### TORPID LIVER

known by these marked peculiarities:  
1. A feeling of weariness and pains in the limbs.  
2. Bad breath, bad taste in the mouth, and a coated tongue.  
3. Constipation, with occasional attacks of diarrhoea.  
4. Headaches, in the front of the head; giddiness, dizziness, and yellowness of the skin.  
5. Sourness, loss of appetite.  
6. Distention of the stomach and bowels by wind.  
7. Depression of spirits, and great melancholy, with lassitude and a disposition to leave everything for to-morrow.  
8. Natural flow of bile from the Liver essential to good health. When this obstructed it results in

### BILIOUSNESS,

which, if neglected, soon leads to serious diseases. Simmons' Liver Regulator exerts a most beneficial influence over every kind of biliousness. It restores the Liver to its proper working order, regulates the secretion of bile and puts the digestive organs in such condition that they can do their best work. After taking this medicine no one will say, "I am bilious."

### Pimples, Sores, Aches and Pains.

When a hundred bottles of Sarsaparilla or other pretentious specifics fail to eradicate in horn scurf or contagious blood poison, remember that B. B. B. (Botanic Blood Balm) has gained many thousand victories, in a "Blood Balm Co. Atlanta, Ga., for Book of Wonders," and be convinced. It is the only true BLOOD PURIFIER.

G. W. Messer, Howell's X Roads, Ga., writes, "I was afflicted nine years with sores. All the medicine I could take did me no good. I then tried B. B. B. and 8 bottles cured me sound."

Mrs. S. M. Wilson, Round Mountain, Texas, writes, "A bad fire of mine was troubled with bumps and pimples on her face and neck. She took three bottles of B. B. B., and her skin got soft and smooth, pimples disappeared and her health improved greatly."

Jas. L. Bosworth, Atlanta, Ga., writes, "Some years ago I contracted blood poison. I had no appetite, my digestion was ruined, I became a weak, nervous, and I could hardly walk. My throat was catarrhed five times. Hot Springs gave me no benefit, and my life was one of torture until I gave B. B. B. a trial, and, surprising as it may seem, the use of five bottles cured me."

The Canvassing Board are in session at Raleigh. The amendment to the Constitution, increasing the Supreme Court Judges from three to five, has 92,568 majority. The majorities for the Democratic candidates for the Bench run from 15,900 to 17,343. The count of the vote for State officers was in progress to-day.

Gov. Hill received in New York State 14,587 more votes than were cast for President Cleveland. This does not, by any means, prove that the Hill men knifed Cleveland. No body believes such a silly yarn as this. It does show, though, that the Republicans bought votes for Cleveland and not for Hill. If there was any knifing done it was probably the work of the Counties in New York City. Treachery and colonization in the city and bribery in the country defeated Cleveland, sure as thunder.

Gen. Chalmers, of Mississippi, had a long interview with Gen. Harrison on Thursday. This is what he says the President-elect told him, as published in the New York Herald:

It is fallacy to recognize such a thing as a Southern question. While I am President I shall only demand that the people of the whole country shall obey the laws of the nation, without reference to the section in which they may live. It is an insult to me for the Southern people to intimate that it is my desire to deal harshly with them. It would also be an insult to them for me to anticipate that they do not expect to obey the laws as they do and shall expect.

The Boston Herald says: "Returns from all the States are now sufficiently full to show pretty nearly how the popular vote of the country stands on the Presidential candidates. According to the most reliable footings Cleveland has a plurality over Harrison of 79,499 votes, Cleveland's vote being 5,569,990 to Harrison's 5,490,491. Official returns will doubtless change these figures somewhat, and will probably bring them closer together, but it is entirely safe to say that Cleveland has a substantial plurality of popular votes over his successful competitor. These totals give Cleveland 49.34 per cent. of the entire vote and Harrison 48.65 per cent., leaving but a trifle over 2 per cent. for all the other candidates. The entire vote thrown was 11,285,825, which is about 1,250,000 over the popular vote of 1884."

#### On a War Footing.

The Raleigh News and Observer says the following gentlemen have accepted the positions of aides-de-camp, with the rank of Colonel, upon the staff of our incoming Governor: Col. John S. Cunningham, of Person county; Col. Thomas W. Strange, of New Hanover county; Col. Alston Grimes, of Pitt county; Col. William H. Williams, of Catawba county.

#### Harbor Master's Report.

From the books of Capt. Jos. Price, Harbor Master, we gather the following report of arrivals for the month of November.

American—9 steamers, 7,194 tons; 8 schooners, 2,002 tons; total American 11 steamers and 9,196 tons.

Foreign—10 steamers, 11,863 tons; 6 barques, 2,495 tons; 2 brigs, 578 tons; 2 schooners, 175 tons, total foreign, 20 yessels and 15,111 tons.

Grand total, 37 vessels aggregating 24,307 tons.

#### The New Factory at Cronly.

The timbers are all on the ground and the work of erecting the new buildings of the Acme Manufacturing Co. at Cronly is about to begin in sober earnest. A new site has been selected, on an elevation East of the other buildings. The site of the large factory which was destroyed by fire will probably be left vacant and be utilized as a park when Cronly gets to be a big town, as we confidentially expected it will be some of these days.

#### Admitted to Partnership.

Mr. N. Jacobi has admitted into partnership in his large hardware house in this city his eldest son, Mr. Marcus W. Jacobi, and the business will hereafter be conducted under the name and style of the N. Jacobi Hardware Company. We are glad to see this. Our young friend, Marcus, is a Wilmington boy, born and raised to manhood here on the old sand hills, and is one of the cleverest and most genial young gentlemen in the city. He has been trained to the business under his father's eye and it is to just such young men that we must look to uphold the dignity and welfare and commercial supremacy of our city in the years to come. In such hands as these they are safe.

#### Indications.

For North Carolina, fair weather and stationary temperature.

The December moon fills on the 18th, so that it will be dark enough on Christmas night to display fireworks.

Thanksgiving Day was more generally observed in Wilmington than in any other part of the State.

#### The Lutheran Church.

English services will be held in St. Paul's Evangelical Lutheran Church both at 11 a. m. and 7.30 p. m., to-morrow, Rev. S. T. Hallman, of Augusta, Ga., will preach on both occasions. All are welcome at these services.

#### The Flood at Augusta, Ga.

Rev. Mr. Hallman, pastor of the English Lutheran Church of Augusta, Ga., will deliver an address on the flood at Augusta in the Luther Memorial building at 3 o'clock to-morrow (Sunday) afternoon to the children and friends of the Lutheran Sunday School. All are welcome.

#### The Gulf Stream in a Storm.

The good steamship Gulf Stream, of the Clyde line, once regularly on the route between this city and New York, but now running from New York to Charleston, came very near making a trip to Davy Jones' locker during the storm in the early part of this week. Capt. Tribou, her commander, who is well known here, gave the following report to yesterday's Charleston News and Courier:

Capt. Tribou said that he left New York on last Friday evening bound for Charleston. The wind was at that time blowing from the east, there being a heavy swell on the sea. There was a day of this kind of weather and sea, when on the 24th a stiff gale sprung up from the northeast, under which the ship labored heavily. The force of the gale was so terrible that the vessel had to send before the wind and sea, shipping all the time volumes of water. The vessel, of course, pitched fearfully, and rolled adrift the cargo down below.

"This was all bad enough," said Capt. Tribou, "but about half past 2 o'clock Sunday morning there came on a severe storm, not a cyclone or tornado, but a storm from the north northeast, when the vessel, as well as I could judge, was about twenty miles south of Body Island, on the North Carolina coast. The storm was terrific, and in a few moments the steering chains parted. The ship broached to and we shipped a mainsail. We then tried to heave to the ship, but the gale soon swept away the mainsail, and we were left then without the steering chains, without a sail, and lying at the mercy of the waves in the trough of the sea. While she was lying in that condition, battered by the tremendous sea, the waves swept over the decks and stove in some of the doors and filled the engine house with water. The water—tons of it—went down into the engine room and put out the lights. During all this terrific scene of danger nearly all on board were waist deep in water, the chief cause of anxiety being the repairing of the broken chain; and while they were at work on it many a time the sailors to avoid the sea were obliged to jump into and cling to the rigging, as the water was rolling clean over the vessel. Eventually they secured the chain by a patent link, but we still had to let her go simply before the wind and sea.

On Sunday there was no change in the conditions and we had been driven as far southeast as latitude 33.50 and longitude 75. The ship was all this time literally buried in the water. Early on Monday morning we had to stop the engine and run under a foresail and jib, and if the vessel had not been a staunch and sound one we certainly would have gone down. We had, in fact, all the boats ready for the last emergency.

At noon on Tuesday, by an observation we had reached 32° 10'. At that time, and for many hours before, all hands, officers included, had been steadily at work bailing out water, for the pumps were useless, having been choked by coal, &c. All this was being done while the ship was driven along by the force of a fearful hurricane. At 2 p. m. the wind shifted to west-northwest, which produced a heavy cross sea. We did not know in what condition the outer shell of the vessel was, &c., and we remained in this dreadful condition of uncertainty for fully twenty hours.

On Tuesday the wind moderated and we put a cable with kedge anchor over the stern. The work of bailing out the water continued until almost 4 p. m. on Tuesday, when we got it under control, and then we got the engine to work, all the previous progress having been made under sail.

On the 27th we spoke a schooner, and on the 28th we spoke the City of Jacksonville.

At about 4.30 on Tuesday afternoon we got under way and arrived here on Wednesday night.

Rev. Mr. Arnold resumes his lectures on Evidences of Christianity on Wednesday evening next at 8 o'clock.

Rev. M. Croom, of Duplin county, will preach at the Masonboro Baptist church to-morrow at 11 a. m., and 8 p. m.

Our young friend, Mr. J. E. Moore, who has been with J. L. Croom for the several years past, will open business for himself on Monday next at Burgaw.

Br. steamship Helmsly, Tindle, cleared to-day for Liverpool with 5,360 bales of cotton, valued at \$251,431, shipped by Messrs. Williams & Murchison.

We were pleased to receive a call this afternoon for Mr. Geo. W. Heath Manager of Atkinson's Peck's Bad Boy, which is to appear in this city next Saturday night, and for one night only.

There have been but two interments of whites in this city during the week. Of these one was a child, in Oakdale, and an adult in Bellevue. There were six interments in Pine Forest during the week.

Messrs. Johnson & Co., at 128 North Water street, are offering for sale 466 boxes of bright Florida oranges. They run from 112 to 200 to the box and there are in the lot about 80,000 oranges. See ad. in this issue.

#### The Fire To-Day.

The alarm of fire this afternoon turned in from box 41, was caused by the burning of a small hole in the main roof of a small one story dwelling on South Fifth street, between Queen and Wooster, owned and occupied by Mr. Fred Rhew. The loss will probably amount to \$100, which is fully covered by insurance.

#### City Court.

Mayor Fowler disposed of the following cases this morning:  
Walter Pyet, disorderly conduct, \$20 or 30 days.  
Willis Drake, disorderly conduct, \$20 or 30 days.

There were three tramps, one colored and two white, who were ordered out of the city.

#### Thanksgiving Collections.

The Thanksgiving collections here were very good. In St. Paul's Lutheran Church they were for the benefit of a young man studying for the ministry and amounted to \$52. At Grace Church they were about \$150 exclusive, we presume, of a check for \$50 handed in to Mr. Robinson a day or two before Thanksgiving. There were also collections in the Episcopal churches but we have not learned the amount realized.

#### Lecture on Foreigners.

Rev. F. W. E. Peschau, the accomplished and gifted pastor of St. Paul's Lutheran Church, of this city, delivered a masterly address on Foreigners in the Luther Memorial building on Thursday evening. The address more than sustained his deserved reputation as a speaker of rare ability, and was pronounced by all who heard it a rare historical treat. There was nothing trashy about the lecture. It may be well pronounced an effort of high order, and we hope will be repeated.

#### Meteorological.

The following is the meteorological summary at Wilmington for November, furnished by the Observer in charge of this Signal Service station:

Monthly mean barometer, 30.11; highest, 30.49, on the 13th; lowest, 29.70, on the 26th. Monthly mean temperature, 54.2°; highest, 79.3°, on the 3d; lowest, 35.8°, on the 27th. Average per cent. of humidity, 81.9. Prevailing direction of wind, North-east; highest velocity, 34 miles, Southeast, on the 14th; total velocity, 4,864 miles. Thunder storms, 14th. Dates of frosts, 29th and 30th.

#### Rock Crystal Spectacles and Eyeglasses.

Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

#### PLEASE NOTICE.

We will be glad to receive communications from our friends on any and all subjects of general interest, but the name of the writer must always be furnished to the Editor. Communications must be written only on one side of the paper. Personalities must be avoided. And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so stated in the editorial columns.
