With the close of the week nearly a million dollars had been subscribed in New York to the Exposition fund.

The wine list on the bills of fare used in dining cars on railroads crossing Iowa has this notice at the bottom: "No liquors sold in the State of Iowa."

There are 24 Baptist churches in Richmond, Va., with an aggregate membership of 20,000—about one-fourth of the entire population of the city. The Baptists there, as everywhere in the South, are divided into white and colored. The membership of four of the white churches numbers over 1,000 each.

Governor Lee has received a cablegram from M. Mercie, the French sculptor, saying that information about the Lee statue had just been mailed. The Governor had hoped to be able to unveil the monument in December, but it now seems that Mercie's figure will not reach Richmond in time. The unveiling will take place in all probability in May.

Baron Hirsch, one of the richest of the French bankers, who was blackballed a few months ago by the Paris Jockey Club, is about to take his household to England. He thinks of buying Houghton Hall, one of the most magnificent of English places, near Sandringham, for £300,000. The Baron is reputed to be worth ten millions sterling.

Ward McAllister has not lost his hold on society by reason of the unpleasantness developed in the arrangements for the Centennial ball. Mr. McAllister is now planning for a great ball at the Metropolitan Opera House, New York, to which only the upper "400" will be eligible, but at which it is expected that 1,000 persons will be present. Mrs. William Astor has headed the list of subscribers.

What is the difference between a duck with two? Only the difference of a pinion. We want every one to pass an opinion on Dr. Bull's Cough Syrup. It needs but one trial.

Children Enjoy
The pleasant flavor, gentle action and soothing effects of Syrup of Figs, when in need of a laxative, and if the father or mother be costive or bilious the most gratifying results follow its use, so that it is the best family remedy known and every family should have a bottle.

Another Peal of the Bells.
Mr. M. W. Teachey, of Teachey's Duplin County, was married in this city to-day, at the residence of Mr. A. Shrier, to Miss L. C. Bryan. Rev. Mr. Beaman tied the nuptial knot. The happy couple left on the 4 o'clock train this afternoon for their future home at Teachey's, where we understand that a handsome reception is to be given them to-night by the bridegrooms parents.

The Minstrels.
Gorton's Minstrels, who are to play here to-morrow night, are a really excellent troupe, if we may judge by the comments of our exchanges. They had good houses in Raleigh and in Goldsboro and the papers in those cities speak highly of them. A good minstrel show always draws well in Wilmington and we therefore confidently look for a good house to-morrow night.

At the Paris Hippodrome the chief attraction for the season has been the spectacle of a lion taking equestrian exercise, the animal really mounting on the back of a horse and being carried several times around an inclosure. The receipts accruing from this novel performance are stated to amount up to the present to more than \$500,000.

The new city of Johannesburg in the South African gold region is attracting attention, and there are those who predict for it a phenomenal future. They promise a million inhabitants in five years, an output of gold which shall gild the whole world, a commercial importance threatening the established trade centres of the Old World, and a political and social position second to no city in Africa, north or south.

The newly selected capital of South Dakota got its name of Pierre from Pierre Chouteau, one of the St. Louis Chouteaus in the days when all that region traded extensively in furs with St. Louis. Old Fort Pierre was abandoned a great many years ago, and scarcely a vestige of it remains. It was at Fort Pierre in 1856 that Gen. Harney met the Sioux Indians, whom he had whipped, and made a treaty with them.

According to the New York Star Abbott's election in New Jersey is a sure thing. It says that the Republicans have practically given up the contest and that their only hope now is to carry the Senate. It is only a question of majority for Abbott and the Star figures this up at 7,950. The Star says also that the Republicans have practically abandoned all hope of securing control of the lower House of Assembly, as well as of electing their candidate for Governor.

Mahone has called upon his party everywhere to help him out in the campaign, not only with boodle, but with speakers. Money, it is said, will flow like water this week and every effort will be made to steal the State. He has speakers from Kansas, Mississippi, New Hampshire, New Jersey, Ohio, Tennessee, Michigan, Pennsylvania, Indiana, Dakota, North Carolina, South Carolina and the District of Columbia. And yet every one of the Democratic speakers is a Virginian.

The Democrats in Virginia, who have been rather sleepy heretofore, were wide awake last week. The registration books in the State were revised last Saturday and some good work was done. The summing up shows a clear gain of about 3,000 in Richmond and in Henrico county. The party organization there is superb. Advices from other sections show gains and a consecutive estimate places it at not less than 15,000. McKinney is still in the field but Mahone has gone home to Petersburg, where he will await the result. To-day week is election day.

"I am Sir Oracle, and when I open my lips let no dog bark." I am a benefactor to the human race, greater than he who has taken cities, built railroads and made the lightning to speak. I have done more than these. I have killed pain, and my name is Salvation Oil.

City Court.
Mayor Fowler disposed of the following cases to-day:
Jane Sampson, charged with disorderly conduct, case continued.
Amos Devane, disorderly conduct, judgment suspended on payment of costs.
Georgiana Armstrong, disorderly conduct, guilty, \$5 and costs.
Moses Pearsall, abduction, case removed to Justice John Cowan.

The Benefactor's Report.
Steamship Benefactor, from this port, arrived at New York on Sunday. She reports in the Herald, "easterly winds and rainy weather to Body Island, where a heavy N E gale was encountered, lasting 30 hours. Oct. 25, Body Island bearing N W. by W fell in with schooner Wu. H. Baily, of New York, full of water and anchor down; wanted to be towed into port, but the sea was too heavy to tow her and they refused to leave the vessel."

A Congressional Visitor.
Hon. A. E. Stevenson, of Bloomington, Illinois, who is now a member of Congress, and who was Second Assistant Postmaster General under Cleveland's administration, arrived at Charlotte last Saturday, and spent Sunday in the city. Mr. Stevenson is swinging around the circle in the interest of Chicago and the World's Exposition, and from what can be learned indirectly, he is getting in some good work. His plan seems to be to visit the Southern Congressmen and get in some effective work on them. He is popular with all the Southern members, and furthermore, is related to many of them. He is a descendant of one of the signers of the Mecklenburg Declaration of Independence, and has kin folks scattered all through the Charlotte section. He is now on a visit to Hon. Alfred Rowland, at Lumberton, and will probably arrive here in a day or two on a visit to Maj. McClaumy, at Scott's Hill.
