THE DAILY REVIEW.

VOL XII WILMINGTON, N. C., THURSDAY, AUGUST 23, 1888. NO 170.

A citizen of Winneconne, Wis., has succeeded in tempering brass, and has exhibited brass knives and axes that will cut seasoned hemlock knots without turning the edge.

An instrument, called the auto-graphometer, which records auto-matically the topography and dif-ference of level of all places over which it passes, is a new French in-vention, the utility of which cannot certainly be questioned if it realizes the results claimed for it. It is car-ried about on a light vehicle, and those who wish to use it have noth-ing to do but drag it, or have it dragged, over the ground of which they desire to obtain a plan.

The assessment roll of counties of California this year shows an in-crease of \$175,000,000 for the year, the greatest advance being made by Fresno county, which has increased by \$21,500,000. San Francisco comes next with \$10,000,000. Fresno's in-crease is due almost wholly to raisin-making. Thousands of acres have been put into choice raisin grapes, and a great increase in the product is the result.

South London is to have a new underground railroad. It is being built sixty feet under ground. Pas-sengers are to reach it by hydraulic elevators to carry fifty persons at once. The tunnel is being driven by the use of a steel shield slightly larger than the iron rings of which the tunnel is to be constructed. The steel shield has a knife edge, and is driven forward at the rate of fifteen feet a day by hydraulic rams worked by hand.

The Rev. Dr. J. B. Simmons will probably not hear the last of these words for some time. They were spoken in an address before the Baptist Publication Society: "Beau-tiful as woman was when God cre-ated her, we cannot deny that, in morals and religion, she was a de-plorable failure. From the day she turned her back upon God and God's word, (both of which things she did without any influence from Adam,) she became a heathen. Heathenism originated in her heart."

Mr. Charles Sellers, of Memphis, will not circulate any more reports about yellow fever cases in that city. The other day he indulged in some wild yellow fever talk, and was hauled up before the Police Court. The Judge said to him: "I will fine you fifty dollars, and as you are not a man of means, I will hold up forty dollars of it during your good be-havior. The reputation of our city for health is as delicate as the repu-tation of a woman, and must be protected. Now go and circulate your yellow fever stories." The prisoner shook his head. "I won't do it any more," he said. He will save money by keeping his promise.

The Republicans are at their old tricks again, but it will do them no good. They are now sending lots of boodle to the "Lone Star State" in an effort to prevent Mr. Mills' return to Congress. The following dis-patch from Washington City tells the tale:

Mr. Mills has information that large sums of money are being sent into his district by the protection-ists to assist in the fight against his return to Congress. He is kept fully advised of the situation at home, and his enemies, as they know, will make few moves with which he does not promptly become fully aware. The same game which was employed in Illinois two years ago against Mr. Morrison, and in Kentucky against Mr. Carlisle, is to be tried in Texas this year against Mr. Mills. It is no longer a new game, however, and being thor-oughly understood, will, Mr. Mills be-lieves, be beaten by the alert and incorruptible Democracy of his State. In his last run for Congress Mr. Mills received over 6,000 ma-jority.

This world is composed of queer people, some of whom are leaving it, as the following dispatch from Cincinnati to the N. Y. Star will show:

While preparations were being made at the house of Michael Wil-liam, at No. 696 Race street, this morning for the marriage of his youngest daughter a tragedy oc-curred in another part of the build-ing. The eldest daughter, Catherine, gave the finishing touches to the four tables laden with delicacies that constituted the wedding feast. Soon after she went up into the gar-ret and cut her throat, dying in-stantly. She appeared to worry over her sister's approaching mar-riage, and from all that can be

learned she feared that she was doomed to live the life of an old maid, being 31 years of age. It was decided not to postpone the wed-ding on account of the suicide.

Get rid of that tired feeling as quick as possible. Take Hood's Sa-saparilla, which gives strength, a good appetite and health.

The moonlight excursion on the Queen of St. John's to-night promises to be an enjoyable affair. It is, we believe, the only amusement on the boards for this evening and there is sure to be a good crowd on hand. An excellent band of music will ac-company the excursion and all will have a good time. The fare is only 35 cents.

Having a Good Time.
Capt. Charles Snippen and his companions are having a good time on the beach, at Wrightsville Sound. They are catching fish by the whole-sale, and the only drawback to their pleasures was in their cook leaving them to stir their own mush. He got frightened at the wind and waves on Tuesday night and "put out for hum."

Magistrate's Court.
James Hawkins, Joe Hawkins, John Hawkins, W. H. Nash, Frank Gause and Ed. Crawford, all colored and all charged with rescuing a prisoner from and assaulting Mr. S. H. Terry, Superintendent of the County Poor House and House of Correction, were tried before Jus-tice W. W. Harris in the City Court room this morning, and W. H. Nash was bound over to the Criminal Court in the sum of \$100. All the others were discharged.

At the Hammocks Last Night.
There was a pleasant gathering of ladies and gentlemen at the Island Beach Hotel last night to partici-pate in the hop given by Mr. Bryan, the clever proprietor. The occasion was a very enjoyable one and all who had the good fortune to be present spent the time most merrily. There was refreshments in abun-dance which were free to all, and the hospitable manner in which all were served was highly appreciated. On Friday night a grand german will be given at the Hotel with a dis-play of fireworks on the beach. Boats will be kept in readiness so that parties desiring to take a moon-light sail on the channel can be ac-commodated at any hour.

Thieves and Burglars—What They Are Doing.

Andrew Hines, a young colored fellow, who is charged with a bur-glary committed in Brunswick coun-ty, near Orton some months ago, was arrested last night on Nutt street by police officers Chadwick and Kunold and taken to police headquarters, where he was locked up. This morning he appeared be-fore the Mayor, who ordered him held until the Sheriff of Brunswick county called for him.

The police arrested a colored girl named Eliza Jones, about twenty years of age, charged with stealing from her employer, Mrs. Hinton, and on searching the house where the girl lived, on Swann, between Fifth and Sixth streets, last night, found some of the stolen articles—towels, handkerchiefs, pillow-slips, a piece of dress goods, and a lot of under-wear—which were taken to police headquarters. Before the Mayor this morning her case was continued until to-morrow.

Mary Eliza Corbett, colored, in the employ of Mr. B. H. Scott, living on the corner of Front and Castle streets, was also arrested last night, charged with stealing a bucket of lard. She was bound over at the city court this morning, in the sum of \$100, justified, to the next term of the Criminal Court.

Some time during last night or early this morning some rascal vis-ited the kitchen of Mr. John M. Williams, who lives at No. 310 Mc-Rae street, and took all the provis-ions he could find. Very recently the kitchen of Capt. H. B. Willis, who lives next door, was robbed of all the provisions it contained and since then Mrs. Williams has been careful to keep her groceries in the house, but yesterday she left nearly a whole ham, a piece of side meat and a package of meal in the kit-chen, all of which the thief took and along with them one of the reins of the buggy harness, which was hang-ing on the back piazza. We can't imagine what he wanted with the buggy rein, but hope that he in-tends to hang himself with it after he has eaten all of his stolen supply.

This morning about 3 o'clock some unknown thief entered the residence of Mr. H. Merritt, who resides on Market, between Ninth and Tenth streets and took \$10 from Mr. Mer-ritt's pants pocket which was lying on a chair and then went into the kitchen and took everything that he could get his hands on in the eatable line. Mr. Merritt had just got in a supply yesterday and thinks that the thief seen him while purchasing them. Mr. Merritt thinks he knows who the thief is and will have the matter investigated to-day.

There seems to be a gang of thieves operating in the Eastern portion of the city and we would suggest that four or five members of the police force be stationed in that section, and that they wear citizen's clothes. As it is the thieves know the police-men and watch them, and when they are in some distant part of their beat, for it extends from East of Fourth street to the woods and South of the W. & W. R. R. and North of Market street, they enter any premises they desire, and unless the occupants are aroused there is nobody to interfere with them and they help themselves to whatever they can find, from a horse to a stale biscuit. On the other hand the police do not know them and have not time to watch their actions even if they should suspect anything wrong, for the territory they have to trav-erse is too great to allow them time.

The Campaign Organ.

The numerous newspapers of the State have put on their war paint and settled down to business. We may expect some lively music be-fore November. The best campaign Organ and one we can recommend is sold by J. L. Stone. Polite and attentive salesmen will take pleas-ure in showing instruments and giv-ing prices.

Rock Crystal Spectacles and Eyeglasses.
Advice to old and young: In se-lecting spectacles you should be cau-tious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of prema-ture old age to the sight. You can get the best at Heinsberger's.
