TONE MORE VICTIM.

The Fearful Increase of Disaster from Small Be ginnings .- A Prominent Example and the Warning that it Brings.

Colonel N. V. Whitman, of Brooklyn, returned from his vacation feeling in perfect health. As a result he was careless. The next thing was a cold; then pneumonia; then death. Nearly all physical troubles start with a cold, and this is just the season when it is most easily taken. Some sudden change checks the action of the body, clogs the circulation, and lays the foundation of death. Stop the cold in its start and you stop the disease. A cold requires the "stitch in time."

There are many ways of attempting to stop a cold, but all physicians now agree that there is only one sure way and that is, by the use of pure stimulants. The pores must be opened, the circulation aroused and vigor awakened. Nothing now known to the world does this so certainly as Duffy's Pure Malt Whiskey. It is a remedy, not a beverage. It has been used for years and is the most popular remedy before the public. Doctors, clergymen, and temperance people generally, endorse it for its health-giving qualities, and it has become a family necessity.

Rev. B. Mills, of Meade Centre, Kansas, says: "I am a Presbyterian clergyman, a Doctor of Divinity, not of medicine, but I am not afraid to say that Duffy's Formula and Duffy's Pure Malt Whiskey are the purest and most effective preparations, as medicines, I know of, and my expertence is a large one."

Many unscrupulous dealers claim they have something "just as good." Beware of all such claimants, and secure only the genuine.

accumulation in the public treasury of the millions raised by obliging the people to pay higher prices for every article they consume in living the people to pay higher prices for every article they consume in living

It is simply impossible, upon any ground, to defend the collection of such a vast sum of money from the people of the country. Experience has shown, and has shown for a long time, that the taxes were largely in excess of the real wants of the gov ernment, but still the government ernment, but still the government goes on collecting them in a reckless disregard of the necessities of the people. Two facts, then, are certain: 1st. The money is there; and 2d, there is no use for it.

Are the people willing to keep in power a party that thus recklessly. grinds from their hard earnings such vast sums of money? We think not. Let North Carolina, then, see to it that her full duty is done towards securing the success of the only party that will bring the Federal government to the same strict economy the State government uses.

But think for a moment, what a vast sum \$150,000,000 is. If it were in silver it would require 12,000 horses and mules and wagons to haul it to Raleigh, twice as many as there are in all the county, and after it got there no building could be found fitted to hold it. Why, there would be enough of it, and more than enough, to lay a double row of silver dollars along every railroad in the State; enough to lay a double row of them all around the State; being much more than enough to buy every foot of land in North Carolina at its assessed valuation. Think of it, North Carolina tax-

pavers!

A surplus revenue is a public nuisance. It gives to the government a dangerous control over the mone tary affairs of the country, and a control almost certain to be used for the promotion of party purposes. It takes productive capital from the hands of the owners, and vests it in hands where there is every temptation to use it uselessly if not viciously. The world has never known a government so pure that it would not become corrupt if a surplus revenue were permanently placed at its disposal.

Let North Carolina, then, see to it that her full duty is done towards Nov. 26th. securing the success of the only party that favors the destruction of a surplus by reduction of taxation.

....

the people to pay higher prices for every article they consume in living and for every article they use in making a living. A Democratic Congress would stop the waste and reduce the taxes, but we have not a Democratic Federal Senate. The House of Representatives only is Democratic. It is simply impossible, upon any SOLICITORS.

STATE VS. FEDERAL TAXES. (BY COL. W. L. SAUNDERS.)

For the support of the State gov ermnent proper, counting in everything, the people of North Carolina pay a tax of about 40 cents a head. For the support of town, county and State administrations, all put to-gether, they pay but little more than \$1 a head. The cost of the United States government last year was not far from \$400,000,000-a sum so big that one can only get an idea of it by reflecting that it is four times the value of all the land in North Carolina; that if in silver dollars there would be enough to lay five rows of them around the whole State, and if in paper dollars, enough to cover its entire surface: that it is over \$6 taken from the comforts or necessities of every man, woman and child, white and black, in the United States. North Carolina's share of this tax is, at \$6 a head. over \$10,000,000.

The home governments dispense justice, support the public charities, make the public improvements, educate our children, protect us in our labor by day and while we sleep by night; in short, do for us all that men institute governments to do, and costs us one dollar a head. The United States government collects from us \$6 a head, or over \$10,000, 000 in all, and comes in direct confact with us or our interests only in the ugly shape of internal revenue tax collectors. 'To no man, woman or child, white or black, in North Carolina is there, ordinarily, any direct return for this enormous taxation, save only to the Federal of fice-holders.

The home governments take the comparatively small sums required for their administration by direct taxes, taxing each man according to the value of his property, imposing the public burden in exact proportion to the share each individual receives of public protection. The headache, and refreshes the tired mind. enormous taxes collected by the United States government are indirect and paid by consumers, who pay not according to the benefits they receive from the government,

So severe the attack that I took my bed immediately, and in two or three days my joints were swollen to almost double their natural size, and sheap was driven from me. After suffer and sleep was driven from me. After suffer-ing the most excruciating pain for a week, using liniments and various other remedies, a friend who sympathized with my helpless

a friend who sympathized with my helpless condition, said to me: "Why don't you get Swift's Specific and use it. I will guarantee a cure, and if it does not the medicine shall cost you nothing." I at once secured the S. S. S., and after using it the first day, had a quiet night and refreshing sleep. In a week I felt greatly benefitted. In three weeks I could sit up and walk about the room, and after using six bottles I was out and able to go to business. Since then I have been regularly at my post of duty, and stand on my feet from nine to ten hours a day, and am entirely free from pain.
