A Columbia Democrat and a that he will be elected President of Charleston Republican were talking about betting on Cleveland. The Rep. offered \$500 on Harrison. The Dem. took him up. The Rep. then carry West Virginia. wanted odds. The Dem. offered \$500 to \$450 and the Rep. hasn't yet put up. The bluffer was bluffed.

John Wanamaker, of Philadelphia, the big Republican monopolist and protectionist who raised \$100,000 in "fat" for the Harrison cause, has a factory in Berlin for the manufacture of ladies and children's wear. This is "protection" for American workmen, with a ven-It will correct

> Fred Douglas has had something and left. They got no takers. to say about the election. He thinks that New York and Indiana will both go Democratic and that Harrison will necessarily be defeated. He added that "he would not weep if Harrison were defeated nor would he rejoice if the Democrats were successful. He said that the country would be safe in any event."

Mr. Wm. Furey, Secretary of the Democratic Campaign Committee in Brooklyn, says that the Democratic majority in King's County will be between 20,000 and 25,000. The Democratic claim for New York varies from 60,000 to 75,000. The Republicans claim that they will sight of the county seat, in a wellcome to Harlem river with 70,000. settled community, for which I paid son. Now, let every man figure out a ma jority to suit himself.

"The Effects of Protection" is the title of the leading article in the Popular Science Monthly for November, just issued by D. Appleton & Co., of New York. It is decidedly ed President, 160 acres against \$4, the best article we have yet seen anywhere on the tariff question and had we the space we would be glad to publish it here entire. It is clear, lucid and emphatic and its statements are simply incontrovertible. It is a pity that it had not been produced in the October issue, as it would have done an immense amount of good as a campaign document. It abounds in facts and figures Take, for instance, pig iron. Mr. Ashley, the author of the paper, who is himself interested in a railroad enterprise and therefore speaks by the card, says that the average price of steel rails in this country is \$15 per ton more than in England. Thirty million tons have been consumed in laying and repairing over 156,000 miles of railway. More than twothirds of this amount has been bought at home and "the government has therefore forcibly transferred about \$3,000,000,000 belonging to one class of American citizens to another class, by laying an embargo on the business of the first in favor of the second." These be brave words and they are true words. Mr. Ashley also quotes from Congressman W. L. Scott and shows that Carnegie Bros. & Co., of Pittsburg, manufactured 192,998 tons of steel rails last year at a cost of \$26.79 per ton, and sold them at an average of \$37.12 per ton, a profit of \$1,158,000. This is only one item of the business of our protected manufacturers. Of course they do not want anybody to interfere with the high tariff.

Money tells. Cleveland stock is on one end of the scales and Harrison stock on the other. During the past few days the Cleveland end has heavily overbalanced the other. On the one side is the solid cash and on the other nothing but a few airy bluffs. Republicans are not betting on Harrison now. Read this, from the New York Star, and it will tell you all about it:

That the Republicans are badly frightened is shown by the inability of Democrats to get their money covered, which is being offered in big blocks at all the uptown resorts of politicians. Billy Edwards has had \$10,000 in his hands at the Hoffman House for more than a week past to be placed even on Cleveland, but no takers have presented themselves.

James McCormick, the turfman, has been offering \$10,000 on Cleveland in sums to suit for several days past. He said last night that he would have to bet it against \$2 before the campaign closes if he wishes to attract Republican investments.

Mike McDonald, the Chicago sport, arrived yesterday with \$50,000 to bet on Cleveland. He has an interesting task before him if he labors un- bi's Hardware Depot. He has Stoves der the impression that he can lay it on even terrus.

That the most of the wagers of Western land alleged to have been made by dissatisfied farmers against the election of Cleveland and Thurman have been manufactured out of whole cloth by the Republicans has long been known, but a correspondence that reached Democratic National Headquarters yesterday confirms it beyond doubt.

A gentleman in Brattleboro, Vt., who came across one of these althe following letter to Postmaster Selvidge at Meade Center, Kansas: "I inclose the following from New York Press: 'I have 640 acres of land in one body,' writes a Republibuildings, fences, water, etc., in \$32 per acre eighteen months ago, and I hereby make the following land will sell for from \$5,000 to \$7,000 per 160 acres now, 160 acres against \$3,000 that Harrison carries Indiana, 160 acres against \$5,000 that Harrison carries New York, 160 acres against \$3,500 that Harrison is elect that Connecticut gives her electoral vote to Harrison or 480 acres against \$10,000 that Indiana and New York give their electoral

"I am a stockholder in Citizens State Bank and have just interviewed the cashier, who informs me that no such deeds have been deposited. The whole thing is a 'bluff of the meanest kind.

'There are plenty of Democrats, even in Kansas, who are anxious to take all even bets that may be offered against Cleveland's election, No man ever bought 640 acres of land in sight of Meade Center and paid \$33 per acre for it."

P. T. Barnum thinks that he has got the nineteenth century boom in lumbo, but he must not forget the great excitement caused by the sale of Dr. Bull's Cough Syrup.
