Colonel N. V. Whitman, of Brooklyn, returned rom his vacation feeling in perfect health. As a result he was careless. The next thing was a cold; then pneumonia; then death. Nearly all physical troubles start with a cold, and this is just the season when it is most easily taken. Some sudden change checks the action of the body, clogs the circulation, and lays the foundation of death. Stop the cold in its start and you during the months of January and stop the disease. A cold requires the "stitch in February, 1889, there were many time."

There are many ways of attempting to stop cold, but all physicians now agree that there is only one sure way and that is, by the use of pure stimulants. The pores must be opened, the circulation aroused and vigor awakened. Nothing now known to the world does this so certainly as Duffy's Pure Malt Whiskey. It is a remedy not a beverage. It has been used for years and is the most popular remedy before the public. Doctors, clergymen, and temperance people generally, endorse it for its health-giving qualities, and it has become a family necessity.

Rev. B. Mills, of Meade Centre, Kansas, says: "I am a Presbyterian clergyman, a Doctor of This news will be of special interest Divinity, not of medicine, but I am not atraid to say that Duffy's Formula and Duffy's Pure Malt Whiskey are the purest and most effective preparations, as medicines, I know of, and my exper tence is a large one."

Many unscrupulous dealers claim they have something "just as good." Beware of all such claimants, and secure only the genuine.

Prof. Tacchini, the well known Italian astronomer, reports that

days when the sum was spotless. In comparing the observations of the year 1888 with those of 1887 he finds that the phenomenon of solar spots has been weak in 1888, with a maxi mum frequency of days without spots, while the phenomenon was as weak in 1887 as in 1886. "It is, then, quite probable," he concludes, "that the minimum (of sun spottedness)

will occur in the current year." to those who connect a year of minimum sun spottedness with exten sive droughts, crop failures and famines. The most extensive re searches which have ever been made to determine whether such connection exists fail to reveal any satisfac tory basis for the theory. Theorists will probably have an opportunity this year to further test the hypoth-

esis. The Hon. John A. Campbell, whose death occurred last week at his resi-

dence in Baltimore, was one of the most eminent lawyers this country has produced. Appointed to the Supreme Bench of the United States in 1853, he ranked with Chief Justice Taney as among the most diligent and learned Judges that have ever occupied that exalted position. In the spring of 1861 he resigned his place on the Supreme Bench to go with the Southern States in their withdrawal from the Union, and accepted the post of Assistant Secre

tary of War under the Confederate Government. He was among the That the body is now more susceppersons who participated in the fu- tible to benefit from medicine than tile conference with President Lin coln in the closing days of the war,

MARCH MIRTH.

The latest case of absence of mind is that of a young lady, who, upon returning from a walk with her lover, rapped him on the face and bade good night to the doos.

Unfortunate Skater-"Help!Help! Party on Bank-"Hold on! Hold on! I'll run right home and get my book on 'How to Resuscit ste the Drowned 17th, Dec. 10th. and Relieve the Frost Bitten."

A Boston man purchased a bit of court plaster for his nose and a postage stamp for a letter. He then placed the court plaster on the letter, affixed the stamp on his nose and tried to crawl into the letter box.-Drake's Magazine.

A young man in Hailem who bought a watch on the installment plan thinks he has got the best of the agent. His new watch makes twenty five hours a day, and he therefore gets one more hour than he paid for-and time is money. -N. Y. News.

Mr. Scribbleblust-"Have you seen my last book? It's the best thing I've done." Miss Downer-No, I haven't seen it, but I've heard nothing but good of it so far.' Mr. S. (delightedly)-"Whom have you heard speak of it?" Miss D.-"Nobody but you."

Aunt (with little girl)-"Do you take children, madam?" Landlady -"Ob, yes, ma'am; we love children; the family on the third floor have live, on the second floor there are seven, and we have three of our own. You needn't feel any hesitancy on that score." Applicant-"H'w, yes. I think I will look a little furth er, madam."-Harper's Bazar.

A series of experiments was concluded at Menlo Park, N. J., last week, which practically leaves only minor details to be arranged before the law which abolishes hanging in the State of New York can be put into operation. While various med ical societies and electrical experts have been occupied in demonstrating that enough electricity can be sent through the body of an animal to kill it instantly, the authorities of this State put into the hands of a commission the more practical part of the question, how this could be best done. This was to all intents decided last week. Mr. Edison kindly placed at the disposal of the in vestigators a building in the rear of his factory at Menlo Park, with the necessary apparatus, electricity and skilled hands to manipulate it. Ex-

periments were made on dogs, calves and a horse. Death resulted quick* ly and without any revolting fea tures. It is proposed to have one executing station for the whole State, where a complete apparatus will be erected and operated by competent

authority.

Advice to Mothers.

MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the cnild from pain, and the little cherub awakes as "bright as button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes.
