Rheumatism and Catarrh.
Rheumatism and catarrh are both blood diseases. In many severe cases they have yielded to treatment with B. B. B. (Botanic Blood Balm), made by Blood Balm Co., Atlanta, Ga. Write for book of convincing proofs. Sent free.
R. P. Dodge, Atlanta, Ga., says: "My wife had catarrh and nothing did her any good. Her constitution finally failed and poison got into her blood. I placed her on a use of B. B. B., and to my surprise her recovery was rapid and complete."
W. P. McDaniel, Atlanta, Ga., writes: "I was much emaciated and had rheumatism so bad I could not get along without crutches. I also had neuralgia in the head. First class physicians did me no good. Then I tried B. B. B. and its effects were magical. I cheerfully recommend it as a good tonic and quick cure."
Mrs. Matilda Nichols, Knoxville, Tenn., writes: "I had catarrh six years and a most distressing cough, and my eyes were much swollen. Five bottles of B. B. B. thank God!"
John M. Davis, Tyler, Texas, writes: "I was subject a number of years to spells of indigestion, rheumatism, which six bottles of B. B. B. thank heaven, has entirely cured. I have not felt the slightest pain since."

Report of the Condition of the First National Bank

A woman is a candidate for Register of Deeds in Greenwood county, Kansas.
Denmark's foreign egg trade has grown to tremendous size, mainly with England. Twenty years ago the annual Danish export of eggs was 900,000, now it is reckoned at 111,000,000.
Mrs. Frances Hodgson Burnett has been engaged to edit the children's department of a syndicate of English and American newspapers, for which she is to receive \$7,500 a year.

The latest reports from Samoa are to the effect that war and hurricane have been followed by a great scarcity of food, and that many persons, especially old people and young children, have actually died of starvation. The people of Samoa have undoubtedly been sorely tried, and yet they have displayed a patience and a magnanimity which go far toward demonstrating that higher cultivations do not always have a monopoly of the cardinal virtues.
What becomes of all the paper? There are 1,000 pulp and paper mills at work the year round. But the newspapers and magazines consume vast quantities of it. The Century Company takes nearly 200 tons a month for their publication, and their paper bill amounts to \$300,000 yearly. Harper & Brothers take 25,000 reams, Bonner 10,000 reams at a time. Two cheap literature firms buy \$500,000 worth of paper a year. One patent medicine firm buys \$300,000 worth of paper a year.

A careful and liberal estimate of the actual value of the properties upon which certificates of the White Lead Trust have been issued places the figures at \$15,000,000. To represent this amount of intrinsic value there are Lead Trust certificates for \$33,018,800. If it be presumed that the nominal valuation placed upon each work was four times the cash value, there appears the neat sum of over \$23,000,000 in certificates, worth at last week's figures, about \$25 per share.
The Navy Department is fitting out an expedition to Angola, West Africa, for the purpose of making observations during the total eclipse of the sun on December 22 of this year. The proposed expedition will be of great importance, for such eclipses give astronomers opportunities for studying the many mysteries of the sun and the sun's surroundings. The latest eclipse made it necessary for astronomers to modify their views as to the constitution of the envelopes which encircle the sun, and by new observations they may be enabled to test their hypotheses and make a fresh contribution to science.
Dr. Pierce's Pellets cure constipation, biliousness, sick headache, bilious headache, and all derangements of the stomach, liver and bowels. One a dose.

Ninety is the highest the thermometer has registered in this office to day. This was at 12, 1 and 2 o'clock.
The cheap 5 o'clock trips to Carolina Beach are very popular, and the *Passport* generally carries down a good crowd at that hour.
The many remarkable cures Hood's Sarsaparilla accomplishes are sufficient proof that it does possess peculiar curative powers.
It is a difficult matter to arrange a schedule to suit everybody but that now in force on the Seacoast R. R. seems to go pretty far in that direction.

Capt. Adrian's black Gordon setter "Ned" has disappeared. He is either "lost, strayed or stolen" and the party who will find him and return him to Messrs. Adrian & Vollekers' store will be liberally rewarded.
Capt. W. B. Summersett, Roadmaster on this section of the Carolina Central Railroad, came down yesterday with Capt. Whisnart, and was in consultation with him during the day.
Talk of a new ice factory is being revived here. Last Spring we were told that the stock for one had been subscribed and that the factory would soon be in operation but so far it has failed to materialize.
On Saturday, August 3d, Mr. R. H. Grant, administrator, will sell on the premises lately occupied by Mrs. E. A. Lunsden all of the millinery and other goods of which she died possessed. The sale will be for cash.
A Confederate Soldier.
Gen. D. H. Hill, who has been spending a fortnight at Southport, registered here to-day at the Orton House. He is accompanied by his wife and daughter, and we regret to learn that his health is still poor. He will return to Charlotte to-day.

Fender Co. Teachers' Institute.
A Teachers' Institute, for both white and colored teachers, will be held in Burgaw beginning on Monday, August 5th, and continue for one week. Prof. M. C. S. Nobles and other educators will be present during the week. See notice of Mr. James F. Moore, County Superintendent, published elsewhere.
One Hundred Per Cent.
Here is the way they work things sometimes. A gentleman passed down into the purlieus of Front Street Market this morning, and seeing a cart load of canteloupes fresh from the country, inquired the price. He was told he could have his choice for five cents apiece. Returning from the market house ten minutes later he found that a colored individual had bought the entire load and stored them on the public pavement for sale and was then asking \$1 a dozen for the same fruit that could have been bought for 50 cents a dozen ten minutes previous. This is one way in which to account for the high prices consumers are compelled to pay.

Forecast.
For North Carolina fair weather, followed by showers and cooler in Northwestern portion, and fair and stationary temperature in Southeast portion. For Wilmington fair weather.
Progress.
It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possession these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.
City Court.
The Mayor disposed of the following cases this morning:
Nany Strickland, violating the sanitary ordinance, guilty, fined \$3.75.
Wm. Beaney, drunk and down, \$10 or 20 days.
Jas. Bell, disorderly conduct, \$5 or 10 days.
Some Home Manufactures.
We saw this morning at Mr. W. M. Cumming's office, No. 17 Princess street, several fine cushions that were made by him for Mr. Latimer's steam launch Curlew. The cushions are as handsome, the material as good and the price probably cheaper than if the same were gotten here from the North. It is always in order to encourage home enterprise and Mr. Cumming is fairly entitled to the patronage of the people.
Colored Concert Company.
The "Celebrated Sunny South Singers or Gold Medal Concert Company," composed of colored talent, has been in the city a day or two giving some enjoyable entertainments. There are five members of the company and they perform on twenty different instruments. Estella Scott, the leading female member, plays on nine instruments herself, including an E flat cornet, and an eight year old girl plays on six. The company is from Knoxville, Tenn., and is on its way to New York whence they will go to Europe to represent colored American talent at the Paris Exposition.
They gave a performance Monday night at St. Stephen's A. M. E. Church, and again last night at Ruth Hall for the benefit of St. Luke's Church. To night they give an entertainment at and for the benefit of Mt. Zion A. M. E. Church. It is probable that they will appear at the Opera House before they leave the city.
The Blue or the Gray?
An order has been issued from headquarters of the N. C. S. G. requiring companies of the Second Regiment to adopt the regulation uniform—blue with white trimmings; the same as worn by the Fourth Regiment at the recent Encampment. The order is ill-timed and in bad taste, and we doubt if it will be carried out. The Wilmington Light Infantry have already a new handsome gray uniform, which cost them a large sum of money, and the attempt to force them to discard those and purchase new blue uniforms will probably be productive of trouble in the camp. The preference of our people is for the gray and it is a preference which should be respected. It is a color which was baptized in blood and glory on many a gallant field of fight. If any change is to be made and a uniformity of color is deemed essential, then it is at least just as reasonable to require those wearing blue uniforms to change to gray as it is for those wearing gray to change to blue. Was the order issued, we wonder, with the sanction and approval of the Commander-in-Chief, and does Gen. Glenn know of this direction several years ago?
Advice to Mothers.
MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty five cents a bottle. July 6 dead & wly
