teresting and Outspoken Letter.
The Rev. B. Mills is a Presbyter an clergyman and Doctor of Divinity, whose station is at Meade Centre, Kan: He is an earnest preacher, a faithful pastor and a man who has the courage of his convictions. Some time since he made a statement which appeared in the public prints and which, as all outspoken statements do, occasioned much comment, Many letters were addressed to him upon the subject, to one of which Rev. Dr. Mills replied:

"Your favor with the inclosed slip is at hand, The facts are these. My wife was an invalid for several years and, on our physician's recommendation, used a certain preparation with very great benefit. I received a letter inquiring as to its effects, to which I replied as follows: 'I am a Presbyterian clergyman, a Doctor of Divinity, not of medicine, but I am not afraid to say that

Duffy's Formula and Duffy's Pure Malt Whiskey are the purest and most effective preparations as medicines, I know of, and my experience is a large one.' I am a temperance man and never used and never would advise any man or woman to use any intoxicant as a beverage. My recom-mendation of Duffy's Formula and Whiskey was made after a thorough knowledge of their great value as medicines. The statement was made deliberately and based upon facts, and I do not hesitate to stand by it. The many temperance men who have written me on this subject do not seem to realize that I was a temperance man. in many cases, before they were born.

The above correspondence speaks for itself. It shows that an earnest, honest, orthodox minister, who desires the greatest physical as well as spiritual well-being of the world, does not hesi-tate to declare the truth about what he has found to be pure, valuable and good. The world would certainly be far better if there were more such conscientious, honest and able men.

Of Stanley. TO PROHIBITIONISTS ABOUT PRO-

HIBITION. Prohibitionists, like other folks. are of different kinds, some good. some bad and some indifferent. To the good prohibitionists a few words I saw a cow slip through the fence. may not be out of place. To the bad and indifferent ones, those who are marching under prohibition colors because they think by doing so they can best promote their heart's desire, that is to say, the success of the Radical party, there is no need to say anything. They are joined to their idols. Let them alone.

But to those prohibitionists who

have gone into this third party movement conscientiously, especially those who have gone from the Democratic ranks, we say pause for a moment and consider what you are doing. If you accomplish anything by your third party movement it must be at the expense of the Democratic party. This is certain. No man can leave the Democratic ranks without aiding the Radical party. In the nature of things it is simply impossible for Democratic party and beat down the stomach and other organs, removes majority in the State. Don't you the faint feeling, creates a good apcratic party will get? What can you good. you hope for then, by your third party movement, but to weaken the Democratic party and beat down its majority? Do you wish to do this? And if so, why should you wish to do this? The Democratic party is a party of the largest liberty. In its ranks are men of all creeds about matters non-political. It has certain political articles of faith, but outside of them it seeks not to bind the con sciences of its members. The question of prohibition is one of those non-political questions that it has never taken ground either for or against. In this it has been open, honest and consistent. Without being at all committed to the policy of besaid, prohibition, it was a Democratic One Legislature that passed the act submitting the question of prohibition to the people in 1881. For the passage of that bill the Radicals, in their State Canvention assembled in | Hood's Sarsaparilla accomplishes cures hith-Raleigh on 14th June, 1882, the same erto unknown, and has won for itself convention that made Oliver Dock- the title of "The greatest blood ery its standard-bearer for Congress, purifier ever discovered." denounced the Democratic party | Peculiarinits "good name and were in open alliance with the home,"-there is now anti-prohibition party of that year. of Hood's Sarsaparilla It has been under Democratic legis- Lowell, where THE SCIENCE OI lation, too, that local option laws than of all have passed, until the State is near-purifiers. But phenomeageon Manhood, Nerv has all this committed the party abroad, ons and Physical De either for or against prohibition? has bility, Premature De Not at all. It has only committed people ought to decide such matters

for themselves. What is the record of the Radical party in the premises? It is on all sides. Everything by turns and nothing long. Six years ago it was loud-mouthed in its denunciations of prohibition. Now it seeks to by C. I. HOOD & CO., Apothecaries, Lowell, Mass. make friends with it. In 1881, in the gross language of Judge Russell, the Radical "vote was thrown away to

and Democracy." What is there in the record of such a party to make an honest prohibitionist of Democratic antecedents leave his own ranks and go to its help? Can you tell where it will be next campaign? Don't you know its

Promises are like pio crust?
With men like Mr. Benbow and Mr. Steele, life-long Radicals, the case is different. They have everything to gain and nothing to lose by a third party movement. Everything is fish that goes into their net, the net they are setting for the Democratic party, under the name of prohibition.

Has the Radical party anything in its power that as sane men you can reasonably hope to get, for which you would barter your allegiance to the Democratic party, for which you would be willing to turn the State back to Radical rule? If you defeat the Democratic party at the next election, who will succeed to power in its place? You know you will not. You had hard work even to get out a full ticket. Wouldn't you have had a full ticket easy enough if it had even a a fight ing chance" to be elected? It must be the Radical party, then, that will succeed. Is it the Radical party, then, that you old Democrats are working for as a matter of fact? Is the prohibition, or third party, when it comes down to hard pan, but another name for Dockery and the Radical party?

Is there any bad blood, think you, between Dr. Benbow and Col. Dockery? Oh no! Does Col. Dockery care any more for prohibition or prohibitionists to-day than he did six years ago, when he was de nouncing them? Oh, no!

Pause then, old friends, and consider what you are doing before you take the final fatal step.

The Verdict Unanimous.

W. D. Sult, Druggist, Bippus. Ind., testifies: "I can rec mmend Electric Bitters as the very best remedy. Every bottle has given relief in every case.
