The Invalids Hope. Many seemingly incurable cases of blood poison, catarrh, scrofula and rheumatism have been cured by B. B. B. (Botanic Blood Balm), made by the Blood Balm Co., Atlanta, Ga. Write to them for book filled with convincing proof. G. W. B. Raider, living 7 miles from Athens, Ga., writes: "For several years I suffered with running ulcers, which doctors treated and pronounced incurable. A single bottle of B. B. B. did me more good than all the doctors I kept on using it and every ulcer healed." D. C. Kinard & Son, Towaliga, Ga., writes: "We induced a neighbor to try B. B. B. for catarrh, which he thought incurable, as it had resisted all treatment. It delighted him, and continuing its use he was cured sound and well." E. M. Lawson, East Point, Ga., writes: "My wife had scrofula 15 years. She kept growing worse. She lost her hair and her skin broke out fearfully. Debility, emaciation and no appetite followed. After physicians and numerous advertised medicines failed, I tried B. B. B., and her recovery was rapid and complete." Oliver Secor, Baltimore, Md., writes: "I suffered from weak back and rheumatism. B. B. B. has proven to be the only medicine that gave me relief."

It is probable that the trustees of the British Museum will throw it open on Sundays during the current year.

Hon. Allen G. Thurman believes in territorial extension, and thinks the United States will soon annex Canada and all the continent.

A thrill of joy has gone through the whole country at the news of the safety of the passengers and crew of the *Denmark*. Capt Murrell, of the steamship *Missouri*, who rescued them, acted most gallantly.

The people all along the line of the C. C. Railroad are doing some big talking about coming down to see this summer. We wouldn't comp. on less than 50,000 visitors.

The Marionettes that were here in the Fall are now on their way back North. They played last week in Charleston. Wish they would drop in on us here and wake us up a little.

Still in the Field.

The Wilmington Shirt Factory, No. 123 Market st., has now on hand a full line of gent's heavy jean drawers, the very thing for the season, at 50 cents a pair, worth 75 cents.

Barney, one of the Atlantic engine horses, nearly pegged out on Sunday. He had the colic. Mr. Dan Quinlivan worked on him a long time and brought him at last out of it. He is well now, but has not been put to work again yet.

The two lodges of Odd Fellows in this city, Cape Fear No. 2 and Orion No. 67, will jointly celebrate the anniversary of the introduction of the order in this country, on next Friday evening, the 26th inst., by a banquet at Corcoran Hall. The Committee are Messrs. M. T. Davis, M. W. Jacobi, J. W. Fleet, Jas. L. Yopp and W. M. Hays, on the part of Cape Fear Lodge, and Messrs N. F. Brandt, J. E. Silva, Jr., Geo. T. Grotgen, Jr., J. A. It is rumored here that the hotel at the Hummocks will be taken charge of this year by Mr. H. C. Eccles, the veteran hotelist of Charlotte, for so many years past proprietor of the Central Hotel in that city.

The Burgaw and Onslow Railroad.

We understand that Capt W. G. McRae will go to Burgaw on Thursday, or as soon as he completes the work on the survey of the line for the W. O. & E. C. Railroad, and will run an experimental line from that town to Jacksonville for the Burgaw and Onslow Railroad. The line is to be as direct as possible. This will probably be a straight line as there are no serious obstacles to be encountered. The company seems to mean business. It is said that there are some rich capitalists behind the movement and that they have acquired possession of large bodies of land which they are going to develop. It is also stated that they will run a line of small steamers on the North East River, connecting with the line of railway.

The Cotton Seed Oil Mill.

The cotton seed oil mill at Hill ton is a fixed fact. A contract was awarded yesterday to Capt. J. S. Allen, he being the lowest bidder. The mill is to be completed and in running order by the first of October. It will give employment at first to about 75 hands.

The erection of the building will be carried on under the general supervision of Mr. Frank Niernsee, a skilled architect. The building will be most substantially constructed of brick, and will be firm proof in every respect. It will have a front of 300 feet, extending back 100 feet, and height of 50 feet.

The mill will consist of a lint room, two stories high, 40x80 feet; an engine room, 30x40 feet; a press room, 40x80 feet; a warehouse, 80x100 feet, and a cake room, 30x60 feet. All the flooring on the first floor will be double, or what is known as "Dutch floors." The trusses are most scientifically designed, and will have wrought iron straps and bolts at all points. The facade, or front, will be laid with good brick. The boiler house will be of the most improved construction with trusses so contrived as to carry smokestacks to meet the approval of the insurance companies.

They "Mean Business."

If any one has ever given Dr. Sage's Catarrh Remedy a fair trial and has not been cured thereby, the manufacturers of that unfailing Remedy would like to hear from that individual, for when they offer, as they do, in good faith, \$500 reward for a case of nasal catarrh which they cannot cure, they mean just exactly what they say. They are financially responsible, and abundantly able, to make good their guarantee if they fail, as any one can learn by making proper enquiry. Remedy sold by all druggists, at 50 cents.

Comfort and economy are to be found in the use of oil stoves. Sold by the N. Jacobi Hdw. Co.

Preaching to-morrow (Wednesday evening) at 8 o'clock, the public generally and seamen in particular are invited to attend.

Thanks to Mr. J. H. Moore, the Principal, for an invitation to attend the Commencement Exercises of Nahunta Academy, May 21 and 22. The address will be delivered by James M. Brinson, Esq., of Newbern.

The flag on the office of the Danish vice consul in this city is raised to-day as high as the halliards and the pole will carry it in rejoicing over the safety of the passengers and crew of the ill-fated steamship *Danmark*.

Talking about squirrels, Squire Wagner, of Masonboro Sound, went up Hood's Creek one day last fall and killed 46 squirrels in his day's hunt. He took his stand under one large oak tree loaded with acorns, and killed 19 out of that tree.

At Roundout on the Hudson, a man died, leaving a property valued at \$2,000. This was partly mortgaged. The mortgage and costs involved amounted to \$1,999, thus leaving but \$1 to be divided among the widow and fourteen heirs. The widow will, however, have only the use of this dollar during her lifetime and must leave it to the heirs at her death.

A Pleasing Sense

Of health and strength renewed and of ease and comfort follows the use of Syrup of Figs, as it acts in harmony with nature to effectually cleanse the system when costive or bilious. For sale in 50c. and \$1.00 bottles by all leading druggists.

Easter at St. Mark's.

There was a large congregation at each of the services in this church on Sunday. The decorations were very handsome and the music, under direction of W. H. Norwood and his wife, was especially fine. The offerings amounted to nearly \$200 and the last of the church debt will be liquidated very soon. It is a thriving and a growing parish and Rev. Mr. Coerr is doing a good work there.

The Sociable Last Night.

The Sociable given last night by the Hibernian Benevolent Society was a grand success in every way. There was a large crowd of ladies and gentlemen present. About 12 o'clock refreshments were served and the dancing was kept up until 4 o'clock this morning. The committee are to be congratulated on the manner in which the Sociable was conducted. Every one that was present speaks of it as one of the finest of the season.

New Town and New Industry.

Messrs. Hansen & Smith have a valuable property near this city which they are rapidly proceeding to develop. It is located near the old station known as Register, nine miles from the city, on the W. O. & A. Railroad. It is now known, however, as Malmo, and a thriving town is in process of formation there. Where there was formerly but one tumble-down shanty at Register's there are now six neat cottages at Malmo built by Messrs. Hansen & Smith, who have a saw mill about a mile and a half from the station, and who will build cottages for the men in their employ as fast as they are needed. In a short time, therefore, Malmo will become quite a thriving little town.

Reference was made in these columns some months ago to the fact that a bed of potter's clay had been found on this tract. Samples of this were sent to Europe and there tested and found to be admirably adapted for the manufacture of pottery ware. This bed is located near Malmo and pottery works are to be erected there. The work has already begun in fact, as the brick are now being made for the buildings. These brick are made and burnt from beds of clay on the land and the work of constructing the necessary buildings for the pottery will be rapidly pushed forward.

Indications.

For North Carolina, warmer and fair weather.
