SIMMONS
LIVER
REGULATOR
TORPID LIVER
Known by these marked peculiarities:
1. A feeling of weariness and pains in the
back, head, and limbs.
2. Bad breath, bad taste in the mouth,
and furred tongue.
3. Constipation, with occasional attacks
of diarrhea.
4. Headache, in the front of the head;
nausea, dizziness, and yellowness of
the skin.
5. Heartburn, loss of appetite.
6. Distention of the stomach and bowels
by wind.
7. Depression of spirits, and great melan-
choly, with lassitude and a disposition
to leave everything for to-morrow.
A natural flow of bile from the Liver is
essential to good health. When this
is obstructed, it results in
BILIOUSNESS,
which, if neglected, soon leads to serious
disease. Simmons' Liver Regulator exerts
a most beneficial influence over every kind
of biliousness. It restores the Liver to
proper working order, regulates the secre-
tion of bile and puts the digestive organs
in such condition that they can do their
best work. After taking this medicine no
one will say, "I am bilious."
"I have been subject to severe spells of Con-
gestion of the Liver, and have been in the habit
of taking from 15 to 20 grains of calomel which
only did me up to three or four days. I lately
have been taking Simmons' Liver Regulator,
which gave me relief without any interruption to
business."—J. H. Hoot, Middleport, Ohio.

THE DAILY REVIEW.

VOL XII WILMINGTON, N. C., SATURDAY JUNE 16, 1888. NO 133.

It is said that C. A. Dana's royalty of 12 1/2 per cent. on each volume sold of the American Cyclopaedia has yielded Mr. Dana over \$100,000.

Dr. Convers, priest in charge of St. Clement's Episcopal Church in Philadelphia, says that it is not true that Father Maturin had seceded to the Pope.

At an auction in London recently, an egg of an extinct bird, the great auk, of which only sixty-one are known to be in existence, was sold for \$800.

Senator Tabor, of Colorado, cannot remain obscure. He is now making himself famous by using a paper weight a twelve-thousand-dollar bar of gold. This is alto-gether too costly a paper weight for a man whose night shirts cost only \$3,000 a dozen.

"The name bandanna," said a bookworm who had been looking up the subject, "was first applied in the East Indies, where the fabric first originated. Worcester says that it is a kind of silk handkerchief, or a style of calico printing in which white or brightly colored spots are produced on a red ground. It is extensively used as a head-gear by the people of warm climates. You will see Mexicans, the negroes of the South, Spaniards, and even the Ital-ians on Mulberry Bend, wearing them on their heads.

In the narrow valley where the Amazon takes its rise among the Peruvian Andes, a woman was recently burned to death because the populace believed her to be a witch. The town of Patatz, which has thus distinguished itself, lies on a well-travelled valley road, is big enough to figure on the maps and in the gaz-etteers, and from the mountains on the West the intelligent citizen must be almost able to see the railroad that has straggled into the neighbor-ing valley North of them. As the stone age of human existence, how-ever, still holds sway in some parts of the world, it is probably a little too early to expect that witches will every where take a back seat.

The Philadelphia North American says: "In the years gone by the Philadelphia Bar was eminent for its learning, ability and eloquence. Of late it has become the opinion of many lawyers that their profes-sional colleagues were being too rap-idly and too easily made, and that the high standard enjoyed by the Philadelphia Bar was falling off. Recently the Board of Judges, at their meeting, raised the student-ship and course of study from two years to three. This rule applies to the University of Pennsylvania and its Law School, as well as the stu-dents enrolled in practicing attor-neys' offices. The object of the new departure is to raise the standard of efficiency."

Distress after eating, heartburn, sick headache, and indigestion are cured by Hood's Sarsaparilla. It also creates a good appetite.

We are requested by the Secretary to announce that the next meeting of the Evangelical Alliance of Wil-mington will be held Monday, June 18th, at 8:15 p. m., in the First Baptist Church. Addresses will be made by Mr. John McLaurin and Rev. Mr. Farriss on the "Political Aggressions in America of the Church of Rome". Pastors are requested to repeat this notice from their pulpits.

Rock Crystal Spectacles and Eyeglasses. Advice to old and young: In se-lecting spectacles you should be cau-tious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is nec-essary is the daily cause of prema-ture old age to the sight. You can get the best at Heinsberger's.

The Fire Last Night.
The alarm of fire turned in last night at about 9:30 o'clock was caused by the discovery of fire on the roof of the kitchen on the prem-ises occupied by John Barry, col-ored, on Chestnut, between Ninth and Tenth streets. The department was on hand with usual prompt-ness, the Atlantic getting the only stream. The damage was slight.

First Class Pianos.

The Emerson Piano is the only make in the world that is warranted for seven years. Some of the essen-tial qualities of this piano are ele-gance of design and finish, purity, strength and sweetness of tone, great volume of power, together with an even and perfectly balanced scale and a delicate and elastic ac-tion. J. L. Stone, of Raleigh, will furnish the names of hundreds who are now using them in this State, to any one who will write to him.

If you want to feel comfortable and well all you need is a good Ham-mock. You will find the largest as-sortment and cheapest at Heinsber-ger's.

The Encampment.

Anything in regard to the ap-proaching encampment of the State Guard at Wrightsville is read now with much interest, and hence the following circular, issued by the Ad-jutant-General, will be found of in-terest:

1. The troops will arrive at camp on Tuesday evening, July 17. At noon next day the camp will be for-mally opened with appropriate cere-monies, and the guard-lines estab-lished. Troops will break camp Friday, July 27.

2. The movement by rail will be as may be hereafter directed in gen-eral or special orders.

3. Camp Pender is located at Sea-side Park, Wrightsville, directly on the Sound, in full view of the ocean, a quarter of a mile from the railway station, and eight miles from the city of Wilmington.

4. Each Regiment will have its own camp, camp-guards and guard-lines, but the several camps will be located upon the same grounds in close proximity to each other. The tents will be pitched, floored and ready for occupation upon the ar-rival of the troops. No efforts will be spared to make this encampment as complete and comfortable in con-struction and appointments as the means and facilities at hand will al-low.

5. Each company must rely on it self for subsistence, it being out of the power of the State authorities to supply rations. Each company should go prepared to establish com-pany messes. To this end two cooks and one caterer should be em-ployed by each company. Fresh meats, fish, vegetables, fruit, milk, and provisions of all kinds can be purchased at Wilmington or at the camp. For special information on this subject, commanding officers are instructed to communicate with Col. John J. Cantwell, Commissary General, Wilmington, who will aid in making all necessary arrange-ments for food supplies.

6. The following is a liberal ra-tion: Twenty-two ounces of bread; three-fourths of a pound of salt meat, or one pound of fresh meat; one-tenth of a pound of coffee; one-eighth of a pound of sugar; and salt, pep-per, pickles, vinegar, &c., ad libitum.

7. Provision must be made for a period of nine days exclusive of the time consumed in traveling. The cost of rations ought not to exceed three dollars per man.

8. The provisions should be care-fully boxed in convenient packages, and should be labelled with the name of the company, &c., and be transported at the same time with the company.

9. Each soldier must be complete-ly equipped. In addition to his uni-form, a change of underclothing, his rifle, cartridge-box, bayonet-seaboard and waist-belt and plate, he must have a blanket, knapsack, haversack, canteen, plate, cup, spoon, knife and fork. The State will supply all these articles except blankets. Company commanders should forward immediately to the Quartermaster General at Raleigh requisitions for such of the above named articles as they may need.

10. It is particularly desirable for comfort of the men that all organi-zations should be provided with fa-tigue uniforms, for use in camp and for drills.

11. Men should provide themselves with rubber blankets and rubber overcoats.

12. Each soldier should take with him a "bed-sack" of light material, two feet wide and six feet long, to be filled with straw on arrival in camp, as no loose straw in tents will be permitted, the tents being floored.

13. Company and Field Officers must be prepared to execute Bat-talion movements readily, as, in a tactical point of view, the main ob-ject of the encampment is the in-struction of the troops in field tac-tics. Companies are expected to be already well drilled in the school of the company.

14. While strict discipline must be enforced, ample time will be al-lowed for recreation and enjoyment. Nothing will be left undone to se-cure the comfort and contribute to the reasonable pleasure of the men consistent with the practical objects of the encampment. Every mem-ber of the Guard, it is hoped, will take pride in doing his part, faith-fully and well, towards making this encampment a success in every re-spect and of real value to the State.

After the clinics closed the Asso-ciation met in regular session, and papers were read by Dr. Winder, of the Baltimore College, on "Treat-ment of Dead Teeth."
