as second-class matter.

Where a man and his wife are lost at sea the law always supposes that he, being the stronger, survived her French courts within the last ten years it was found that the wife outlived her husband, and the practice of the law had to be reversed.

The genius that led to the manufacture of wooden nutmegs, some years ago-a genius for making money by filling one's fellow men with sawdust, like children's dollshas broken loose again. This time flour, water and some unknowningredieut like mucilage, take the place of wood and instead of nutmegs, coffee -genuine Rio, Java, Mocha, or any desired brand—is manufactured.

Smugglers are reaping a rich har est down near the Canadian fronter. They pursue their unlawful work in houses built on the boundary line, bulf in Conada and the other half in the United States. Generally these houses contain a tramway, upon which cars, containing contraband goods, can be moved from one country to the other. When United States officers make a raid the cars are pushed over into the Canadian territory, and vice versa. The Canadian Government will take measures to prevent a continuance of the fraud.

The report that the Scandinavians in Utah are rapidly leaving the Mormon Church is probably not exaggerated. These people, observes the San Francisco Chronicle, are naturally as moral as they are industrious, and they are secured by the Mormon elders as colonists simply because they hope to get homes of their own. When the enormity of Mormonism is fully presented to them they are pretty sure to abandon the doctrines of the Saints. Such a revival as is now being carried on in various parts of Utah will be anathematized by the Mormons, but, in the opinion of that paper, the general public will rejoice over it, as it means the addition of a number of good citizens to the Territory.

. The eventful fall of the Britist. House of Lords is again foreshadow ed in the aunouncement that the Government contemplate introducing once more at the next session of Parliament the black sheep bill, the object of which is to keep out of the upper House those peers who are a discredit to their order. The bill will differ from others, in that it will invest a committee of the House consisting of judicial peers and certain lay peers, with the power of penal discipline over the House of Lords. The action of the committee will be subject to confirmation or rejection by the House tself, but if the bill is literally construed upon the lines designated the membership of the House of Lords will be cumulating in the glands of the neck, promaterially decreased.

Admiral Shufeldt, of the United States Navy, tells how the Russians are filching territory from the Chinese on the boundary between Siberia and China. The means of communication are so poor in China and the avenues of news are so few that it is impossible for the Chinese to keep track of the goings on in their provinces. The Russians send a regiment of Cossacks, with their families, about ten or fifteen miles into China. The regiment will settle down, take up the land and cultivate it. They take up the boundary stones as they settle down, and put them at the edge of their settle ments, and the next year another regiment comes along, takes up the land below and moves the boundary These encroachments have been going on for years, and the Chinese cannot understand the perpetual skrinkage of their northern frontier.

The transition from long, linger. ing and painful sickness to robust health marks an epoch in the life of the individual. It is that impurity in the blood, which, acduces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes ulcers in the eyes, cars, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla.

"My daughter Mary was afflicted with scrofulous sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sere for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLILE, Nauright, N. J.
