POISONED WATER.

One of the leading surgeons in the Army made the following characteristic remark:-"Water kills more soldiers than bullets." His meaning was that soldiers who drank impure water, died by disease in greater numbers than those killed by bullets. The surgeon was right. Impure water, especially at this season, is a terrible cause of sickness and death. But the public say, what shall we do? There is but one sensible thing to do, and that is to purify the water by mixing with it something that destroys all poison or disease-breeding germs, and nothing does this like pure whis-key. But is may be asked, where can I obtain pure whiskey? Professor Henry A. Mott, says, "the purity of Duffy's Pure Malt Whiskey is absolute, and should commend it to the highest public favor." There are hundreds of familles that are drinking water constantly and are kept in perfect health by simply mixing a little of Duffy's Pure Malt Whiskey in each glass they drink. It is a simple and sure preventive of Summer diseases and germ poisons, and is endorsed by the best people in the land.

WILMINGTON, N. C. FRIDAY, JUNE 14, 1889.

Entered at the Postoffice at Wilmington, N.C. as second-class matter.

An ex Confederate Association of which Mr. Theodore Noel, of Chi cago, is the secretary, has been formed in that city to erect a monument to the 4,300 ex-Confederates buried there in Oakwood Cemetery. The association desires to correspond with the friends and relatives of these dead. Names of those who died in Camp Douglas, the list giv

ing company and regiment, can be secured from Mr. Noel. The Secretary of War has given permission to erect the monument, and the effort will be to make it a credit to the cemetery, in which both Federal and Confederate dead lie buried to gether.

The Philadelphia Evening Telegraph says: "Evidence continues to accumulate to the effect that the 'gentlemen's' murderous fish pond on top of the Alleghenies was not only the cause of almost the entire loss of life in the great disaster that has shocked the world, but that its owners have not been without recent warning as to its perilous con. dition. A faithful employe now comes out of the wilderness like a witness of consuming wrath to testify to the carelessness of those who were responsible for the state of affairs. Every effort will be made to smother and stamp out this kind

of testimony, but the truth will all come out despite all attempts to conceal or garble it."

Mr. Henry Exall, a well known banker of Dallas, Texas, and a prominent Democratic politician, who is now in Philadelphia, is an enthusiastic believer in the future of the "Lone Star" State. He states that in the eastern section of the State there are immense deposits of red and brown hematite, magnetic and specular ores. The attention of Eastern capitalists has been directed to this ore land, and a good deal of it has been bought up within the past six months. He predicts that before many years Dallas, Fort Worth, Galveston and many other towns in Texas will be manufactur ng cities on a large scale. Up to date, says M : Exall, the crops this year are on a more extensive scale, in better condition and with brighter prospects than at any time in the past. The cities are growing rapidly and are generally prosperous. The population of the State in 1880 was 1,600,000, and Mr. Exall is confi dent the census of 1890 will show at least 3,000,000. The State has not only grown in population, but has increased in an equal ratio in wealth

and commercial importance. In October next, from the 15th to the 27th, the State Fair will be held at Dallas. The whole State will be represented in miniature. Nearly every county will have an exhibit of its justerial resources, developed and undeveloped. Mr. Exall men tions as a peculiarity of Texas that

25th Annual Session,

THE TWENTY-FIFTH ANNUAL SESSION of Misses Burr & James' School will com-mence on Thursday, Oct. 4th, at St. John's Chapel on Third, between Red Cross and Campbell streets, where 15 has been located for the past two years. The street cars run-ning on Red Cross, a few yards from the build-ing, can cover any objection to distance. A well ventilated schoolroom, pleasant play-ground, good clattern of water and retired stuation make it more desirable than more

central localities available. The Principals, as heretofore, will spare M effort for the advancement of the pupils kindly entrusted to their care, giving individual attention to each, and ruling with firm but

loving discipline. Their many graduates, some of them nor occupying the position of teachers, testify W their success. As always stated in their diculars, scholars received only for the session no deduction Leing made except in cases protracted sickness. Those entering after 06 tober charged only from date of entrance. MUSICAL INSTRUCTION given by Mrs. L . Cushing, whose life-long devotion to the science and long experience in teaching. should be a guarantee for her ability. Vocal music, Calisthenics and Free Hand
