The flood of European immigra, tion, always heaviest in the summer, has set in with increased volume, and the officials of the port of New ing and painful sickness to robust York expect that 1889 will excell all previous years in the number of arrivals. The abolition of slaves in Brazil has introduced the negro problem into that country. The organiza. tion of a corps of negro troops by the Princess Imperial, who is acting as regent, has aroused the prejudice few cents' worth will puff a small of the whites, and some of the newspapers speak of it in violent language. It has led one prominent advise the people to hold the Prin. cess, her family and her ministers "I love you well," the tramp exresponsible. Mexico, on the Gulf coast, has just placed in the handsds of William P. To the party accepting the contract the Government offers a free importation of the necessary an apple, devours all its surrounds materials and a fifty years' franchise, under which the right will be given to charge a tax of \$1 a ton on all merchandise received on or de ivered checked in a day, and the first stages from the dock, except such as is taken from or put aboard vessels owned by the Mexican Government. It is estimated that this tonnage tax would amount to over \$10,000 a year. Munds Bros., druggists. The second contract is to light San Juan with 60 electric lights. A franchise for ten years will be given, under which the State guarantees to pay \$9,000 a year for these sixty lights and the right to supply private parties at the price fixed by the party accepting the contract.

Effects of Climate.

We hear a great deal said about the beneficial effect upon invalids of the climate of Colorado and other wester localities, but when a man changes his place of residence in the hope of improving his health without first trying Dr. Pierce's Golden Medical Discovery, he makes a great mistake. In nine cases out of ten he might save his time and money. This great remedy owes its power over all affections of the throat and lungs, bronchitis, asthma, catarrh and even consumption, which is lung serofula, to the simple fact that it purifies and enriches the blood and invigorates the debilitated system. It is quaranteed to cure in all cases of diseases for which it is recommended, or money paid for it will be refunded.
