

LACK OF LIFE.

When the pulse beats feebly; when the energy is gone; when the appetite is weak and sleep uncertain; when the body is in a condition of actual "low life." No matter what the cause may have been Nature has given a way and unless her strength is restored disease is certain to take possession of the body. The first thing any doctor does in such a case is to assist Nature. Here are some instances:

Prof. Austin Flint, of Bellevue (New York) College, says: "The judicious use of alcoholic stimulants is one of the striking characteristics of progress in the practice of medicine during the last half century."

The celebrated Dr. J. M. Caruwall says: "I am most happy to say, after a very thorough test, that for persons suffering with nervous and general debility, dyspepsia, indigestion, or for delicate persons or invalids, Duffy's Pure Malt Whiskey is the best tonic and purest stimulant with which I am acquainted."

There are no higher scientific authorities than these and they speak volumes. Beware of all bottled whiskeys which may be offered you except Duffy's. It has stood the test of time and is absolutely pure.

In use 30 years. The only successful remedy for Nervous Debility, Vital Weakness, and Prostration, from over-work or other causes. It is sold by all Druggists, or sent prepaid on receipt of price. — Humphreys' Medicine Co., 149 Fulton St., N. Y.

THE GREAT BATTLE

Is continually going on in the human system. The demon of impure blood strives to gain victory over the constitution, to ruin health, to drag victims to the grave. A good reliable medicine like Hood's Sarsaparilla is the weapon with which to defend one's self, drive the desperate enemy from the field, and restore peace and bodily health for many years. Try this peculiar medicine.

CONSUMPTION SURELY CURED.

TO THE EDITOR—Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their express and post office address. Respectfully, T. A. SLOCUM, M. C., 181 Pearl st., New York.

Count Herbert Bisuark,

the German Chancellor's eldest son, has been promoted to the rank of Lieutenant Colonel and his brother William to the rank of Major at the request of their father.

TERRIBLE FOREWARNINGS.

Cough in the morning, hurried or difficult breathing, raising of phlegm, tightness in the chest, quickened pulse, chilliness in the evening or sweats at night, all or any of these things are the first stages of consumption. Dr. Acker's English Remedy for Consumption will cure these fearful symptoms, and is sold under a positive guarantee by Munds Bros., druggists.

A woman dentist in Philadelphia

is reported to have a practice of \$11,000 a year. And yet she is often seen looking down the mouth.

THE "MEAN BUSINESS."

If any one has ever given Dr. Saxe's Catarrh Remedy a fair trial, and has not been cured thereby, the manufacturers of that unflinching Remedy would like to hear from that individual, for when they offer, as they do, in good faith, \$500 reward for a case of nasal catarrh which they cannot cure, they mean just exactly what they say. They are financially responsible, and abundantly able to make good their guarantee if they fail, as any one can learn by making proper enquiry. Remedy sold by all druggists, at 50 cents.

Mrs. William P. Frye,

the wife of the Maine Senator, is said to be writing a society novel that will deal with official life in Washington.

PROMPTNESS.

First a cold, then a cough, then consumption, then death. "I took Dr. Acker's English Remedy for Consumption the moment I began to cough and I believe it saved my life." — WALTER N. WALLACE, Washington. Munds Bros., druggists.

WILMINGTON, N. C.
FRIDAY, APRIL 26, 1889.

Entered at the Postoffice at Wilmington, N. C., as second-class matter.

The Gulf Stream has been lately

treated somewhat disrespectfully in England, which owes so much to it. Last week a lot of men of science amused themselves with a model of it, and now one John King proposes to shut out what he calls its erosive action by constructing an isthmus from a low joint in Ireland to Mull in Scotland. The distance is only 111 miles. The sea does not average more than 200 to 400 feet in depth, and an isthmus would enable a vast surface of land at present marshy and submerged to be reclaimed. Scientific engineers say the project is feasible, but common persons place it in the Munchausian catalogue, in which a bridge crosses the Atlantic has long occupied an honored position.

Unless France be at war or in the throes of revolution the International Peace Congress will be held in Paris on June 23 and the four following days. The French Government has shown its confidence in the future by officially sanctioning the Congress, and has actually appointed an organizing committee of very distinguished men and women. The programme includes international arbitration, neutralization of rivers, canals, channels, straits, territories and nations, and the Congress will especially consider the most practicable means of gradually substituting the rule of law for that of force. On June 23 and 30 there will be a Parliamentary Congress, invitations to which have been or will be forwarded to representatives of parliamentary bodies of all nations.

An effort has been made recently

to revive the Tehuantepec ship railroad enterprise, which was projected by the late Capt. Eads, and it has been asserted that the Mexican Government has encouraged the scheme by giving a guarantee of interest on the necessary capital of \$60,000,000, which must be raised to build the road. The latest number of the Mexican Financier, which has just come to hand, denies that any such guarantee has been made, and goes still further by producing the exact articles of the Mexican Government's undertaking in the matter, from which its assertion is conclusively proved. It appears from these documents that when the railroad is built it is to have the benefit of customs dues on articles received at terminal points for local consumption in Mexico only. The guarantee will not take effect until the road is completed.

The abdication of King Milan

was perhaps far from being the end of Serbia troubles on his account. Queen Nathalie having been prevailed upon to return to that country, he also is going back. The young King Alexander, who will not finish his 13th year until next August, is likely to have enough to do with the rival claims of his parents on his attention, and report imputes to him a double-dealing disposition in this particular which can hardly tend to simplify matters. For the present, however, the regents constitute the real executive power, and will take care that the renewal of martial quarrels does not disturb national peace. The Czar's message of friendship to the young king and the regents, showing his interest in Serbia, is rather suggestive among recent incidents. Perhaps he hopes in this country to find that consideration for Russian guidance which the Belgian regents did not exhibit. Meanwhile Roumania, Bulgaria and Serbia are all going their ways with little regard to the wishes or whims of St. Petersburg.

The Doctor—Rogers, derive the word "finance." Rogers (after a pause)—It comes from "finis, and end, sir, because it's the art of making both ends meet."—Judy. Just the Reverse: Alms-giver—Are you one of the men who are agitating the labor question? Trump—No, yer honor. O'm one of the men what the labor question is agitating. Bad luck to it.—Puck. "What's the difference between a controversy and a fight?" asked a youthful heir. "Your mother and I have controversies," explained the father, "while Mr. and Mrs. Jones, next door, fight."—Harper's Bazar. "How do you get along at school, Charley? Do you keep up with your class?" "Keep up with the class?" That isn't anything to do. It's how to get ahead of the teacher what worries me."—Burdette. Five years later: She—Do you recollect, dear, how just after we were married you stopped off at this station to get me a cup of coffee? He—Yes, but the time table's been changed since then, and I've just had time to rush off and get myself a drink.—Judge. Clara—Tommy, you ought to be in bed before this. Don't you see how late it is? Tommy—Poo! 'taint half so late, as that. The clock's always ahead when Mr. Stayso calls to see you.—Yonkers Blade.

The New Discovery.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. If you have ever tried it, you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold or any Throat, Lung or Chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded. Trial Bottles Free at Robt. R. Bellamy's drug store.

PEOP'S MILL, TEXAS, June 21, 1888.—The Swift Specific Company, Atlanta, Ga., was troubled with rheumatism and boils for about two years. We got various kinds of medicine, but without profit, and began to despair. After several months of suffering, your Swift's Specific was procured and cured her at all. I was persuaded to try your Swift's Specific. After she had used a few bottles the disease all disappeared, and she is now a hale, hearty and healthy woman. I had written to you several times just become afflicted in the same way, and I am using the S. S. S. and anticipate a prompt and permanent cure. N. C. WAGGONER.

Rich Hill, Mo. July 7, 1888.—The Swift Specific Co., Atlanta, Ga.—Gentlemen: Our little girl when three weeks old broke out with eczema. We tried the prescriptions from several good doctors, but without any special benefit. We tried S. S. S. and the time one bottle was gone her head began to heal, and by the time she had taken several more she was completely cured. Now she has a full and heavy head of hair—a robust, hearty child. I feel it but my duty to make this statement. Respectfully, H. T. SNOW.

CHATTANOOGA, TENN., June 27, 1888.—The Swift Specific Co., Atlanta, Ga.—Gentlemen: In 1887 contracted blood poisoning, and at once sought a physician, who treated me for several months. He advised me to try S. S. S. and the physician's course of treatment was carefully observed. I recovered as I had hoped. My present condition—Blessed be to God—is a very good one. My eyes began to appear on my face and body. These gradually increased to sores and running ulcers. I was advised to try S. S. S. immediately after taking it I commenced to improve slowly at first, but more rapidly afterwards, and soon began to feel the full benefit of your medicine. My blood is now thoroughly cleaned, and my system free from all poisons. I feel in perfect health, and I can testify to the efficacy of your medicine. I cheerfully give this statement, and I feel that I have suffered as I have may reap the same benefit.

HARDY M. BURT, 2d West Ninth St.

HOMER, LA., May 25, 1888.—The Swift Specific Co., Atlanta, Ga.—Gentlemen: About two years ago my general health gave way entirely. I had been advised to try S. S. S. I had despaired of ever feeling well again. All that the physicians done for me brought no permanent relief. I had despaired that I should give up. S. S. S. is a fair trial, although I thought it would be throwing away money. After taking a few bottles I can most heartily recommend it; for general debility, it is a specific. W. F. BRIDGES, J. P.
