A colored preacher of this city went down into the water yesterday to administer baptism to a number of converts and forgot to remove his watch. As a consequence it is "in soak" to-day—in oil.

A good time may be confidently looked for by all who attend the grand German to be given at the Hammocks to-morrow night. The last train will leave for the city at midnight.

The police made 203 arrests during the month of August; 139 colored and 73 white persons; males 174, females 28. The court fines collected amounted to \$355.36, which is the largest on record. The pound fees were \$7.

Harbor Master's Report.
The Harbor Master's records show the arrival of only 21 vessels at this port during the past month; 5 steamers, 1 Spanish and 4 American, and 16 schooners, barques and brigs, 12 American and 4 foreign. Twenty-one in all, and aggregating 9,983 tons.

The Ladies Delighted.
The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasing to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels.

For the Rooks.
A party is being made up to-day for a fishing frolic at the Rooks. They will carry down lots of good bait, of various kinds, and expect to capture some of all kinds of fish, from a shark to a shrimp. Some of them are expert fishermen and we expect a good report from them on the return.

Probably the Last.
The regular regatta of the Carolina Yacht Club was appointed for to-morrow but another "Ladies Race" for Friday next has been substituted. The start will be made at 4 p. m. and it is probable that there will be an entertainment and a dance in the Club House at night. This will probably close the racing season.

Farewell Sermon.
Rev. G. M. Tolson, who has so long and so acceptably filled the pulpit of Brooklyn Baptist Church, has accepted a call to Seattle, Washington Territory, and will leave in a few days for that place. He preached his farewell sermon last night. Rev. Mr. Scruggs, of Virginia, has been invited here on a visit to this church, which may become a permanent engagement.

The prevailing direction of wind was from the southwest; the extreme velocity was 24 miles an hour, on the 14th.

The total precipitation for the month was 7.81 inches; excess 12.100th; total excess in precipitation since January 1st, 1.93.

County Board of Health.

Scribner's for September.

There is as much solid information in *Scribner's* this month as usual. Twenty five pages of it are devoted to "Safety of Railroad Travel," with numerous descriptions and pictures of brakes, signals, etc. Fifteen pages are given to the "Small Armies of European Armies." Andrew Lang writes enthusiastically about the elder Dumas, of whom a fine portrait is given. The *Nepigon River* and its attractions to fishermen receive careful attention. "The Place of the Fitting School in American Education," shows how the college years of a boy might be shortened were our high schools worthy of their name.

In fiction the magazine gives the first instalment of a novel "In the Valley." The opening chapters promise a story with a great deal of adventure. "The Master of Balantrae" brings some of the characters to America. "Out of New England Granite"—is severe on a woman of a type which has too few exemplars—the woman who can like men without falling in love with them. "Night Witchery," and "Three Dream Heroines," are quite as imaginative and tender as any love story. The departments are as usual, full and complete.

Weather Crop Bulletin.

The reports of correspondents of the Weekly Crop Bulletin, published by the North Carolina Experiment Station and State Weather Service, show there has been a slight excess of rainfall, a deficiency in temperature and very little sunshine during the week ending August 30th. The excess of rainfall occurring chiefly in the Northern part of the State has injuriously affected crops which were beginning to recover from previous excessive rains. In other portions an average rain fall has been favorable to the growth of most crops. The temperature has been too low with injurious effect, and there has been too little sunshine. There is prospect with a few weeks of fair weather of great improvement in the condition of the cotton crop. Cotton on stiff soil is reported to be fruiting well. The cutting and curing of tobacco is progressing in many localities. The curings are reported bright. The condition of other crops continues very diversified. Late corn has been benefited by the weather during last week. The saving of fodder has been greatly hindered and stopped in some places.

A Disturbance Yesterday.
Five young men from this city, who went down to the Sound yesterday, returned during the afternoon and boarded a street car. They had imbibed pretty freely and were somewhat the worse for wear. They were boisterous on the car and a colored special policeman who was there told them to be quiet. They resented this and the man showed his badge and attempted to arrest the party. It was a rather rash proceeding as they "piled in on him." He called for help and other policemen arrived and the entire party were arrested. They were before the Mayor this morning and were bound over for appearance at the Criminal Court. The colored special policeman's badge was called in as it is said that he was also much to blame for the disturbance.

The affair has created much excitement in the city to-day. There are a number of colored men appointed as special police officers, but it is said their duties are specific. They were appointed principally for the purpose of ferreting out the authors of the many burglaries which have recently disturbed our people and one of them has already done efficient service in that direction. But the city administration is Democratic and people say plainly that if colored men are to be invested with plenipotentiary police powers then they should be clothed and arrayed as such and appear regularly on the force.

Don't hawk, hawk, blow, spit, and disgust everybody with your offensive breath, but use Dr. Sage's Catarrh Remedy and end it. 50 cents, by druggists.

Footings Up the Damages.

Sheriff Smith, of Richmond county, has told the *Charlotte News* that the damage by the recent floods is greater than our people have any idea of. Friday a corner of the Pee Dee mills tumbled down, leaving a gaping wreck four stories high in the building. The Great Falls mills will be able to resume operations within two months, but it will be from four to five months before the other mills can start up again. The damage to mills, railroads and crops will foot up \$175,000.

Portraits of Bishop Atkinson.

A fine portrait of the late Bishop Atkinson is on exhibition in Mr. I. L. Greenwald's store on Market street. It is a copy of one in the vestry room of St. James' Church, which was painted by Mr. W. Earl Brown. The copy was made by a promising North Carolina artist, Mr. W. G. Randall, of Marion. It was done under an order from Bishop Lyman and is to be placed in the Ravenscroft Seminary, at Asheville. Another copy is to be made by Mr. Randall for Col. John W. Atkinson.

The people of Wrightsville are very much exercised over the stopping from to-day by the Ocean View R. R. of the running of their cars from the Hammocks to Wrightsville and return. It is to be hoped that some amicable adjustment may be made by which these trips may be resumed immediately.
