# POISONED WATER.

One of the leading surgeons in the Army made the following characteristic remark:-"Water kills more soldiers than bullets." His meaning was that soldiers who drank impure water, died by disease in greater numbers than those killed by bullets. The surgeon was right. Impure water, especially at this season, is a terrible cause of sickness and death. But the public say, what shall we do? There is but one sensible thing to do, and that is to purify the water by mixing with it something that destroys all poison or disease-breeding germs, and nothing does this like pure whiskey. But is may be asked, where can I obtain pure whiskey? Professor Henry A. Molt, says, "the purity of Duffy's Pure Malt Whiskey absolute, and should commend it to the highest public favor." There are hundreds of famlifes that are drinking water constantly and are kept in perfect health by simply mixing a little of Duffy's Pure Malt Whiskey in each glass they drink. It is a simple and sure preventive of Summer diseases and germ poisons, and is endorsed by the best people in the land. the bill had passed the United

#### Entered at the Postoffice at Wilmington, N.C. as second-class matter.

Representatives refused to take up the bill known as the International legislation was not permitted to become a law during the 50th Congress. It will be remembered that States Senate in the preceding spring by a vote of three to one. It was an open secret that a majority of

the members of the lower House have voted for it if permitted. But the peculiar rules of that body denied them the privilege, and so this law was for the time defeated. It Congress, as the "pirate" publishers who have been fighting it are now in favor of it. These cheap pub lishers have confe to the conclusion that there is no money to be made in reprinting English books at the prevailing prices in the face of so great competition as they have forced upon them. They talk of forming a trust to regulate the output and the prices.

Although the details of the Sas moan convention, agreement, or whatever it may turn out to be, are not fully known, there have been, even in some of the Administration papers of the more sober kind, ex. pressions of grave doubt as to whether this "triumph" of American diplomacy may not involve much more risk than gain. It bids fair to

An Important Announcement About six weeks ago, while at business, I was suddenly attacked with excruciating pains in my feet, knees and hands. So severe the attack that I took my bed immediately, and in two or three days my joints were swollen to almost double their natural size, and sleep was driven from me. After suffer-ing the most excruciating pain for a week, using liniments and various other remedies, a friend who sympathized with my helplass condition, said to me: "Why don't you get Swift's Specific and

condition, said to me: "Why don't you get Swift's Specific and use it. I will guarantee a cure, and if it does not the medicine shall cost you nothing." I at once secured the S. S. S., and after using it the first day, had a quiet night and refreshing sleep. In a week I felt greatly benefitted. In three weeks I could sit up and walk about the room, and after using six bettles I was out and able to go to business. Since then I have been regularly at my post of duty, and stand on my feet from nine to ten hours a day, and am entirely free from ten hours a day, and am entirely free from pain. These are the plain and simple facts in my case, and I will cheerfully answer all inquiries relative thereto, either in person or by mail.
