The daily press has been unsparing in its denunciation and ridicale of this manner of settling disputes, and the leading cler gymen of Georgia have deemed it their duty to denounce duelling from their pulpits. On the same line is a bill introduced in the Georgia House of Delegates. This bill, which will probably become a law, makes it a felony not only to participate in a duel, but to take any punishable by imprisonment in the penitentiary and disfranchisement, would soon make duelling a thing of the past.

Last week the American Association of the Professors of Dancing held four sessions, and, after much discussion and practical illustration of proposed steps, adopted twoone a round and the other a square dance. Prof. C.H. Rivers, of Brooklyn, is to send instructions for the steps this week all over the country so that dancing masters may intro duce them in the coming season. The round dance, Prof. Brooks, of Broome street, states, was partly invented by Prof. Rivers, who says he got the idea from a dying musician, who told him he dreamed it. Therefore it is called "the dream," Le Reve. It consists of three glides forward, the last glide done slowly; ing pin, be described as a 'marriage and then a coupe or thrusting out ring?" of the forward foot, recovering it to the fifth position, behind the other foot; last, it is a jete, or jump, with the forward foot, at the same time bringing the other foot to the assemble or position of rest. Then repeat adlibitum. The square dance is a schottische quadrille, a slight variation on the schottische quadrilles popular for many years. It was invented by Prof. J. P. Bucks, of

A correspondent of the Nashville American says: "For Miss Murfree, the chief writer of Tennessee mountain dialect stories, I have a profound respect-for her talent, for her womanly courage and industry and for her descriptive powers. In justice to her it must be said that she sometimes, but seldom, uses words not found here and there spoken by mountain people. Her chief fault lies in giving a false view of the people by making them speak in a dialect which doesn't exist, using words which the closest observer will hear only at very rare intervals by a few people, but never forming the basis, the woof or the warp of daily colloquial speech. Hence she has woven a language for her characters which is composed of words so rarely heard that they are scarcely noticeable. It is not and doesn't resemble the speech of the people. This is a violation of the truth of fiction, and fiction has its own inviolable laws of truth which cannot be violated with impunity nor without making the art picture utterly false. Although a little uncouth, these people speak good, pure English. Another fault is a lack of facility in colloquialism. Her speeches are never like the speeches of living men and women. This i a correctable dialec'; the other is a radical fault."

An Important Announcement

An Important Announcement
About six weeks ago, while at business, I
was suddenly attacked with excruciating
pains in my feet, knees and hands. So severe
the attack that I took my bed immediately,
and in two or three days my joints were
swollen to almost double their natural size,
and sleep was driven from me. After suffering the most excruciating pain for a week,
using liniments and various other remedies,
a friend who sympathized with my helpless
condition, said to me:

"Why don't you get Swift's Specific and
use it. I will guarantee a cure, and if it does
not the medicine shall cost you nothing."

I at once secured the S. S. S., and after
using it the first day, had a quiet night and
refreshing sleep. In a week I felt greatly
benefitted. In three weeks I could sit up and
walk about the room, and after using six
bottles I was out and able to go to business.
Since then I have been regularly at my post
of duty, and stand on my feet from nine to
ten hours a day, and am entirely free from
pain. These are the plain and simple facts
in my case, and I will cheerfully answer all
inquiries relative thereto, either in person or
by mail.
