It is safe to say that not one woman in ten sand lives a single week in which she does not either cry or feel like crying. The cares of itte, disappointments, and, more than all else, weakpesses and pains make all women more or ess miserable. This is all wrong. Women were made for happiness, not for misery. When a man is weak she requires strength. Her body. per mind and all her faculties and functions must be put in a healthy condition, or she cannot secure strongth. Nature is always ready to do this, but nature almost always requires assistance, and the question therefore is, " How can we best againt nature?"

The finest physicians in the medical profession ave agreed that nothing so surely and easily less this as pure spirits taken in moderation, other before meals or between meals. The efect is to gently and healthily stimulate all the des to vigorous action, and tour nature is ed and strength is given. There are hun-of thousands of ladies in America, to-day, are growing stronger, healthier and more are growing stronger, healthier and more ractive in appearance by the judicious use of the Pure Mait Whiskey. Many of these has are the wives of Ministers and Professors, d hundreds of them are Temperative women, by realize that Duffy's Pure Mait Whiskey is madicine, not a drink, and that it furnishes a best and only positive help to weakened fies that has ever been discovered. Great abould be exercised, however, to secure the ground which is absolutely pure, for only the genuine, which is absolutely pure, for there are very many so-called whiskies in the market that are a positive injury to any one who uses them. We venture to assert, however, ot one woman in five hundred who will by use this great aid to health in moderacontinue to suffer from weaknesses on the contrary, will find a renewal not of youthful vigor but of color, brightness, all those qualities which indicate the prece of perfect health.

Lieut. Brown's West Point's sta tistics go back fifteen years. They show that since 1873 cadets have been admitted to the Academy to have graduated. Of the admitted men, 502 were appointed as the result of competitive examinations. Three hundred and six of these, or 61 per cent., were graduated; 60 resigned and 125 were discharged-Those appointed directly numbered 638, of whom only 280, or 44 per cent., were graduated. The resignations numbered 143 and 204 were discharged. The first five men of every class are considered the honor men and are assigned to the engineer corps. Since 1873 at least three-fourths of these have been men appointed after competition. Those who resign are men who, after coming here, find the life of a cadet too irksome for endurance. Their ambition gives out. They could graduate probably if they had the nerve, but they prefer to give it

up. The statistics show that a greater percentage of the competitive men go through to the end, thus demonstrating that they knew what they wanted when they came here, more than those appointed directly.

Eleven non-commissioned officers have already passed their examinations before department boards for promotion to be second lieutenants, and will duly be examined before the final, or Fortress Monroe, board. A very unusual fact is the good fortune of the 7th cavalry, which furnishes no fewer than three out of the eleven candidates, these being the first sergeants of Troop B, Troop E, and Troop G. The 1st artillery is also in luck, having two corporals in the list, one of Battery L and the other of Battery G, the latter hiding under the nom de guerre of Moses A. Gray the more distinctive name of Zalinski, he being, in fact, a brother of the well known captain of the 5th artillery. The remaining! candidates are three sergeants of the 12th, 17th and 18th infantry, and three corporals of the 7th, 15th and 16th. The success of the non-com missioned officers in securing promotions last year, when the chances of vacancies looked desperate, will leave little ground of doubt about the present year, when the graduating class of West Point is much

An Important Announcement About six weeks ago, while at business, I was suddenly attacked with excruelating pains in my feet, knees and hands. So severe the attack that I took my bed immediately, and in two or three days my joints were swollen to almost double their natural size. swollen to almost double their natural size, and sleep was driven from me. After suffering the most excruciating pain for a week, using liniments and various other remedies, a friend who sympathized with my helpless condition, said to me:

"Why don't you get Swift's Specific and use it. I will guarantee a cure, and if it does not the medicine shall cost you nothing."

I at once secured the S. S. S., and after using it the first day, had a quiet night and refreshing sleep. In a week I felt greatly benefitted. In three weeks I could sit up and walk about the room, and after using six bottles I was out and able to go to business. Since then I have been regularly at my post of duty, and stand on my feet from nine to ten hours a day, and am entirely free from pain. These are the plain and simple facts in my case, and I will cheerfully answer all inquiries relative thereto, either in person or by mail.
