Pontius Pilate's Words.

A correspondent of Notes and Queries extracts from the Kolnische Leitung what is called "a correct transcript of the sentence of death pronounced against Jesus Christ. the following is a copy of the most memorable judical sentence which is ever been pronounced in the annals of the world-namely, that of death against the Saviour-with the remark that the Journal Le proit has collected, the knowledge of which must be interesting in the highest degree to every Christain. Intil now we are not aware that it hasever been made public in the German papers. The sentence is

word for word as follows: "Sentence pronounced by Pontius Pilate, Intendant of the Province of Lower Galilee, that Jesus of Nazareth shall suffer death by the cross. In the seventeenth year of the reign of the Emperor Tiberins and on the 25th of the month of March, in the most holy, city of jenisalem during the Pontification of Annas and Caiaphas, Pontius Pilate, Intendant of the Province of Lower Galilee, sitting in judg ment in the Presidential seat of the Prators, sentences Jesus Christ of Nazareth to death on a cross between two robbers, as the numerous and notorious testimonials of the people prove, (1) Jesus is a misleader. (2) He has excited the people to sedition. (3) He is an enemy to the laws. 4) He calls himself the Son of God. 5) He calls himself falsely the King of Israel. (6) He went into the Temple followed by a multitude carrying palms in their hands. Orders: The first centurion, Quintus Cornelius to bring him to the place of erecution, forbids all persons, rich or poor, to prevent the execution of Jesus. The witnesses who have signed the execution against Jesus re: (1) Daniel Robani, Pharisee. (2) John Zorobabel. (3) Raphael Robani, (4) Capet. Jesus to be taken out of Jerusalem through the

gate of Tourpea." The sentence is engraved on a plate of brass in the Hebrew language, and on its sides are the following words: "A similar plate has been sent to each tribe." It was discovered in the year 1280 in the city of Aquil, (Aquilla?) in the Kingdom of Naples. by a search made for the discovery of Roman antiquities, and remainded there until it was found by the commissaries of art in the French army of Italy. Up to the time of the campaign in Southem Italy it was preserved in the sacristy of the Carthusians, near Naples, where it was kept in a box of ebony. Since then the relic has been kept in the Chapel of Caserta. The Carthusians betained by their petitions that the plate might be kept by them, which was an acknowledgment of the sacrifices which they made for the French which they made for the French army. French translation was made literally by members of the commission of arts. Denon had a fac timile of the plate engraved, which was bought by Lord Howard on the sale of his cabinet for 2,890 francs. There seems to be no historical doubt as to the historical authenlicity of this. The reasons of the sentence correspond exactly with those of the Gospels.

Advice to Mothers.

MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces nat-ural, quiet sleep by relieving the calld from pain, and the little cherab awakes as "bright as button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from teething or other causes.
