A battle axe of great size, that was once the property of some prehistoric chieftain, was recently dug up near Bradford, Ohio, in a neighborhood that is rich in Indian relics. The axe is made of a gigantic elk's horn, and, singularly enough, there is engraved upon it the date 1402, ninety years before the discovery of America by Columbus. The axe is elaborately and beautifully carved, and furnishes an interesting puzzle to the local antiquaries.

The immigration into the United States for the fiscal year ending June 30th exceeded that of the previous year by 60,000 persons. More than 550,000 people were received from foreign lands and given homes and employment, mostly in the thinly settled sections of the West and Northwest. This number has never been exceeded save in the years 1881, 1882 and 1883, and the indications are that the rate of increase will be continued throughout the coming year. There is no sign of diminution in the flow.

A writer in Chambers' Journal figures out from official data that the number of Smiths in England and Wales is 355,814, and that "there are that you were a product of nature." more Smiths in England and Wales than there are people in Dublinindeed excluding London, there are only four towns in the United Kingdom, namely: Birmingham, Glasgow, Liverpool and Manchestercontaining more people than there are Smiths, while twenty-six out of the fifty-two counties of England and Wales, or one-half, have fewer people than the immortal house of Smith has representatives."

Dr. McGlynn's Anti-Poverty Society, of New York, has entered upon the consideration of the question whether or not it will refuse to grd Distri pay any more land rent. There 5th District, Walter Clark, of Wake. was a large attendance at the meeting in Cooper Union Sunday night, and the assemblage hissed the Pope, Archbishop Corrigan, President Cleveland and Henry George, and Cleveland and Henry George, and jeered at District Attorney Fellows. Dr. McGlynn spoke briefly on the subject of the legality of a proposed plan of campaign against landlordism. The plan, as explained by him, had two outlets for Anti-Povertyites. The first plan was to get as many people as possible, 15,000 or 20,000, to agree that after a certain date they would pay no more rent for land, and only a fair rental for the use of the houses, as the land belonged to the people. Then the rent-paying people were to retain possession of the houses until evicted by process of law. As there are only eleven District Courts to issue dispossess warrants the speaker said landlords would become discouraged and reduce the rents to a reasonable basis. If, however, this plan was deemed inexpedient because of the magnitude of the undertaking, Dr. McGlynn suggested that all the tenants move out of a block of houses at one time and workingmen agree that they would not move into it until the land rent was waived and a reasonable house rent accepted by the owner. The plans both met with such hearty applause that it could not be determined which the audience preferred and the sub ject will be discussed again.

An Important Element

Of the success of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his monev. The familiar headline "100 Doses One Dollar," stolen by imitators, is original with and true only of Hood's Sarsaparilla. This can easily be proved by any one who desires to test the matter. For real economy, buy only Hood's Sarsaparilla. Sold Granville-Jan. 30th, April 23d, Sept. 10th,

JULY JUMBLES.

Charlotte (who has an income of 30,000 marks)-"In fact, sir, my heart already belongs to another. Karl (her persistent suitor)-"Ah ! Then he may be easily satisfied; and as for me, I shall be content with the rest."-Humoristiches.

Passenger (on Western railroad)-"How long will we stop at the next station for lunch, conductor?" Con ductor-"I dun no yet. I telegraphed ahead for a fried chicken, and if it's ready when we get there we won't stop more'n ten minutes."-Tid-Bits.

Brown-"You are looking bright and happy this morning, Dumley. Dumley-"Yes, I'm out of debt at last. Every bill I owed was outlawed yesterday. I tell you, Brown, a man feels like a man when he is square with the world."-New York

Landlady (to applicant for board) —"Have you any children madam?" Applicant-"No." Landlady-"You are fortunate, for we never take families who have children." plicant-"Have you any childre a?" Landlady-"Yes, two." Applicant -"Well, you are unfortunate, for we never board with families who have children."--New York Sun.

'Yes, sirree! I'm a self made man; and I don't wish you to forget it. Mr. Filkin-a self-made man, sir! "Ah, indeed!" replied Filkm. really very glad to hear it, Mr. Bjones. Do you know, I always thought there was something amateurish about you, and I see now why it is. I didn't like to think -Harper's Bazar.

The importance of purifying the blood not be overestimated, for without pure blood you cannot enjoy good health. At this season nearly every one needs a

good medicine to purify, vitalize, and enrich Peculiar Sarsaparilla. It strengthens and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. The peculiar combination, proportion, and preparation of the vegetable remedies used give to Hood's Sarsaparilla pecul-iar curative powers, No To Itself other medicine has such a record of wonderful cures. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other instead. It is a Peculiar Medicine, and is worthy your confidence. Hood's Sarsaparilla is sold by all druggists.

Inherited

In the realm of disease the facts of inaccumulating. Here, alas, they become terrible, fateful and overwhelming. No fact of nature is more pregnant with awful meaning than the fact of the inheritance of disease. It meets the physician on his daily rounds, paralyzing his art and filling him with dismay. The legend of the ancient Greeks pictures the Fories as pursuing families from generation to generation, rendering them desolate. The Furies still ply their work of terror and death, but they are not now clothed in the garb of superstition, but appear in the more intelligible but no less awful form of hereditary disease. Modern science, which has illuminated so

many dark corners of nature, has shed a new light on the ominous words of the Scriptures, "The sins of the fathers shall be visited upon the children unto the third and fourth generation." Instances of hereditary disease abound. Fifty per cent. of cases of consumption, that fearful destroyer of families, of cancer and scrofula, run in families through inheritance. Insanity is hereditary in a marked degree, but, fortunately, like many other hereditary diseases, tends to wear itself out, the stock becoming extinct. A distinguished scientist truly says: "No organ or texture of the body is exempt from the chance of being the subject of hereditary disease." Probably more chronic diseases, which permanently modify the structure and functions of the body, are more or less liable to be inherited. The important and far-reaching practical deductions from such facts-affecting so powerfully the happiness of individuals and families and the collective welfars of the nation-are obvious to reflecting minds, and the best means for preventing or curing these diseases is a subject of intense interest to all. Fortunately nature has provided a remedy, which experience has attested as infallible, and the remedy is the world-famous Swift's Specific, a pure vegetable compound-nature's and ote for all blood poisons, To the afflicted it is a blessing of inestimable value. An interesting treatise on "Blood and Skin Diseases" will be mailed free by addressing THE SWIFT SPECIFIC CO.,
