ublican victory in Maine.

Gov. David B. Hill wis renominated vesterday at Buffalo, by acclamation. You can put up your stec des on New York.

Mr. Blaine will take a rest now after his brilliant success in Maine. He will speak in New York on the 29th and will then go West.

The Republican net gain in Maine through. is 149 votes. In the recent State election in Kentucky the Democratic long, was seen this forenoon to majority was nearly 50,000. But it make his way leisurely along Water was'nt thought worth while to make street and then enter the Produce a row about it. It was looked upon Exchange. The opject of his visit as a matter of course.

There has been a big delusion The steam tug Alex. T. Jones is at about the election in Maine last Skinner's ship-yard, where she is Monday, which is being rapidly being overhauled and got ready for dispelled. The Republicans have the Winter's work. A new boiler made a big blow about gains which has already been put in. She will have petered down to the solid be under command of Capt. John basis of 149 votes.

Some faint idea of the damages by floods in Augusta may be gathered from the fact that Broad street, the highest in the city, was three feet under water and all of the basements and first floors of dwellings and business houses were flooded. Some reports say that 50 persons were drowned.

According to the New York Star ME FOR PRICES AND TERMS the Republicans are seriously thinking of abandoning Indiana to the tious not to take more magnifying Democrats. There is also talk of power than has been lost to the eye giving up New Jersey and concen- as in the same proportion that you trating all of their strength on New pass that point of increase, will cause York, the old time pivotal State. > That was a grand victory the Republicaus gathered in Maine. According to the New York Herald they get 149 more votes this year than in 1884. This is a wenderful increase, and is a handsome return upon the investment there of huudreds of thousands of dollars, to say nothing of the efforts of the army of speakers who canvassed the State. It is probable that at least \$200,000 was spent there by the Republicans and at this rate the increase cost them about \$1,100 a vote. The Democrats wisely refrained from wasting their strength in Maine. They might have reduced the majority but they could but have caarried the State and hence they reserved their efforts for more profitable fields.

### The Excursion Yesterday.

The excursion given yesterday to Southport by the Germania Cornet Band, on the steamer Sylvan Grove. was one of the most pleasant of the season. There were about 150 people on the boat. On their arrival at Southport Dr. Curtis courteously extended the use of his large pavillion for dancing which they gladly accepted with thanks. The Italian harpers furnished music for the dancing and the Band rendered a number of their best pieces. In all, yesterday's ex-Bursion was decidedly one of the most pleasant we have ever enjoyed and this seems to be the general sentiment of all who were on board the beat.
