According to an English pape the only place in which amber in calism, with all that it implies-and paying quantities has been found is we know what that is-may be put the Baltic Sea, and the vein extends an end to in North Carolina forever. from Western Russia to Denmark, Norway and Sweden. Formerly the supply depended on the storms. which tore up the amber lying at the bottom of the sea and threw it on shore: but for twenty-five years past various appliances have been used for obtaining it cheaply and remedy for this disease, which it quickly. The most profitable strata and nutrition, and by a careful application of have been found in the vicinity of Memel, and there are twenty large dredging boats constantly at work day and night for eight months in the year. Further to the west the amber is obtained by divers. Each their use. diver has a little bag round his neck and a peculiar hook, with which he pulls up the sand, and every piece of amber that he finds is thrown into the bag. Amber is also mined, for the stratum of green sand in ural, quiet sleep by relieving the which it is found extends about thir ty miles inland."

It is reported from Wheeling, W Va., that the natural gas wells about that city are showing signs of failing in the supply of fuel. These from teething or other causes. wells have been sunk in various parts of the country, particularly in Pennsylvania, Ohio, Indiana and Northern Illinois, and have in a very brief time almost revolutionized important industrial conditions Great manufacturing enterprises have grown up around them at the expense of other localities, as if the cheap fuel supply were inexhausti ble. The changes thus effected by the discovery of natural gas cover only a short period, but have been most important in results. If it should prove that after all the gas supply was so quickly exhaustible THYSELF cline, Errors of Youth as would seem to be indicated by the Wheeling report, the change back to the old conditions in the regions affected would be even more sudden and disastrous to certain localities and interests. Geology has so far told us nothing positive about the causes or the conditions of the nat. ural gas supply.

ing scattered broadcast over the State by the Republican managers, the Northern trusts and bondholders, to serve as a corruption fund with the end in view of turning us over again to the horrors of Radical rule. Does not your blood boil at the bare suggestion? Are we to be bought by the Northern bondholders who are exacting huge bonuses of us daily under the operation of the Republican laws in force, and who are headed by that very Shy lock of bondholders, Levi P. Morton? Are any large proportion of our people to be induced to vote against their own interests by Radical gold? We trust not, but at the same time we cannot shut our eyes to the fact that this corruption fund will have a serious effect, unscrupu lously used as it will be. It must be met by the earnest efforts of all good citizens to maintain the exist-FOR SUPERINTENDENT OF PUBLIC ing status of economical and efficient and creditable government. The methods we have referred to 17th. are the methods of Morton, who seeks to fasten on us his cheaply gotten claim of \$30,000,000 and more 15th. based on so-called bonds, "conceived in fraud" indeed "and brought forth in iniquity." They are methods to be opposed most strenuously by every houest citizen. They are most outrageous. But they must be met, and the only way to meet them is for every Democrat to resolve himself forthwith into a committee of one to work for the success of the Democratic ticket and to work unfalteringly until the sun goes down on the sixth of November. There must be no lethargy in the Democratic ranks anywhere between Mur phey and Manteo, between Virginia and South Carolina, from now until the election is decided. Every Dem ocrat must be astir or all may be lost. Democratic success is not a matter of course. It must be wrought out, if attained, particularly in view of this latest development. We call upon all Democrats, for the sake of every real interest of the State at large, to get to work and remain at work until sunset on the 6th prox., to the end that the vile effect of this corruption fund the Northern monopolists have sent into the State may be neutralized, and that Radi-

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health.

At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and we ask you to try Hood's Is one which is guaranteed to Peculiar Sarsaparilla. It strengthens and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. The peculiar combination, proportion, and preparation cures. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other instead. It is a Peculiar Medicine, and is worthy your confidence. Hood's Sarsaparilla is sold by all druggists. Prepared by C. I. Hood & Co., Lowell, Mass.
