with the employees in the manufacturing establishment in Fall River, in operation. By the explanation of the treasurer of the mill, the employees would have received \$2.59 on every \$100 wages earned the last six months, had the scheme been in operation. A man earning \$500 a year would have received as his dividend for the six months, over and above his regular pay, \$12,95. As this arrangment is satisfactory to the workers, it does not involve any loss to them of prospective increase of pay. That may be set down as certain. It is an interesting experiment, and it months, in the increase of production and the diminution of waste, now much advantage accrues from profit-sharing.

The Pittsburg Dispatch, a promi nent Republican paper, publishes a hard to get other folks' money."wo column dispatch from Columbus, showing that the renomination of Foraker for Governor of Ohio has caused great dissatisfaction in the Republican ranks. Several of the be given her if she marries again, aspirants for nomination are quoted as charging the Governor with du plicity. It is asserted that, while declaring his purpose not to become a candidate for renomination, and pledging his support to at least one of the aspirants, his strikers were busily engaged in securing county delegations in his behalf, with his knowledge and consent. The correspondent of the Dispatch quotes prominent Ohio Republicans as predicting that Foraker will be defeated anywhere from 30,000 to 50,000 in November. One of them, a Cin cinnati politician, predicts that Foraker will be covered up in Cin cinnati by at least 10,000.

Some of the Republican Statesmen now in Washington appear to be considerably worried over the political situation in the Territories which are about to become States. The majority in the 51st Congress is too narrow for comfort, and they feel that no stone should be left unturned to secure Republican success in all of the four new States. They is wholesome. are especially anxious to carry Mon. tana, and among those who talked about it with President Harrison recently were Senators Cullom, Dolph, Allison and Chandler. They told the President that the Democrats were doing good in Montana, and it was agreed that every effort should be made to secure Republican success there. It is quite probable that, as the outcome of these calculations, the Republican national committee will take an active hand in the Montana campaign, while also standing ready to give any needed help to the party in Washington and the two Dakotas.

We hear a great deal said about the beneficial effect upon invalids of the climate of Colorado and other wester localities, but when a man changes his place of residence in the hope of improving his health without first trying Dr. Pierce's Golden Medical Discovery, he makes a great mistake. In pine cases out of ten mistake. In nine cases out of ten he might save his time and money. This great remedy owes its power over all affections of the throat and lungs, bronchitis, asthma, catarrh and even consumption, which is lung scrofula, to the simple fact that it purifies and enriches the blood and invigorates the, debilitated system. It is quaranteed to cure in all cases of diseases for which it s recommended, or money paid for will be refunded.

In doing good to others there is an enjoyment of which sordid, selfish man knows nothing.
