At the Madison Square Garden, New York, recently, five women, for six days in succession, rode over 100 miles each day upon bicycies, and at the end of that time were well and strong. This proves conclusively that women have strength and endurance often equal to men. Why, then, are they called a weak race? Because they make little effort to secure strength or retain it after it has been secured. Women are pale, sallow, troubled with many weaknesses and why? Because they do not observe the laws of health and keep their bodies as they should. Their blood becomes thin and beats slowly. It should be stimulated to strong and healthy action. to strong and healthy action. Cosmetics will not do this, nostrums cannot, but pure whiskey, taken as a medicine, will. If the lady of society returning from a reception or shop-ping expedition, will use a little pure whiskey Nature will be assisted, so that instead of breaking down it will be tided over until it can recuperate. If the weary woman who is beset by work and cares will do the same thing, she, too, will be helped. Anything that

assists nature helps to bring health.

The importance of using only pure whiskey cannot be too strongly urged, but there is little good and pure whiskey to be had. The only safe one to take is Duffy's. It is a Pure Malt Whiskey, free from all impurities, and has been used by the most prominent men and women in America for years. It is recommended by the leading physicians, chemists, clergymen and it merits the great popularity

The Daily Review.

JOSH. T. JAMES, Editor & Prop'r. WILMINGTON, N. C.

TUESDAY, JULY 9. 1889.

Entered at the Postoffice at Wilmington, N.C. as second-class matter,

The Chicago News recently assert ed that "the Republican party of Illinois is not in a healthful condilonger the prospects of John M. Palmer for a seat in the United States Senate are likely to be very good." The foregoing was significantly copied leaded into the editorial department of the Inter-Ocean, a leading Republican organ, without a word of comment.

It is stated upon the authority of Representative Brown, of Indiana that the President will convene the 51st Congress in extra session about the middle of October. As the four new States are to choose Represen tatives on the first of October, it would not be advisable to convene Congress at an earlier date than that mentioned. The Administration evidently appreciates the necessity of meeting the financial embarrassments of the treasury surplus by a substantial reduction of the revenues. It will be for Congress to decide how this reduction of treasury surplus-shall be made. There are at least four ways of doing it: First, by increasing the Gov ernment expenditures in appropriations for shipment subsidies, coast fortifications, new war cruisers, rivers and harbors and pensions; second, by increasing the protective duties to a prohibitory standard, and thus diminishing the revenues from imports, as proposed by the Senate bill in the last session of Congress; third, by repealing the internal tax on whiskey and tobacco; and fourth, by putting raw materials of industry on the free list, and by making substantial reductions of ville men turn water into milk every duties on necessities of living.

In 1875 England and Portugal were disputing about the possession of Delagoa Bay, and trusting to the strength of her case England con sented to refer the matter to M. Thiers, the French President, asarbitor. The decision was in Portugal's favor, since which event the English government has not thought much of arbitration, except as a dignified bad use the Portugese have been making of their control of the coast has not tended to make the English forget their chagrin. The interior of South Africa territory, which is chiefly English or under English protection, desires communication with the sea, but Portugal throws all sorts of obstacles in the way, Not long since an English company prevailed on the Portugues authorities to grant the privilege of constructing a railroad from the bay to English territory in the interior with Euglish capital. Part of the rail. road had been built, when the Portugese government withdrew its contract to its construction. Nat urally this very much iritated the English company, and the British Government seems to be determined to have justice done. The company wishes Portugal to be forced to stick to its bargain. The least that Portugal can do, it is said, is to return the company the money it has spent and pay an indemnity for its outrageous proceedings at Delagoa Bay. The Times insists that Portugal shall be made to toe the mark. British war ships are to be sent in large force to the bay, and the outlook is threatening. What is at stake, of course, is the devel opment of the rich interior country, Portugal does not know how to develope anything, and fears the result of having a too enterprising neigh

Effects of Climate.

We hear a great deal said about the beneficial effect upon invalids of the climate of Colorado and other wester localities, but when a man changes his place of residence in the hope of improving his health with-out first trying Dr. Pierce's Golden Medical Discovery, he makes a great mistake. In nine cases out of ten he might save his time and money. This great remedy owes its power over all affections of the throat and lungs, bronchitis, asthma, catarrh and even consumption, which is lung scrofula, to the simple fact that it purifies and enriches the blood and invigorates the debilitated system. It is quaranteed to cure in all cases of diseases for which it is recommended, or money paid for it will be refunded.

Obedience and prosperity are linked together in God's plan.

HOW DOCTORS CONQUER DEATH. Doctor Walter K. Hammond says: 'After a long experience I have come to the conclusion that twothirds of all deaths from coughs, pneumonia and consumption might be avoided if Dr. Acker's English Remedy for Consumption were only carefully used in time." This wonderful Remedy is sold under a posi-tive guarantee by Munds Bros., druggista

The Verdict Unanimous. W. D. Sult, Druggist, Bippus, Ind., Spring-Judge Boykin, testifies: "I can recommend Electric Spring-Judge Boykin. Bitters as the very best remedy. Every bottle has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing" Abraham Hare, druggiet, Bell ville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others bave added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. tion.
