BANK OF NEW HANOVER—Dividend Notice

Tomatoes can be bought now for 20 cents a peck.

New moon this afternoon at 7 minutes past 1 o'clock.

Mr. L. Voilers, of Point Caswell, was in the city to-day on a brief visit.

Indications.

For North Carolina, fair weather and stationary temperature.

The thermometer in this office stood at 94 degrees at 12, 1 and 2 o'clock.

Watermelons are somewhat scarce, but six nice ones were bought from a flat to-day for a quarter.

The glare of the electric lights here can be seen at Wrightsville Sound on a dark night.

Burglars. You can be safe from them by using the Burglar Proof Blind Locks, sold at Jacob's.

The many remarkable cures Hood's Sarsaparilla accomplishes are sufficient proof that it does possess peculiar curative powers.

Fishing Tackle. A full assortment of all kinds for both salt and fresh water fishing at Jacob's Hdq. Depot.

Dog collars. Largest and finest assortment ever before brought to this city, to be had at Jacob's Hdq. Depot.

Mr. M. A. Curtis, formerly of this city, but now of Tarboro, was at the Hummocks yesterday, returning home to-day.

The Firemen's Tournament Committee will meet again to-morrow night, at the Atlantic Hall, corner Princess and Fourth streets, at 8:30 o'clock.

It is rather difficult work, grinding out local items with a fan in one hand and a pencil in the other, a fly creeping down the back and a mosquito buzzing about the end of a fellow's nose.

Hands Wanted.

Fifty experienced hands wanted on pants at once. None but experienced hands need apply.

I. SHRIER.

Clothier and Hatter,
16 N. Front street.

Bathing Suits. Come down to Headquarters. 25 dozen Flannel Bathing Suits, in all sizes and colors, sold at the lowest manufacturing prices at the Wilmington Shirt Factory, 27 Market st., J. Eisbach, Prop. Look for the blue awning.

City Court.

There was a large crowd assembled at the City Court this morning and a docket that showed up several cases which were disposed of as follows:
J. H. Straus doing business without license, discharged.
W. H. Howe, doing business as a stevedore without a license, case transferred to L. H. Bowden, J. P.
W. Macks, larceny, bound over to the next term Criminal Court in the sum of \$100, justified bond.
Henry Howard, throwing rocks, discharged.

The Campaign Organ.
The numerous newspaperers of the State have put on their war paint and settled down to business. We may expect some lively music before November. The best campaign organ and one we can recommend is sold by J. L. Stone. Polite and attentive salesmen will take pleasure in showing instruments and giving prices.

Rock Crystal Spectacles and Eyeglasses. Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's!

If you want to feel comfortable and well all you need is a good Hammock. You will find the largest assortment and cheapest at Heinsberger's.

Board of Aldermen.

The Board met last night. A petition was presented, signed by officers of the Fire Department, asking that an appropriation of \$200 be made in aid of the fund for the approaching Firemen's Tournament. Granted.

Alderman King, from the Committee on Water Works, addressed the Board, stating that various complaints had been made by citizens as to the quality of water and the insufficiency of the supply furnished by the Water Works Company and as the minority of the committee he had asked of the Board of Audit and Finance that they withhold payment of the Water Works Company's monthly bill until an investigation was had. He asked the Mayor to appoint a committee of three to investigate the contract and see if the company cannot be made to comply with its provisions. The motion to appoint a committee prevailed, and the Mayor appointed Alderman King, Ricard and Price as said committee.

It was ordered that the communication of Alderman King to the Board of Audit and Finance in relation to the Water Works Company, which had been returned by that board, should be spread upon the minutes. A petition to saw-dust Fifth and Sixth streets, between Queen and Dawson, was referred to the committee on Streets and Wharves. A petition from merchants on Market street to have the gutter on the north side of that street between Front and Second properly graded, was referred to the same committee. Application of Howard Relief Engine Co; for repairs to engine house—to cost probably \$100—was read and granted.

Petition for the erection of a market house, from people living north of Orange, south of Walnut and east of Fifth street, was referred to Committee on Streets and Wharves.

Alderman Price submitted a resolution, which was adopted in the form of an ordinance, imposing a fine of ten dollars upon any person or persons burning paper or trash in the streets without first obtaining permission from the Mayor.

Alderman Ricard offered the following resolution, which was adopted:
Resolved: That the Committee on Ordinances be instructed to prepare an ordinance prohibiting the use, within the fire limits of the city, of steam engines and other machinery dangerous to contiguous property except under such conditions and precautions as may be designated in the terms of said ordinance.

The Mayor announced that he had appointed Mr. Ed. Daniel, Police Court clerk, to fill the vacancy caused by the resignation of Mr. G. H. Greene. Action approved.

The Chief of Police was instructed to test fire-hydrants at Seventh and Mulberry and Seventh and Ann streets, and report to the Board.

The Fish in the Channel. The gangway at the Hummocks was full of fishermen yesterday, there being some ladies also among the number. The channel appeared full of skipjacks and the catch during the day was very fine. We were there during the afternoon and it was a sight worth seeing. Thousands of sand perch could be seen swimming about near the top of the water and there were frequent commotions visible where the skipjack would strike at the luckless perch. Add to this the birds which filled the air, descending swiftly every moment to catch up a fish, and you have the picture. It is one well worth the ride to see, even if you don't throw a line in the water.

Sunday School Excursion. An excursion to Carolina Beach will be given by the Grace M. E. Sunday School, on the steamer Sylvan Grove, on Thursday next, the boat leaving at 9:30 o'clock. The ladies will serve refreshments on board and a large attendance is surely expected. The management will spare no pains to make the occasion pleasant to all who may attend.

A CHILD KILLED.
Another child killed by the use of opiates given in the form of Soothing Syrup. Why mothers give their children such deadly poison is surprising when they can relieve the child of its peculiar troubles by using Acker's Baby Soother. It contains no Opium or Morphine. Sold by Munds Bros., druggists.

Audit and Finance.

The Board met in regular session yesterday afternoon.

A petition asking the Board to appropriate the sum of \$300 for the Firemen's Tournament fund was, on motion, laid upon the table, to await action in the matter by the Board of Aldermen.

The following communication from the chairman of the Committee on Water Works of the Board of Aldermen was read:

GENTLEMEN:—As one of the Committee on Water Works from the Board of Aldermen, I would most respectfully ask that you withhold the payment of the Clarendon Water Works Company's monthly bill, on the ground—

1st. They contracted to furnish water suitable and fit for domestic use; whereas, in fact, it is totally unfit, except that they consider it dirty, muddy river water as such.

2d. They guarantee at all times a sufficient pressure to throw from any five fire hydrants at one and the same time, through one-inch nozzles, five streams of water to an average height of one hundred feet. That they have not come up to this part of the contract I respectfully refer you to the monthly tests made by the Chief of Police. At a recent fire (on the 20th day of July) they failed (either from insufficient pressure or that the hydrant had not been properly flushed, or some other cause) to throw a stream from the hydrant on Seventh and Mulberry streets exceeding twenty-five feet, thereby impeding the efficiency of the Fire Department toward controlling the said fire, and but for the fact of recent heavy rains might have resulted in great damage to the property of the surrounding neighborhood.

3d. The citizens, especially from said part of the city, are clamoring for redress and threats have been made towards testing the validity of paying for that which in their judgment they did not get value received.

Trusting that you will comply with the request, at least until an investigation can be had, I am, gentlemen, yours, very respectfully,

JAS. W. KING,
Member of Water Works Committee Board of Aldermen.

On motion of Mr. Calder the Board decided not to withhold payment of the company's bill, and to refer the petition to the Board of Aldermen.

A petition from the Howard Relief Fire Engine Company, asking for an appropriation for repairs to engine house, was on motion laid upon the table, the Board considering that application should first be made to the Board of Aldermen.

The chairman (Mr. Jones) to whom was referred the matter of placing a fire-hydrant at Fifth and Queen streets (approved by the Board of Aldermen) reported that according to the contract with the Water Works Company the city would have to bear the expense of laying the main, which would be about \$700. On motion of Mr. Calder the matter was referred to the Board of Aldermen with the above statement of facts and disapproval of the petition.

Bills were audited and approved as follows: For current expenses, \$5,583.52; bonds, \$22,400; coupons, \$10,021.50. Thirty bonds and 609 coupons, which had been redeemed and cancelled, were burned in the presence of the Board.

County Commissioners.

The Board of Commissioners met at the Court House yesterday afternoon. All the members of the Board were present; Chairman Baggs presiding.

County Treasurer Hewlett submitted his monthly report, showing a balance on hand to the credit of the General Fund, amounting to \$11,806.58; educational fund, \$12,327.15. Total \$24,133.73.

County Register Sampson reported \$9.08 received as fees for marriage licenses issued during the month of July and exhibited the Treasurer's receipt for the amount.

It was ordered that the Seacoast railroad be assessed at \$4,250 per mile.

Ordered, that M. Dowling be granted permission to peddle goods, wares and merchandise without the payment of county tax.

Ordered, that Robt. Nixon and G. F. Horne be allowed to list taxes.

Ordered, that the railroad of the New Hanover Transit Co. (1 1/2 miles) be assessed at \$4,000 per mile.

The Board proceeded to draw the regular venire of jurors for the September term of the Criminal Court, and the term of the Superior Court, which meets the fourth Monday in September, as follows:
Criminal Court—G. S. Willis, J. F.

PLEASE NOTICE
We will be glad to receive communication from our friends on any and all subjects of general interest, but
The name of the writer must always be furnished to the Editor.
Communications must be written only on one side of the paper.
Personalities must be avoided.
And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so stated in the editorial columns.

Subscribers will please report any and all changes to receive their paper regularly.

TORPID LIVER
Known by these marked peculiarities:
1. A feeling of weariness and pains in the limbs.
2. Bad breath, bad taste in the mouth, and furrowed tongue.
3. Constipation, with occasional attacks of diarrhoea.
4. Headache, in the front of the head; nausea, dizziness, and yellowness of skin.
5. Heartburn, loss of appetite.
6. Distention of the stomach and bowels by wind.
7. Depression of spirits, and great melancholy, with lassitude and a disposition to leave everything for to-morrow.
A natural flow of Bile from the Liver is essential to good health. When this is obstructed it results in
BILIOUSNESS,
which, if neglected, soon leads to serious diseases. Simmons' Liver Regulator exerts a modulating influence over every kind of biliousness. It restores the Liver to its normal working order, regulates the secretion of bile and puts the digestive organs in such condition that they can do their best work. After taking this medicine no one will say, "I am bilious."
"I have been subject to severe spells of Congestion of the Liver, and have been in the habit of taking from 15 to 20 grains of calomel which generally had me up for three or four days. Lately I have been taking Simmons' Liver Regulator, which gave me relief without any interruption to my work."—J. Hogg, Middletown, Ohio.
ONLY GENUINE
Beware of cheap imitations. Wrapper is red and white. Wrapper of H. T. Jellin & Co., Philadelphia, Pa.
