POISONED WATER.

One of the leading surgeons in the Army made the following characteristic remark:— "Water kills more soldiers than bullets." His meaning was that soldiers who drank impure water, died by disease in greater numbers than those killed by bullets. The surgeon was right. Impure water, especially at this season, is a terrible cause of sickness and death. Son, is a terrible cause of sickness and death. But the public say, what shall we do? There is but one sensible thing to do, and that is to purify the water by mixing with it something that destroys all poison or disease-breeding germs, and nothing does this like pure whiskey. But is may be asked, where can I obtain pure whiskey? Professor Henry A. Mott, says, "the purity of Duffy's Pure Malt Whiskey is absolute, and should commend it to the highest public favor." There are hundreds of fame est public favor." There are hundreds of familles that are drinking water constantly and are kept in perfect health by simply mixing a little of Duffy's Pure Malt Whiskey in each glass they drink. It is a simple and sure pre-ventive of Summer diseases and germ poisons, and is endorsed by the best people in the land.

Grandfather Smith, of Punxsutawney, Pa., who was gathered to his father's several years ago, used to say, after the great flood of 1861, that it was all in the moon. "Whenever," he said, "the moon changes at 11 o'clock and 59 minutes in the day time on June 1st, you may look out for heavy rains and a big flood. I have seen two or three great floods during my lifetime and they were all caused by the change of the moon at this particular time-11.59, June 1st. When the change of the moon comes again at that time, look out." Several of the citizens of that place remembered this, and, looking up the almanac, found that the change it—don't you be afraid."—Chicago Spring-Judge Merrimon. of the moon took place on June 1st, 1889, precisely at 11.59, and in conses quence they marvel much.

There are but seven regular mills in the country, the Collier, St. Louis; Brown and Kansas, of Charleston; the Belleville Oil Com pany, of Belleville, Ill., and the Baker and Burke companies, of New York. The actual valuation of these plants is about \$75,000."

Every day in the year from £500, 000 to £1,000,000 accumulates in Condon for investment. This may seem exaggerated, but it represents the condition of the greatest investment market in the world. There are idle funds there, and the people who control them want to find profitable employment for them-Fashion rules in finance as in other matters. At present beer is in fashion. The successful operations by which the great English breweries of Bass, Guinness, Alsop and about forty other concerns were turned into joint stock corporations (limited) with a combined capital of £15,000,000, for the alleged benefit of £15,000,000, for the alleged benefit of the British investors, set the fashion. Consequently anything in the line of beer will take the British investor. Nearly every brewery of consequence in the United Kingdom has been made the subject matter of such a trans ctior, to the joy alike of the owners of such properties and of the aforesaid owners of the accumulating millions. It only remained to carry the new gospel of joint stock beer into foreign parts. Consequently, the United States of America has been se lected by our British cousins as a field peculiarly fitted for such op erations. And they have certainly found plenty of helpers in this noble mission on this side of the water. Competent authorities estimate that since July, 1888, \$31,500,000 have been paid for American breweries by English investors.

In 1886 I contracted blood poison, and at once
sought a physician, who treated me for several months. By his advice I went to Crab
Orchard Springs, Ky., where his course of
treatment was carefully observed. I recovered, as I thought, but the next spring pimples began to appear on my face and body.
These gradually increased to sores and running ulcers. I was advised to try S. S. S., and
immediately after taking it I commenced to
improve, slowly at first, but more rapidly
afterwards, and soon nothing remained to
tell of my trouble. My blood is now thoroughly cleansed, and my system free from

despaired of ever feeling well again. All
that the physicians done for me brought no
permanent relief. Friends insisted that I
should give S. S. S. a fair trial, although I
thought it would be throwing away money.
After taking a thorough course, my health
and strength returned, and I must say that
S. S. S. alone cured me, as I discarded all
others while using it. As a tonic I can most
heartlly recommend it; for general debility,
it certainly is a specific. W. F. Bridges, and
