Death of Dr. Ennett.

je 14

It is with feelings of deep regret that we announce to day the death] to night. of Dr. W. T. Ennett. He died at 8:20 o'clock this morning at his residence in this city, after a distressing and painful sickness of about two months.

Dr. Ennett was about 49 years of age. He was a native of Onslow county and was a student at Chapel Hill when the war broke out. So accompanying biographical sketch ardent was his devotion to the cause of the South and of his native State doors and go somewhere got up and Chief of the Fire Department. The that he did not wait for permission sketch is well enough in its way and from home to leave school but at once deserted the academic halls and repaired to Onslow where he joined a company, which was then being formed, known afterwards as Redd's Company, E, Third North Carolina Infantry, Dr. Ennett became a lieutenant in this company and was with the regiment in its first service in the field and remained with it faithfully until the last days at Appomattox, when he was major of the regiment. At Appomattox he commanded the brigade (Cox's) to which the Third North Carolina was then attached, Gen. Cox commanding the division. It is said that this brigade made the last charge of the war, just before the surrender. At the close of the war Dr. Ennett applied himself energetically to the study of medicine and graduated at the Medical College at Baltimore. He then located in what is now Pen. der county for the practice of his profession and married a sister of Capt. R. M. McIntire, who with three children survives him. He enjoyed a lucrative practice in Pender for many years but his health having become impaired he removed to this city, hoping to benefit by the change. This was about two months ago and shortly after his removal here the session of the State Medi cal Society fell due and as the President of that body, Dr. Ennett felt bound to attend. It was on his way there, while at Garysburg, that the held at Camp Latimer, commencing disease overtook him and he return-Tuesday evening, July 9th, and ed to this city. At a meeting of the New Hanover Board of Health, held this day, the following minute was adopted:

We, the New Hanover Board of lealth and Wilmington Medical Society, in meeting assembled, having just received the sad tidings of the death of our esteemed friend and brother, Dr. W. T. Ennett, desire to put on record this testimonial of his memory.

Always steadfast in his love to his native State, he gave the flower of his life to her service, receiving in the course of that arduous duty wounds and the impress of a disease which ended his career while he was just in his prime.

It is especially sad to record the painful episode of the final fatal blow to his health. While on the journey to preside over the Medical Society of North Carolina as its chief officer, at the meeting in Elizabeth City, he received a burn which for many weeks taxed his vital pow ers until it culminated in death.

As a soldier, a citizen, a physician he fulfilled the measures of his duty, and we here offer this tribute of friendship and love to his bereaved family.
