Tiger Cigarettes will give satisfaction. 1w
Tiger Cigarettes a substitute for paper wrapped goods. 1w

Headquarters for Bass Balls, Bats, Masks, Gloves, Belts &c., is at Heinsberger's.

Wire Cloth for your windows and doors can be had at Jacob's Hdw. Depot.

Burglars. You can be safe from them by using the Burglar Proof Blind Locks, sold at Jacob's.

A peculiarity of flood's Sarsaparilla is that while it purifies the blood, it imparts new vigor to every function of the body.

If you want to feel comfortable and well all you need is a good Hammock. You will find the largest assortment and cheapest at Heinsberger's.

For North Carolina, stationary, followed by warmer weather and on Saturday fair weather, preceded by rain on the coast.

People will read the REVIEW with profit and pleasure to themselves. The bunch of keys advertised yesterday as lost were recovered to day and the boy who found them is half a dollar better off.

There has been the dullness of death in the reportorial world to-day. Yesterday we had the doings of the Fourth to chronicle and that kept us all busy then, but to-day there seems to be a stagnation every where.

Mr. John Werner is now occupying his old stand, No. 29 Market street, which has been thoroughly overhauled, repaired and refitted. He will also keep up the barber shop on Second street.

Bathing Suits. Come down to Headquarters. 25 dozen Flannel Bathing Suits, in all sizes and colors, sold at the lowest manufacturing prices at the Wilmington Shirt Factory, 27 Market st., J. Elsbaeh, Prop. Look for the blue awning.

Let it continue to be the Hummocks, or Hammocks, as may be preferred, and let the name of the hotel correspond. The Hammock House or the Hummock House would sound equally well. It is odd and there is just enough of artful alliteration about it to please the ear.

Attention Young Men's Democratic Club. All members are hereby notified that I. Shrier has the contract to furnish uniforms, where subscriptions and names for enrollment will hereafter be received.

E. H. FREEMAN, Chm Finance Com.

Rock Crystal Spectacles and Eyeglasses. Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

Another Tub Race. There having been some dissatisfaction expressed in regard to the tub race at the Sound on the Fourth, it has been decided to repeat it and it will take place on Tuesday, the 26th inst, at the same place, by the same contestants. The judges at the last tub race were Messrs. A. F. Davis and Frank Rowan. Mr. W. J. Spooner challenges any man in this city or elsewhere to run a special tub race with him.

From Freund's Music and Drama New York.
The Emerson Pianos are remarkable for their full, free tone, which is both beautiful in quality and very powerful; its evenness and sympathetic touch commend it to all musicians. The new scale, which has been put in the new styles, has greatly added to and increased the musical qualities of the instruments.

10,000 Tiger Cigarettes have been sold here to one organization, for private use. 1w

The celebration of the Fourth was continued last night by the display of fireworks in various parts of the city.

Turner's almanac says that it will be "very rainy" on or about Monday. The farmers will be glad to see the prediction fulfilled.

Fishing Tackle. A full assortment of all kinds for both salt and fresh water fishing at Jacob's Hdw. Depot.

Some Changes.
Mr. Leta Potter, who has served so acceptably to the traveling public as mate of the steamer "Passport," has resigned that position and has been succeeded by Mr. Martin Chadwick, an experienced officer, who was formerly master of the steamer tug "Alpha." Capt. Potter will take charge of the steam yacht "Tarpon," which recently arrived in at the Hummocks and which will be used there as a pleasure boat, to take out sailing and fishing parties.

Personal.
Mr. James Lesene, of Abbottsburg, was in the city to-day.

Col. Julius A. Grey and Maj. Roger P. Atkinson, of the Cape Fear & Yadkin Valley Railroad, are here to-day.

Mr. A. S. Heide has returned to the city from an extended visit to Continental Europe.

Hon. James Wilson, Ex-Mayor of the city, has returned from a visit to New York and Chicago and other cities in the North and West. He has been absent since last Fall.

The Rosa in the Regatta.
In some way, just here it is difficult to explain now, that part of our copy yesterday relating to the "Rosa" as the winner of the prize for the second class yachts was omitted. We regret it but it was purely accidental. The "Rosa" won the distinction right gallantly. She was sailed by Mr. W. L. Smith, who had an excellent crew with him. She is a gallant little boat and her mast-head is no stranger to the champion flag, she having worn it right royally in former years. A pair of field glasses was the prize. Col. John W. Atkinson made the presentation and Mr. Smith responded in his own behalf, in a very happy little speech.

The American Magazine.
Every month shows a decided improvement in this publication. The July issue is particularly interesting. While maintaining its high literary standing, preference is given to the class of matter which is appropriate for summer reading. Some of the articles in this issue are: The Walters Art Collection, Spiritualism and Like Delusions, Other Miss Norie, the Chase International Copyright Bill, Ecuador and Her Cities, Housekeeping by the U. S. Government, Early New England Choirs and Singing Schools, Two Coronets, &c. Those are the prose articles. The poetry is remarkably fine. Charles Mellwaine (Tobe Hodge) has a very appropriate July poem on the Minute-Men of Morgan's Spring, and Bessie Chandler speaks to a Child. Another poem is entitled My Kindred, by James B. Kenyon.

Did You See Them?
Did anybody here see from the city the rockets which were sent up at the Hummocks on Wednesday night? They ought to have been visible from some piazzas. The Atlantic Ocean is only about 8 miles distant "as the crow flies." The convexity of the earth, if we remember correctly, is 5 inches to the mile, and at this rate 40 inches would cover the convexity between the city and the sea. Some of the rockets were sent up pretty straight and their perpendicular ascension must have been at least 150 or 200 feet. They made a light strong enough to have been plainly visible more than eight miles. The light at Bald Head is 11 1/2 feet from the ground and it is seen nearly 20 miles out at sea, and during the first fight at Fort Fisher, on Christmas night, 1864, the flash of the guns was plainly visible from "Sunset Hill," near the foot of Nun street.

Another lot of those celebrated Oil Stoves just received at Jacob's Hdw. Depot. It will pay you to use one.

Tiger Cigarette smoke can be inhaled without danger. 1w

The Old Company.

Quite a number of the survivors of Co. I, 18th N. C. Regiment (Wilmington Rifle Guards) went down on the *Sylvan Grove* to Carolina Beach on the Fourth. We had intended and desired to be with them but were compelled to forego the pleasure and privilege. Old Camp Wyatt, where the company first went into the regimental camp, was visited and many pleasant memories were recalled. The old camp ground was solemnly saluted and then those of the survivors who were present adjourned to Messrs. Engle & Zoel-lo's photographic gallery, where a group picture was taken. Mr. Thos. H. Sutton, of Fayetteville, was present and read a very interesting paper which he had prepared. It gives a very interesting sketch of the organization of the company and its gallant career, but there are two small items which we wish to correct, merely for the purpose of getting the record straight. The regiment did not go direct to Coosa-whatchie, in South Carolina, from Camp Wyatt, but from near Fort Fisher, where they had been encamped for some little time. Co. I having been detached and ordered to "Camp Starvation," near the Fort, some time in advance of the regiment. Our old comrade can easily recall this fact to mind when he remembers the tedious heavy artillery drills at the earthworks which were then being constructed by Col. J. J. Hedrick.

Also, the incident alluded to by Comrade Sutton relative to our regimental drum-major, "Prof." Williams, which occurred at Kingston, where the regiment first went into brigade camp, under the lamented Gen. L. O'B. Branch, a short time after the fall of Newbern. The Seventh North Carolina was encamped near us and we remember distinctly seeing several of its officers in our camp that night, among them Capt. (then Lieut.) Walter G. McRae, of this city.

As we write thus hurriedly a throng of incidents and scenes comes back to us, of no interest perhaps to the public, but of much interest to the survivors of the old company and the regiment. We will mention but one, as it is a matter worthy of being placed on record. At "Camp Starvation" we examined carefully the muster roll of the company.—There were 96 men, rank and file, on the roll. The four commissioned officers were each 23 years of age and the average age of the company was but 20 1/2 years. There was but one married man in the company and that was the "Prof." Williams alluded to. He was the shortest in stature of any men in the company and he was then 33 years old. We have often wondered if there was a company in the Confederate service that could beat this record.

Complimentary Excursion.
The Queen of St. John's made her first trip down the Cape Fear today, leaving her dock about 2:30 this afternoon. The excursion was given complimentary to the members of the Produce Exchange and the Chamber of Commerce and their families. It was decided on yesterday afternoon. The Cornet Concert Club and the Germania Band were also invited but the latter did not go. There was a very large party, the number being estimated all of the way from 1,000 to 1,500 people. It was not decided, when the steamer left here, how far down the river the run would be. The Cornet Concert Club was playing when the steamer left her dock.

This has been one of the sultriest and most uncomfortable days of the season. The thermometer registered 90 degrees in this office at 3 o'clock.

If a young man feels that his life is a blank, he should try to fill it out and have it sworn to.

Quarterly Meetings.
