IN CONGRESS YESTERDAY.

SENATE.
WASHINGTON, January 3.—The presiding officer stated that he had examined the President's message of yesterday, in reference to the convention with China, and that it related to and was a supplement to matters which had already been made public. The message was thereupon read, laid on the table, and ordered to be printed.

The Senate at 12:20 resumed consideration of the tariff bill, the pending question being on Mr. Vest's amendment to paragraph 313 to change the duty on cotton thread, yarn, wraps, &c., valued at not exceeding 25 cents per pound, from 10 cents per pound to 35 per cent. ad valorem.

This amendment as well as others, was rejected promptly and by a strict party vote and the Senate adjourned, after having disposed of three and a half pages of the bill to-day.

HOUSE OF REPRESENTATIVES.
Mr. Reed, of Maine, from the Committee on Rules, reported a resolution providing that during the remainder of the present session of Congress there shall be no call of States and Territories on the first and third Mondays of each month. These Mondays are what are known as suspension days, and the object of the resolution is to prevent the opponents of the Union Pacific funding measure and the Oklahoma bill from filibustering against the attempt to pass these measures under suspension of the rules, by introducing voluminous bills under the call of States, and consuming the day by the demand for their reading in full.

Mr. Reed demanded the previous question on the adoption of the resolution, which called for vigorous protests from Mr. Anderson, of Kansas, who has been one of the chief antagonists of the Union Pacific bill. He asked that two hours' debate be allowed upon the resolution, but Mr. Reed declined to accede to the request, on the ground that he had been instructed by his committee to demand the previous question.

A vote was reached on the previous question but there was no quorum and the House finally adjourned without action.

MISCELLANEOUS.
Scribner's Magazine
For 1889.

The publishers of SCRIBNER'S MAGAZINE aim to make it the most popular and entertaining of periodicals, while at all times preserving its high literary character. 25,000 new subscribers have been drawn to it during the past six months by the increased excellence of its contents (notably the Railway articles), and it closes its second year with a new impetus and an assured success. The illustrations will show some new effects, and nothing to make SCRIBNER'S MAGAZINE attractive and interesting will be neglected.

THE RAILWAY ARTICLES will be continued by several very striking papers; especially interesting by Ex-Postmaster General Thomas L. James on "The Railway Postal Service."

MR. ROBERT LOUIS STEVENSON'S serial novel "The Master of Ballantrae," will run through the greater part of the year.

Begun in November.

A CORRESPONDENCE and collection of manuscript memoranda relating to J. F. Millet and a famous group of modern French Painters will furnish the substance of several articles.

The brief end papers written last year by Robert Louis Stevenson will be replaced by equally interesting contributions by different famous authors. Mr. Thomas Bailey Aldrich will write the first of them for the January number.

Many valuable LITERARY ARTICLES will appear, a paper on Walter Scott's Method of Work, illustrated from original MSS., a second of "Old Books," by Mrs. James T. Fields, and many other articles equally noteworthy.

Articles on ART SUBJECTS will be a feature. Papers are arranged to appear by Clarence Cook, E. H. Blasfield, Austin Dobson and many others.

FISHING ARTICLES describing sport in the best fishing grounds will appear. Salmon, Wm. L. G. and Targon are the subjects now arranged. The authors are well known sportsmen.

ILLUSTRATED ARTICLES of great variety, touching upon all manner of subjects, travel, biography, description, etc., will appear, but not of the conventional commonplace sort.

Among the most interesting in the list of scientific papers for the year will be a remarkable article by Prof. John Trowbridge, upon the most recent developments and uses of PHOTOGRAPHY.

A class of articles which has proved of special interest will be continued by a group of papers upon ELECTRICITY in its most recent applications, by eminent authorities; a remarkable paper on DEEP MINING, and other interesting papers.

Unique Illustrations.

A SPECIAL OFFER to cover last year's numbers, which include all the Railway Articles, as follows:

A Happy and a Prosperous New Year
We thank one and all of our patrons and friends for their liberal patronage during the year just closed, and assure them that no pains on our part will be spared to still further merit their confidence.
We are constantly adding the latest production from the Type Founders, but have not thought it necessary to speak of every new font of Type we buy, preferring to let our competitors, who occasionally make a small investment for new material, do the blowing; they invariably copy our styles, and endeavor in every way to duplicate us, becoming mere imitators.
We purpose increasing our facilities during the year, and can safely handle any work offered us.
