A True Tonic.
When you don't feel well and hardly know what ails you, give B. B. B. (Botanic Blood Balm) a trial. It is a fine tonic. T. O. Callahan, Charlotte, N. C., writes: "B. B. B. is a fine tonic, and has done me great good." L. W. Thompson, Damascus, Ga., writes: "I believe B. B. B. is the best blood purifier made. It has greatly improved my general health." An old gentleman writes: "B. B. B. gives me new life and new strength. It is the best thing that will make an old man young, it is B. B. B." P. A. Shepherd, Norfolk, Va., August 10th, 1888, writes: "I depend on B. B. B. for the preservation of my health. I have had it in my family now nearly two years, and in all that time have not had to have a doctor." Thos. Paulk, Alapaha, Ga., writes: "I suffered terribly from dyspepsia. The use of B. B. B. has made me feel like a new man. I would not take a thousand dollars for the good it has done me." W. M. Cheshire, Atlanta, Ga., writes: "I had a long spell of typhoid fever, which at last seemed to settle in my right leg, which swelled up enormously. An ulcer also appeared which discharged a cupful of matter a day. I then gave B. B. B. a trial and it cured me." Jan 10 1m d&w

THE DAILY REVIEW.

VOL. XIII. WILMINGTON, N. C., THURSDAY, JANUARY 17, 1889. NO. 15.

Dio Boucicault has been finally divorced from his wife, Agnes Robertson.
A man has been arrested at Tunis who is supposed to be the White-chapel "ripper".
Hour, of Massachusetts, Frye, of Maine, and Mansfield, of Nebraska, all Republicans, have been reelected to the Senate. James McMillan, Republican, has been elected by the Michigan Legislature, and Anthony Higgins, Republican, by that of Delaware.

Judge Woods has decided that W. W. Dudley committed no crime in sending his infamous letter to Indianapolis and that he cannot be indicted. The New York Herald begs leave to differ. It says that Dudley is guilty, that his offense is a plain one and against the law and that Judge Woods has virtually usurped the functions of the grand jury. That's the way to talk it.

Here is an item from the European edition of the New York Herald: At Marlborough Street Police Court, London, Lillie Ross, alias Maud Rothschild, Tot Fay, Violet St. John, Mabel Grey, Lillie Sinclair, Amy Violet, Maud Legrand, Violet Bell, Violet Durant, Lillie Cohen, Amy Anderson, Blanch Herbert, Lillie de Grey, &c., &c., was charged with being drunk and riotous in Piccadilly at a quarter past 11 o'clock in the morning.

Gen. Mahone has been down in Florida. He talks fair enough, to give the devil his due. He told a Herald reporter this: If I thought that the policy of President Harrison would be a namby-pamby one I would not accept a position in the Cabinet. The South, in my opinion, should be treated the same as any other portion of the country, and what is needed is a vigorous commercial policy that will develop her unlimited resources. When I went into the Senate of the millions appropriated for public buildings and government work, nearly all of it went to points north of the Potomac. This should be, and has been changed to some extent, and I am glad to know that my personal efforts have been of some avail.

Senator Vance's masterly conduct of the discussion in the Senate on the bill to increase the tariff on the necessities and reduce them on the luxuries, is meeting with warm commendations everywhere. The correspondent at the Capital of the Charleston News and Courier tells us just what this apparently useless debate means. He says:

There are many people who do not fully comprehend the tariff situation in the Senate, and they cannot understand why everything else should be subordinated to long and wearying discussions which in many instances have no particular bearing upon the pending bill. Senator Vance, of North Carolina, who is leading the Democratic forces during the absence of Senator Beck, informed me yesterday that the minority in the Senate will hardly be able to affect any material change in the bill as it came from the finance committee. That fact was discovered soon after the measure was presented to the Senate. Many of the Democratic Senators were opposed to taking up the time of the Senate by a protracted tariff debate, but the friends of tariff reform in New York and elsewhere insisted that the question should not be lost sight of and the Democrats in the Senate were accused of cowardly abandoning the issue upon which the last campaign was fought. A caucus was held and it was determined to proceed with a detailed discussion of every item of the bill for the purpose of exposing its inequalities and contrasting it with the Mills bill. Every Democratic Senator was requested to prepare himself to participate in the debate. A vote is to be taken on the bill on Monday next.

The same correspondent, in speaking of the tobacco tax, says that the general opinion is that nearly two-thirds of the members of the House favor its repeal. The outlook now, he says, is that some sort of a compromise tariff and internal revenue bill may be passed before the session closes.

If it is true that philosophers are wise men, then Dr. Bull of Cough Syrup fame, must have been one of the greatest of philosophers.

The Lecture To-Night.
Col. Burr's promised lecture will be delivered at the Opera House to-night, on which occasion there should certainly be a full house. We know something of the subject and we know something of the lecturer's ability and there is no question but that it will prove something well worth hearing. Let all who can turn out on this occasion and they will be amply rewarded for doing so.

Wedding Bells at Masonboro.
Mr. D. D. George and Miss Winnie Walton, one of Masonboro's hand some and accomplished daughters, were happily married last night at the Masonboro Baptist Church by R. E. Heide Esq. After the marriage the bride and the groom and their invited guests proceeded to the residence of the groom's father, where refreshments were served. After the inner man had been satisfied the happy couple and the guests all assembled in the hall where dancing was indulged in until 4 o'clock this morning. The presents to the bridal couple were many and handsome. There were over 500 people in the church, to witness the ceremony.

She Was Engaged to Both.
There are some further facts of interest connected with the marriage at the Myrtle Grove Baptist Church last Sunday, mentioned by us yesterday. We respectfully decline to give names in this instance but the facts are the same, notwithstanding. There were two young men and one young lady and it has since transpired that the girl was engaged to both of the young men at the same time. She herself, when she started out for the church on Sunday evening, was not aware of the fact that she would leave that church a married woman. She accepted the escort of one of the young men to whom she was engaged and she took his arm and walked to the church with him. There the other young man stepped forward, took the arm of the lady, led her aside and told her that he had in his pocket a marriage license and asked her to marry him. She consented and the twain were speedily made one. The lover who got left waited until the knot had been securely tied and then he bolted, running all of the way to the house of the bride's parents, where he told of the marriage and declared that he had nothing to do with it, that he did not carry the girl to the church to marry the other fellow. It seems that the parents had objected to the groom as a son-in-law and hence the denouement. It is likely that a reconciliation will be effected and that all will end happily to all concerned.

Interred at Oakdale.
The remains of the late Mr. James Corbett were interred at Oakdale Cemetery. The funeral services were held in St. Thomas' Church. The pall bearers were Messrs. M. M. Katz, A. D. Brown, Wm. Monroe, L. Brown, James Madden and D. O'Connor.

Our Folks in Raleigh.
News was received here to-day, at 1 o'clock, in regard to the Wilmington Light Infantry who left here last night. They all arrived this morning, safe and sound, but found that they had stumbled upon some very bad weather. It rained, on an average, about every ten minutes and mud and slush were of course abundant.

The installation had not taken place at the time the dispatch was forwarded. Everybody was looking forward with many delightful anticipations to the inaugural ball to be given to-night. There are numbers of Wilmingtonians in the city. Mr. and Mrs. Pembroke Jones, Miss Janie Northrop, Miss Callie French, Mr. Harry Walters and Mr. Fred Kidder arrived there last night in Mr. Walters' private car.

The Cautionary Signals.
At 9:45 last night orders were sent out to hoist the cautionary Southeast signals here, at Morehead City and at Charleston. There were high Southeast winds during the night.

At 10 o'clock this morning orders were received to change the Southeast signal to Southwest. At that time the storm was central North of Lake Huron and moving Eastward. High Southerly winds, veering to Westward, were predicted and the prediction was fulfilled before noon.

At 9:45 a. m. the cold wave signal was ordered displayed here but it could not be raised because the storm signal was already occupying the flag pole. The temperature will fall about 20 degrees by 8 o'clock tomorrow morning.

This afternoon there came an order to take down the cautionary signal at 5 o'clock. The winds will become Northwesterly with colder, clearing weather. The signals were also ordered down at Charleston and Morehead.

Get You 10 to 1 You Can't.
A problem that at a glance seems easy enough to tempt a school boy to spend a portion of his Christmas vacation in an endeavor to solve it, appeared recently in a Maine journal, and is as follows: "Take the number 15. Multiply it by itself and you have 225. Now multiply 225 by itself. Then multiply that product by itself, and so on until 15 products have been multiplied by themselves in turn." The question aroused considerable interest among lawyers in Portland, and their best mathematician, after struggling with the problem long enough to see how much labor was entailed in the solution, made the following discouraging report upon it: "The final product called for contains 38,539 figures (the first of which are 1,412). Allowing three figures to the inch the answer would be over 1,070 feet long. To perform the operation would require about 500,000,000 figures. If they can be made at the rate of 100 a minute, a person working 10 hours a day for 300 days in each year would be 29 years about it. If, in multiplying, he should make a row of ciphers, as he does in other figures, the number of figures used would be more than 523,939,323. That would be the precise number of figures used if the product of the left-hand figure in each multiplicand by each figure of the multiplier was always a single figure; but, as it is most frequently, and yet not always, two figures, the method employed to obtain the foregoing result cannot be accurately applied. Assuming that the cipher is used on an average once in ten times, 475,000,000 figures is a close approximation to the actual number."

All kinds of School Books and School Supplies can be bought cheapest at Heinsberger's.

Ger barque Frisch, Voss, from this port arrived at Bristol on the 15th inst.

It was as warm here last night and to-day as it generally is in October or April.
