Twelve hundred adults were admitted to full communion and 300 to: of St. Xavier, Petersburg, W. Va., on Sunday, the result of a ten days' mission.

Cardinal Gibbons has been inter viewed by a Herald reporter on the subject of the remarriage of divorced persons. We quote one paragraph:

"Yes, the remarriage of a divorced Catholic during his partner's life-In such cases it is not only the Confederate cast. refuse the offender absolution or the. sacraments. But I should hesitate to go so far as to refuse the sauraments to a Catholic who had merely obtained a divorce."

Mrs. James K. Polk, in some chat ty reminiscences of her husband's inauguration, has this to say concerning a newspaper statement that at General Jackson's inaugural ball tne ladies wore calico dresses without any flowers: "Now that is an absurdity. It is quite too ridiculous for anything. The ladies of that date dressed as richly and becomingly as the ladies of the present generation. At my own last recep tion at the White House I wore a gorgeous pink satin from Paris with point d'Alencon lace, and it was this dress my great-grand-niece wore at a reception in the neighborhood last week, and without the slightest alteration. I have given her several of those beautiful Paris robes which served me at the White House, one of which I wore at the naugural ball, an elegant white brocaded silk, which was presented to me by Commodore Kearney, of the navy. And I have seen it stated ss. Tomminson, Atlanta, va., says. For that I was dressed on that occasion in a black dress with a black cloak The idea is too ridiculous for anything."

A Historical Issue.

Mr. John C. Davis has handed us the first sacrament at the Church a copy of the Vicksburg Daily Citizen, around which hangs a grand historic aroma. This issue was set up for print July 2d, 1863, before the surrender to Grant, and was issued by his order on July 4th. There are only four columns of it, about 15 inches each in length, and it is printed on wall paper. All of the matter, with the exception of a time necessarily involves his being small explanatory foot-note, set up put without the pale of the Church. by Grant's men, is of a decidedly

A Handsome Ship.

The steamship Delaware, of the Clyde line, paid her second visit to this port last night. She is from Fernandina and put in here to complete her cargo. She made the run from Fernandina to this port in 26 hours, which is not many hours behind the trains. She is a fine boat, with elegant passenger accommoda. tions, and is one of the largest and best ships in the Clyde fleet. Our old friend, Capt. Chichester, is in command. She sails for New-York to-morrow.

Audit and Finance.

The Board of Audit and Finance held their last regular meeting yes terday, the term for which the members were appointed expiring with the present month. There were present: Mr, R. J. Jones, chairman, and Messrs. J. F. Maunder, Wur-Calder and John W. Hewett.

The members of the Board, in an informal discussion of the matters pertaing to the Fire Department, expressed disapproval of the practice of using fire engines for pumping out vessels, the opinion being expressed that city property was endangered thereby, and liable to great injury.

New Road. New Pier, New Engine.

The iron for the new railroad track from the new pier to Carolina Beach has arrived and is now on board of a vessel in port. It will be lightered down the river and at once put down. The pier is also course of construction. It will be nearly 500 feet long and the trains will run out to nearly its entire length, leaving just room enough for the passengers to debark. This will save the long walk from the boat to the train, as has been the case heretofore. The iron will probably be laid by the fifth of April, at which time it is expected that the new engine will have arrived. The gars are being overhauled and fit ted with new trucks and new wheels and cooking, guaranteed to give and about a dozen cottages have been erected-or are in process of erection-at the Beach. The season will probably open about the first of

Death of Capt. Boudinot.

Capt. W. E. Boudinot, a gentleman well known to many of the Cape Fear section, died at his home near Pittsboro a few days ago. His death was very sudden. He had just risen from the breakfast table, given an order to a servant and made a few steps towards the door when he suddenly felland expired almost instant-

Capt. Boudinot was about 72 years in life, by the late Dr. Fred. J. Hill. by whom he was educated. He passed a very successful examination at tee Naval Academy and was assigneous with Arch. McRae and Robert Savage. He served distinction during the Mexican war and the beginning of hostilities between the North and the South found him serving as master on the 74 gun ship Ohio, one of the very finest vessels in the old navy, with the rank of lieutenant. He promptly resigned and was assigned to duty in the Confederate Navy, with the rank of Captain. Since the close of the war he has resided quietly at

Capt. Boudinot was a very able man. As to this all of his cotemporaries agree. He stood very high On account of the repairs now go- in the old Navy and also in that of the Confederate States. His active vice system and if his suggestions

Varehave, with her rudder gone, four miles off New River bar-The disabled vessel is from the West Indies, bound for Washington City, with a cargo of fruit.

Criminal Court.

The following cases were disposed of in this court to day: John Watson, assault and battery.

Guilty. Sentenced to the Work House for 30 days. John White, larceny. Guilty.

Twelve months in the Penitentiary. George Bishop, larceny. Guilty. Sentence not yet pronounced.

Some other minor cases, of no general interest, were disposed of.

"Sparrowgrass" and Sich.

Mr. L. Tate Bowden, of Wrightsville, is here to-day superintending the shipment of a lot of asparagus. This is the fourth shipment he has made this season. He is early in the market and is reaping the benefits thereof. The last lot he sent North brought in \$1 a bunch. With a few days of fair weather he says that he will be able to make large shipments. He tells us, by the way, of something we had never heard before and that is that asparagus grows only in the night. He says that if you will measure carefully a sprout of it early in the morning and then again in the evening, you will find that it has not grown a particle during the day, but that if you will measure the same sprout again the next morning it will be found that it has grown several inches. This, of course, under favorable condi-

Mr. Bowden also tells us that the prospects for strawberries are very fine. The Messrs. Westbrook have 30 acres in these and the prospects weather doesn't intervene they will be early in the market and with a magnificent crop.

By Rail to Jacksonville.

And so, after all, we are to have a railroad from this city to Onslow. The Wilmington, Onslow & East Carolina Railroad is no longer a dream; it is rapidly assuming the con litions of a fixed fact. The road will be built and we have assurances enticled to entire credence that the road will be completed and the trains running from this city to Jacksonville in six months from this date. We can take our New Rivers on the half-shell right on the spot

Hon. A. M. Waddell is the Attor ney here for the company, which is composed of solid business men; with lots of money behind them. Messrs. T. A. McIntyre and other prominent business men of New, York are on the directory. The road will be built under the charter granted to the Wilmington, Onslow & East Carolina R. R., the corporators haviag disposed of this charter to the company. They will get the benefit of the stock subscribed by the city. It is a pure business enterprise and the men who are to build the road already own large landed interes in Pender and Onslow counties, which this road is to develop.

A survey at the other end of the line, from Jacksonville in this direction, has already begun, and in ten days from this time a surveying party, under the charge of Capt. Walter G. McRae, will start out from this city. The construction corps will follow just as soon as the line is located and the work will be pushed forward to completion just as rapidly as possible. There will be no delay for the want of funds. Col. Manning is in charge of the construction corps and we understand that he says he will at once put 500 men to work. He says that he will have the road completed to Scott's Hill in four months and trains moving to Sneed's Ferry inside of six months.

Wild Indian and Wild Horse.

There are some wild Indians in town and they had a parade through the streets this afternoon, but one of them came to grief. His pony, which was apparently wilder than his rider, got the bit between his teeth and started on a run. He brought up at the Postoffice corner and man and horse came together in thus far are excellent. If cold a heap on the sidewalk. There was not a very large audience at the Opera House last night but those who were present seemed well pleased with the entertainment. It was not the best we have had here this season but it was all it claimed to be, a piece with a good plot and a good laugh to almost every square inch. It was worthy The Dress-Making Departof a better house than was present last night.

Personal.

Messrg. Geo. W. Chesnutt and J. G. Barrentine have returned from their visit to the shoe markets of the North and East. They visited Philadelphia, New York, Boston, Lynn and other markets, and bought largely. They will open here about the first of April.

Mr. Iredell Meares returned to the city last night from San Francisco, where he has been on profesional business. He tells us that the tide of emigration is still Southward to the alleged new gold fields, but that the belief is becoming pretty general that there is a big hoax somewhere behind it all.
