Inherited Blood Poison.
How many people there are whose distress
from aches, pains and eruptive
tendencies are due to inherited blood poison.
Blood passes from parent to child, and it is
therefore the duty of husband and wife to
keep their blood pure. This is easily accom-
plished by a timely use of B. B. B. (Botanic
Blood Balm). Send to Blood Balm Co., At-
lanta, for book of most convincing proof.
James Hill, Atlanta, Ga., writes: "My two
sons were afflicted with blood poison, which
doctors said was hereditary. They both broke
out in sores and eruptions which B. B. B.
promptly controlled and finally cured com-
pletely."
Mrs. S. M. Williams, Sandy, Texas, writes:
"My three poor afflicted children, who inher-
ited blood poison, have improved rapidly after
a use of B. B. B. It is a Godsend."
J. H. Wilson, Glen Alpine Station, N. C.,
Feb. 15, 1885, writes: "Bone and blood poison
forced me to have my leg amputated, and on
the stump there came a large ulcer, which
grew worse every day until doctors gave me
up to die. I only weighed 120 pounds when I
began to take B. B. B., and 120 bottles increased
my weight to 180 pounds and made me sound
and well. I never knew what good health
was before."

SYRUP OF FIGS

Great Britain mined almost 10,000,000 tons of coal, iron and other minerals last year than in 1887 and employed 10,000 more men in the work, but fewer lives were lost in the process. The total number of fatal accidents was 885, and of deaths occasioned thereby 969, being an increase of 4 in the accidents, but a decrease of 91 in the lives lost.
The statistics of the Episcopal Church presented to the General Convention show 51 dioceses and 14 missionary jurisdictions, with 69 Bishops, 3,632 priests and 320 deacons. The number of communions given at 488,168, an increase of 63,748, or 15 per cent. The number of baptisms during the year was 171,700, and of confirmations 112,783, an increase of 21 per cent. The number of churches, chapels and missions is 5,787, and the offerings for the last year were \$83,318,514.
A citizen of Eatonton, Ga., smokes about twelve pounds of tobacco yearly in a pipe that he declares is over two hundred years old. This leads a mathematical person to calculate that if that were the average amount used in the pipe since its first year, 2,400 pounds of the weed have been burned in its bowl, and if the first \$12 had been put out at compound interest at the rate of 10 per cent it would now have grown to the sum of \$1,755,443,200. Just how this would have benefited the first owner of the pipe does not appear.
There is good authority for saying that in more than one instance the Senate will reject or reluctantly confirm some of the President's nominations to minor but important offices; and it is also probable that Mr. Harrison's selections in some few instances of important postal and legal positions will be the text of bitter protests from men like Quay, and of plaintive appeal from men like Chandler, so that it is possible that he will be confronted by the alternative of facing a rebellious Senate or of yielding his feeble hold upon civil service reform.
"If the heart of a man is depressed with cares—the mist is dispelled, when a woman appears." The author of these lines had been suffering for some time with an attack of acute rheumatism, and the woman who entered such a timely appearance, brought a bottle of Salvation Oil.

Chateau Yquem of 1858 has been recently sold at \$15 a bottle at a public sale of fine wines, and an American has given \$25 a bottle for Johannisberger of 1861.
The rumor is revived that Mr. W. H. Smith, the present chancellor of the exchequer, is to be sent to the House of Lords as Viscount Strand, and that Mr. Balfour will assume leadership in the House of Commons.
Not satisfied with gobbling up several of America's breweries the Britishers now want our medicine factories. It is said that a syndicate has been formed with millions back of it to buy up American patent medicine rights.
The Governor of the Congo State says that in spite of the scores of explorers who have been traversing Africa in all directions since Livingstone began his travels, the larger part of the many millions of natives have never yet seen a white man.
Ex-Governor Palmer, of Illinois, says that tariff reform will be the issue in 1892; that Cleveland will be nominated by the Democratic Convention by the Presidency by acclamation, and that McKinley, of Ohio, or Cullom, of Illinois, will be the Republican nominee.
Next year the world-famed Epsom Derby takes a new departure. It will no longer be a sweepstake of fifty sovereigns each, half forfeit. From 1890 it will be of the fixed value of £5,000, no matter what the number of entries, and the Oaks will be worth £4,000.
In the race with automatic machines Paris has put herself in the lead with a machine exhibited the other day in the Place de la Republique. You brought with you a penny and a cup. You parted with your penny, dropping it into the accustomed slot, and your cup was full of steaming black coffee, judiciously sugared.

LOCAL NEWS.

Oyster Kilt Club.
The second supper of a series of the Oyster Kilt Club will be held to-night at Mr. S. Davis', corner Princess and Eighth streets, under the auspices of the 2,000 K boys. The Editor of the REVIEW has kindly been invited to participate. Appropriate toasts will be made and published later.

Forecast.

For North Carolina, fair weather, and stationary temperature. For Wilmington and vicinity, fair weather.
The Merchants' Carnival.
The Merchants' Carnival, given at the Opera House last night, was a decidedly unique and interesting affair. The attendance was very large, the house having been crowded to its utmost capacity, and the entertainment was in every way an enjoyable one.
Forty young ladies opened the entertainment, with a "Carnival March," and singing a chorus entitled "The Boom of Wilmington." The ladies were all handsomely attired in costumes representative of trades.
All of the large business houses in the city were represented on the stage, the following named ladies personating the different establishments: Miss Kate Bremer, Mrs. K. Vollers, Misses M. Runge, A. Stolter, J. Smith, A. Stennumman, M. Baker, C. Levy, Fanny Knobloch, M. Schwara, Mrs. E. Burkheimer, Misses E. Bissinger, M. Schulken, A. Boesch, K. Voss, M. Steljes, Linda Peschau, Annie Ulrich, Lizzie Doeh, Kate Stolter, Mrs. M. Guchen, Misses E. Adrian, Kate Runge, Lizzie Shutte, A. Ortman, Annie Dock, Louise Bappler, Kate Hintz, Pauline Knobloch, Louise Strauss, Janie Smith, Lizzie Dock, Minnie Dock, Carrie Dock, Annie Doescher, Lizzie Ulrich, Maggie Strauss, Kate Bappler, Master Charley Schulken, Misses Emma Schutte, Julia Hintz, Mary Mohr.
Prof. Greenwald presided at the piano and the Germania Band, who were in full uniform, rendered some beautiful selections. A solo was sung by Miss Minnie Schwarz, and a duet by Miss Fannie Knobloch and Miss Schwartz. The entertainment concluded with an animated and amusing dialogue between Miss Annie Ulrich, representing the Carolina Central, and Miss Fannie Knobloch, the Atlantic Coast Line.
As a whole the entertainment was an eminent success and we trust that a handsome sum for the object in view was realized thereby.
"Have you your life preserver?" she timidly inquired, looking trustfully into the face of her lover, as the little craft in which they were seated skimmed gracefully over the billows. "Oh, yes," he answered merrily; "see here," and he drew from his side pocket a bottle of Dr. Bull's Cough Syrup.
Refreshing and Invigorating
Delicious Soda Water as drawn from Munds Brothers' magnificent new soda fountain at a temperature of 34°. Purest Fruit Syrup, Milk Shakes and Natural Mineral Water.

Harbor Master's Report.

From the books of Capt. Joseph Price, Harbor Master, we get the following report of arrivals at this port during the month of October:
American—7 steamers, 6,071 tons, and 12 schooners, 3,496 tons; total 19 vessels, and 9,567 tons.
Foreign—10 steamers, 12,010 tons; 4 batques, 1,588 tons; 2 brigs, 550 tons; 1 schooner, 95 tons; total 17 vessels and 14,240 tons.
Total arrivals—American and foreign—26 vessels, aggregating 23,816 tons.

Charged With Infanticide.

John Holt, colored, was arrested last night, charged with the infanticide of his own child, a newly-born infant. The woman denied having given birth to the child but some of the neighbors declare that she did and that it was chopped up and taken away in pieces. The couple lived in the lower part of the city. A man came to the City Hall this afternoon and reported that a part of the body had been found and at 4 o'clock the Chief of Police had gone there to investigate.
It is an ugly looking case. There is no doubt that the woman gave birth to a child.

The Freight Office Here.

Mr. Thos. C. James, formerly of this city, but for nearly four years past Joint Agent of the Associated Railways at Charlotte, has been appointed Freight and Passenger Agent of the Cape Fear & Yadkin Valley R. R. in this city and has accepted the position. He has been here for two days past in consultation with Capt. Fry, the General Superintendent of the Road, and Capt. Kyle, the General Freight and Passenger Agent, and left last night for Richmond, whither he had been summoned. He will go on to Charlotte to-night and will return here about the middle of the month, or as soon as the road is opened for traffic.

Large Sheds to Be Erected.

Work was begun this morning on the new buildings to be erected for the yard of the C. F. & Y. V. R. R., at the foot of Mulberry street. There is a pretty considerable accumulation of "tar, pitch and turpentine" refuse on the grounds and a gang of 20 workmen are busy digging this up. It is to be removed and carried over to the depot at Point Peter and dumped in the mud. It would have been an excellent material for some of our sandy streets but we understand that the city declined to take it. Walnut street and Red Cross, between Front and Third, are in need of something of the kind and the locality is near at hand. As soon as this is removed large freight sheds, covered with corrugated iron, are to be erected on the yard.

Meteorological.

Mr. F. P. Chaffee, observer in charge of the Signal Office in this city, furnishes a summary of meteorological observations for the month of October, from which the following is taken, viz:
Mean barometer, 30.059 inches; highest, 30.299, on the 22d; lowest, 29.705 on the 27th.
Mean temperature, 61 degrees; highest, 83, on the 1st, lowest 37, on the 8th; total deficiency in temperature during the month, 103 degrees; total deficiency since January 1st, 431.
The prevailing direction of wind was from the North, and the total movement 4,577 miles; highest velocity, 28 miles an hour, from the West, on the 27th.
The total rainfall was 3.87 inches. Excess in precipitation since January 1st, 3.88 inches.
There were 16 cloudless days; 8 partly cloudy; 7 cloudy.
Frost was reported on the 9th—the first of the season—and there were thunderstorms on the 13th, 23d and 26th.
