as second-class matter.

Entered at the Postoffice at Wilmington, N.C.

Senator Eustis, of Louisiana, is so much attached to Washington that he seldom goes to his Southern home during the recess of Congress. He is a frequent promenader on Pennsylvania avenue, attired in the coolest of summer garments. A straw hat, flannel shirt, loose trousers, russet leather shoes and an alpaca coat is his favorite costume. He is a great admirer of outdoor sports, especially base ball and horse racing. He is a close reader of everything that relates to foreign affairs, particularly our relations with France, Germany and England. The Senator is atways an interesting talker on national politics, and is ever ready to discuss the subject with his numerous newspaper friends. He enjoys hearing of the disappointment of the office seeking statesmen, for he knows how it is himself. He was never regarded as an enthu siastic admirer of Mr. Cleveland and his civil service policy. In speaking of the far-off Presidential contest in | died, had it not been for Electric Bit 1892 the Senator says he expects to see the Southern delegations go to the nominating convention and cast their votes solidly for Cleveland. The Southern people have learned to regard him as their truest and best friend, and it will be a difficult matter to win them away from his

The manufacturers are taking the final steps toward orby a tariff tax on imported castor oil of 80 cents a gallon. Explorers are now searching in Africa for two mysterious lakes which have long figured on the maps, though they have never been seen by a white man. One of them is Lake Landji, from which the real Congo is supposed to issue after it receives the two big head streams of the Congo, the Lualaba and the Luapulu. As the Lucuga River, also the only outlet of Lake Tanganyika, is supposed to empty into Lake Landji, it is easy to see why geographers are anxious to have the region of this supposed lake explored. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their express and past office address. Mr. Trivier has started up the Congo from Stanley Pool, and expects to follow the river to Lake Landji. The other mysterious body of water is Lake Liba, which for years has appeared on the maps far inland, east of the Gulf of Guinea Some cautious German publishers have recently erased the lake from their maps, as there is really no satisfactory evidence of its existence. The well known explorer, Rogozinski, has now started inland to see if he can find this famous but misty sheet of water. It will not be very surprising if the explorers report that

Poison the fountain and the stream is impure; poison the blood and its taint is carried through the entire system-those innumerable veins and arteries carry disease and death instead of life and vitality. As a result you have Headache, As a result you have Headache, Scrofula, Dyspepsia, Kidney Disease, Liver Complaint and General Debility. An inactive Liver means poisoned blood; Constipation means poisoned blood; Kidney disorder means poisoned blood. The great antidote for impure blood is Dr. Pierce's Golden Medical Discovery Acting Golden Medical Discovery. Acting directly upon the affected organs, restores them to their normal condition. "A word to the wise is suffi-cient." The "Discovery" is guaranteed to cure in all cases for which it is recommended, or money paid for it will be promptly refunded.

WHY WOMEN FADE.

Women lose their beauty because colds undermine their life. Dr. Acker's English Remedy for Consumption is an absolute cure for colds. Munds Bros, druggists

Ex-Attorney General Garland, although a sworn enemy to full dress and all social trimmings, has yielded to the importunities of the portrait painter and allowed a well known artist to hand him down to history in oil. The likeness is perfect, and it now adorns the wall in the Department of Justice. The ex-Attornev General is taking life easy in Washington City, and has a com fortable law practice. He says he does not see many of his old asso ciates since he left the Department of Justice, and not even the news. paper men come around and give him a chance to get off some of his newest stories. When he was Attorney General Democratic Senators used to say, when speaking of the difficulties in reaching Cahinet offl cers, "We can't get at Manning or Vilas, and it is only a waste of time to see Garland, for he has nothing to give us but a story."

A Sound Legal Opinion.

I at once secured the S. S. S., and after using it the first day, had a quiet night and refreshing sleep. In a week I felt greatly benefitted. In three weeks I could sit up and walk about the room, and after using six bottles I was out and able to go to business. Since then I have been regularly at my post of duty, and stand on my feet from nine to ten hours a day, and am entirely free from ten hours a day, and am entirely free from pain.
