The finest physicians in the medical profession ave agreed that nothing so surely and easily oes this as pure spirits taken in moderation, ther before meals or between meals. The efcities before meals or between meals. The effect is to gently and healthily stimulate all the faculties to vigorous action, and thus nature is anisted and strength is given. There are hundreds of thousands of ladies in America, to-day, who are growing stronger, healthler and more attractive in appearance by the judicious use of Duny's Pure Malt Whiskey. Many of these ladies are the wives of Ministers and Professors, and nundreds of them are Temperance women. They realize that Duny's Pure Malt Whiskey is a medicine, not a drink, and that it furnishes the best and only positive help to weakened bodies that has ever been discovered. Great care should be exercised, however, to secure only the genuine, which is absolutely pure, for there are very many so-called whiskies in the market that are a positive injury to any one who uses them. We venture to assert, however, that not one woman in five hundred who will that not one woman in five hundred who will ruse this great aid to health in modera-it continue to suffer from weaknesses, on the contrary, will find a renewal not only of youthful vigor but of color, brightness, and all those qualities which indicate the presence of perfect health.

THEN AND NOW-DOCKERY AND THE NEGROES.

Colonel Dockery did not begin his political career with the present campaign. Thirty years ago he was a prominent member of the Legisla: ture, and upon the Journal of the House, of which he was a member left a record that is not without interest now.

The times indeed have changed since that day, and the valiant Col. onel has changed with them. This was, perhaps, to have been expect ed. But whether to be expected or not, the change has come and is so striking that we invite especial attention to one part of his record that

others also may take it in: To-day the doughty Colonel is cheek by jowl with his beloved negroes, and, unlike Judge Russell, who says the negroes are "savages," and "no more fit to govern than are their brethren in African swampsor so many Mongolians dumped down stacle. Nothing will so darken life from pagan Asia," he thinks they and make it a burden as Dyspepsia. make delightful citizens, and when Acker's Dyspepsia Tablets will cure met in convention constitute "as the worst form of Dyspepsia, Connoble a body of men as ever as-stipation and Indigestion, and make sembled in our State." Well, perhaps, too, that was natural, for Dockery was born a slave holder, educated as a slave-holder, and for about forty years lived a slave-holder, and even now, after more than twenty years of freedom, the slave-holder feeling is so strong in him that he talks about the negro women as negro "wenches." We venture to say that there are few men in the State beside Colonel Dockery who use the term.

Of course we do not expect negroes to be affected by this change in their champion's views in regard to people of their color and race; nor will it affect them to know that during the war he proposed in a public meeting in Richmond county to pro-pose to Mr. Lincoln to end the war if he would allow negroes to be held as slaves for five years longer; nor will it affect them to know that even after the war and while he was a member of Congress at Washington, he refused to vote for the 15th Amendment, the amendment that conferred upon them the right of suffrage and the other rights of citizens for all diseases. a member of Congress at Washington, he refused to vote for the 15th Amendment, the 'amendment that conferred upon them the right of suffrage and the other rights of citizenship. None of these things give them any concern. Like Gaulio of old, they care for none of these things. Poor simple minded creatures, savages though they be, as Judge Russell calls them, and utterly unfit for government, present affiliation and association will atone for the sins of a life time.

the House of Commons, a bill was introduced "to remove free persons introduced "to remove free persons of color from the State." The object of the bill, as is plain from its title, was to get rid of all free negroes. The indefinite postponement of the bill was moved, which, if done, would kill the bill. The yeas and nays were called and motion to indefinitely postpone was carried, thereby killing the bill. But Oliver H. Dockery voted against postpone. H. Dockery voted against postponement. See House Journal, pages 36, 452 and 453.

In the same Legislature, in the House of Commons, a bill was in-troduced "to enforce the collection of debts from free negroes." In this bill was a provision to put up free negroes to public hire for five years or less-practically a sale for the term for which he was bid off -to the lowest bidder. It was moved to indefinitely postpone the bill and thus to kill it, but Colonel Dockery voted against the motion. It was then moved to kill the bill by laying it upon the table, and Mr. Dockery again voted no! See House Journal, pages 250, 513, 514 and 515. So much for Dockery and free ne-

groes. Now for Dockery and slaves: In the House of Commons of the same Legislature, a bill was introduced "to prevent the emancipation of slaves by will." A motion was made to kill the bill by laying it upon the table. Dockery voted against the motion. A motion was made to insert in the bill a provision authorizing free negroes to become slaves, and Dockery voted for the motion, and when the bill came up on its final passage it was defeated, but Dockery voted for it. See House Journal, pages 229, 497, 498, 490 and 500.

To sum it all up in a few words, then, Dockery was quite willing to make slaves of free negroes, but utterly unwilling to make freemen of slaves; now free negroes are his chosen allies. Verily, water is not the only thing that will find its level. for Dockery has found his. But what a level! with a lot of free negroes! ---

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other.

Waco, Texas, May 9, 1888—Gentlemen: The wife of one of my customers was terribly afflicted with a loathseme skin disease, that covered her whole bady. She was confined to her bed for several years by this affliction, and could not help herself at all. She could not sleep from a violent itching and stinging of the skin. The disease baffled the skill of the physicians who treated it. Her husband began finally giving his wife Swift's Specific, and she commenced to improve almost immediately, and in a few weeks she was apparently well. She is now a hearty fine-looking lady, with no trace of the affliction left, Yours very truly, J. E. SEARS, Wholesale Druggist, Austin Avenue.
