Yesterday's Military Excursion.

Yesterday was a gala day at Wrightsville, the Hummocks and on the beach. The fact that the Wilmington Light Infantry had their anniversary on that day and had announced an excursion and rifle practice for the afternoon, proved a great card of attraction and drew a large number of excursionists from the city. Many went down on the morning trains and many others in the afternoon. The Light Infantry paraded at 2:15 o'clock and boarded a special train at Princess street depot. This special consisted of the locomotive of the Ocean View R. R. and its two Summer cars. The 3 o'clock train on the Seacoast R. R carried down six coaches, all crowds ed with people, and the special with the W. L. I. aboard followed directly after. There were probably a thousand people in all on the Beach. The hotel at the Hummocks was not open but Mr. J. A. Brown, proprietor of the restaurant and re freshment rooms, and also of the bathing houses on the beach, was equal to the occasion and fed all View R. R. frain ran at short intervals between the terminus of that road and Wrightsville and those who preferred found excellent ac commodations at Manning's and Stokley's, on the mainland.

The target practice of the W. L. I. which took place on the beach, was an interesting and exciting event. It was witnessed by the vast concourse of spectators and resulted in favor of Mr. James D. Hedrick, who made the best score, 12 out of a possible 15, and who was therefore awarded the company's medal. Messrs. W. P. Toomer, E. W. Moore and W. R. Morrison were next best, each scoring 11 out of a

possible 15. At night there was a very fine display of fireworks from the bridge across the banks channel, under the supervision of Mr. J. S. Hooper: The last train left the Hummocks at 10 o'clock, bringing back to the city a tired but thoroughly happy crowd. from the N. Jacobi Hdw. Co.

formally opened yesterday. The steamer Sylvan Grove made two trips acute Coughs, Asthma, Bronchitis during the day, carrying down quite a large number of passengers. The run now is to the new pier, 12 rail, 32 miles, to the Beach. There is no tortuous channel now to traverse but the boat turns from the river channel and makes directly for the head of the new pier. This pier is 400 feet long and the cars run down to the head and in a few feet of the boat. A long walk in the sun or rain or wind is thus avoided. The transit is rapidly made and there is no delay. Just as soon as the passengers are aboard the train leaves for the beach. It is pulled tive recently received and which

The ride is altogether a pleasant one.

The Beach presents much of an improved appearance. The hotel has been renovated throughout and placed under the charge of Capt. B. L. Perry, formerly proprietor of the Purcell House in this city, whose long experience in the business peculiarly fits him for catering suc cessfully to the wants of the traveling public. He gives his personal supervision to everything and will spare no efforts in making his guests comfortable and contented. He is ably assisted by Mr. A. A. McLean, a clever, courteous gentleman, who was with Capt. Perry at the Purcell

House. The Carolina Beach Hotel has now twelve comfortable chambers and will soon have twelve more in two annexes to the building, each of which will have six rooms. In addition to this six new cottages have been erected during the past winter, each with four rooms, and the plans as now adopted contemplate the erection of twelve more. So it will be seen that there is no lack of

comfortable accommodations there. The hotel and cottages are all to be supplied with pure cold water Wells are to be sunk forty feet into the soil and a windmill to pump water from them is now being erected by Mr. J. W. Branch and it will be in operation on Thursday.
