to sign herself "Victoria R. I.," though it is doubtful whether the assumption has any more solid advantages. But there was no actual investiture in India, while a coronation at Samarcand, with the pomp that Russia would give to it, would without doubt be a clever political stroke. It would create a deep impression of the Russian power among the populations already subject to Russia, and among the populations of the debatable land whom it is still more desirable to impress. A ruler who despises ceremony and display foregoes the readiest method of gaining control over people in the stage of development of those Asiat-Trochees never fail. Our illustrated, Springe bent ics for the control of whom Russia and England are now striving.

Our Candidate for President. He will be nominated by the convention and will be elected by the people, because he will come the nearest to filling their ideal of a Chief Magistrate. One of the best tributes to the bravery of the Confederate soldiers comes from the members of the Honorable Artillery Company of London, while guests of the Ancient and Honorable Artillery Company of Boston. The battlefield of Gettysburg was one of the most interesting points which the visitors have seen, and the different positions were readily understood, with the exception of Pickett's famous charge of Confederate troops upon the centre of the Union line on the 3d day of July, 1863. The English officers, several of whom had seen active service, could not believe until convinced by absolute proof, that a body of infantry could, in the face of a terrible fire of artillery and infantry, penetrate the line of an enemy, and supposed that the attack was made by cavalry.

An Imperative Necessity. What pure air is to an unhealthy locality, what spring cleaning is to the neat housekeeper, so is Hood's Sarsaparilla to everybody, at this season. The body needs to be thoroughly renovated, the blood purified and vitalized; the germs of disease destroyed. Scrofula, Sal-Rheum, and all other blood disor ders are cured by Hood's Sarsaparilla, the most popular and successful spring medicine.

are often too ill to jabor, but they havn't time to take medicine and lay off. Simmons Liver Regulator can be taken without causing any loss of time, and the system will be built up and invigorated by it. It has no equal as a preparatory medicine, and can be safely used when a doctor cannot be called in. In all Samarcand by way of offsetting common diseases it will, massisted by any other medicine, effect a speedy cure.

The importance of purifying the blood carnot be overestimated, for without pure blood you cannot enjoy good health.

At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and we ask you to try Hood's Peculiar Sarsaparilla. It strengthens and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. The peculiar combination, proportion, and preparation of the vegetable remedies used give to other medicine has such a record of wonderful cures. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other instead. It is a Peculiar Medicine, and is worthy your confidence, Hood's Sarsaparilla is sold by all druggists,

In the realm of disease the facts of inheritance are most numerous and are daily accumulating. Here, alas, they become terrible, fateful and overwhelming. No fact of nature is more pregnant with awful meaning than the fact of the inheritance of disease. It meets the physician on his daily rounds, paralyzing his art and filling him with dismay. The legend of the ancient Greeks pictures the Furies as pursuing families from generation to generation, rendering them desolate. The Furies still ply their work of terror and death, but they are not now clothed in the garb of superstition, but appear in the more intelligible but no less awful form of hereditary disease. Modern science, which has illuminated so

many dark corners of nature, has shed a new light on the ominous words of the Scriptures, "The sins of the fathers shall be visited upon the children unto the third and fourth generation." Instances of hereditary disease abound. Fifty per cent. of cases of consumption, that fearful destroyer of families, of cancer and scrofula, run in families through inheritance. Insanity is hereditary in a marked degree, but, fortunately, like many other hereditary diseases, tends to wear itself out, the stock becoming extinct. A distinguished scientist truly says: "No organ or texture of the body is exempt from the chance of being the subject of hereditary disease." Probably more chronic diseases, which permanently modify the structure and functions of the body, are more or less liable to be inherited. The important and far-reaching practical deductions from such facts-affecting so powerfully the happiness of individuals and families and the collective welfare of the nation-are obvious to reflecting minds, and the best means for preventing or curing these diseases is a subject of intense interest to all. Fortunately nature has provided a remedy, which experience has attested as infallible, and the remedy is the world-famous Swift's Specific, a pure vegetable compound-nature's antidote for all blood poisons. To the afflicted it is a blessing of inestimable value. An interesting treatise on "Blood and Skin Diseases" will be mailed free by addressing THE SWIFT SPECIFIC CO.,
