Some of these writers have set it down as rivaling in age the pyramids of Egypt and the burial mounds of the Ohio and Mississippi valleys. Measurements of this botanical

Advice to Mothers.

MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces nat-ural, quiet sleep by relieving the cnild from pain, and the little cher-ub awakes as "bright as button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from teething or oth. r causes. I wenty five cents a bottle.
