THE DAILY REVIEW

VOL. XIV.

WILMINGTON, N. C. THURSDAY, MARCH 20, 1890.

NO 82.

Next Wednesday will be Memorial
Day in Atlanta and Senator Daniel
is to be orator of the day.

A full blooded African has been
appointed Minister for Hayti to the
Court of St. James. How Queen
Vick will Hayti receive him.

Howe's this? It is said that Julia
Ward Howe is the best Greek scholar
of her sex in this country. Really,
Jule, we thought you were an Amer-
ican.

There is danger that the African
elephant will soon become extinct,
the demand for them as playthings
for the children having increased
so greatly of late.

We have all heard of the old man
98 years of age who died of the ex-
cessive use of tobacco, a habit to
which he had been addicted ever
since he was a baby, and now there
comes to the front an old man in
Russia who died of hydrophobia,
caused by the bite of a dog 30 years
ago!

We are told that the English crimi-
nal authorities are seriously dis-
cussing the French system of iden-
tifying criminals by anthropometrical
measurements. The statement is
not exactly correct. The French
use the anthropometrical system,
although they don't spell it that
way.

On the menu of the Union League
Club, of New York, are five brands
of brandies, thirteen kinds of
whiskey, seven varieties of gin and
four assortments of rum. There are
forty seven different kinds of fancy
drinks, and 4,700 different kinds of
fancy drinkers.

Both houses of the Kentucky
Legislature have passed a bill call-
ing a State constitutional conven-
tion, to be held during the coming
summer, and an exchange says that
"the work of the convention will be
submitted to the voters of the State."
Well, really! How kind on the part
of the legislature!

It is said that "since the inaugura-
tion of a new system of postal wag-
ons for emptying the mail boxes in
Berlin, an ordinary city letter reach-
es its destination in an hour after
leaving the hands of the sender." An
extraordinary city letter, we pre-
sume, will consume a little more
time in the delivery.

Russia is to have two new frigates
constructed, it is said, of Russian
plates. This is open to question,
however, as it is said that the
Czarina can find a better use for her
crockery in shying it at the old
man's head when he persists in sit-
ting up late at night smoking a
Salem pipe and reading dime novels.

Here's a pretty howdy do! Harry
Furniss says that George Augustus
Sala once aspired to be an artist and
only abandoned the idea when he
discovered that a figure he had
painted had six toes, whereupon G.
A. S., who is full of his initials, has
sued H. F. for libel. Lots of Fur-
niss promised if George Augustus
doesn't Sala way before the trial
comes off.

The reports of Bismarck's resigna-
tion of the office of Chancellor of
the German Empire have been con-
firmed. In politics, as in business,
the rule is that no one man is essen-
tial to the preservation of the bal-
ance of power, but this may prove
an exceptional case. Where is the
man who can fill his shoes? It is not
often that such a wonderful intellect,
such remarkable mental vigor and
such a tenacious and persistent de-
termination are united in one and
the same man. He has been the
central figure in Continental politics
in Europe for years; with his
hand on the helm the death of two
Emperors of the vast German Em-
pire have been but deplorable inci-
dents; he has held the peace of Eu-
rope in the grasp of his own hand;
the world has been to him a chess
board, and kings and potentates
have been moved by him at pleasure.
What the result of his resignation
will be remains to be seen. Already
leading European journals hint of
war in the near future.

As a horse and cattle lotion, Sal-
vation Oil has proven itself an in-
fallible remedy; it has received the
hearty endorsements of many old
and well-known horsemen. Price
25 cents a bottle.

Henry Stanley, writes that "the
end crowns the work." We should
say that it took a good many crowns
to end the work. Lots of them had
Queen Vic's image stamped thereon
and nearly 3,000 human crowns were
sacrificed to secure the end.

The fight between Boss Quay and
Col. Canaday, for the latter's posi-
tion as 'Sergeant-at-Arms of the
United States Senate, is still on and
it is predicted now that Quay will
be beaten. Canaday is a right
tough man to tackle in a fight of
this kind.

Every tissue of the body, every
bone, muscle and organ, is made

use of Hood's Sarsaparilla.

disfigures the grass plat on Market
street.

Nor brig *Tarilla*, Knudsen, from
this port, arrived at Antwerp on the
16th inst.

Not one bale of cotton was ship-
ped foreign from this port in the
year 1880.

Mr. Bruce Williams, of Burgaw,
was in the city for a short time yester-
day afternoon.

Boys! we can sell you a Bracket

anteed to give satisfaction. Sold by
the N. Jacobi Hdw. Co.

The Carolina Yacht Club will meet
at the City Hall at half past 8 o'clock
this evening for the election of offi-
cers for the ensuing year and to
make some arrangements relative to
the new regatta season.

The organization of the new corn-
et band at Southport was com-
pleted last Tuesday by the election
of Mr. Samuel Drew as leader and
adopting the name of the Cape
Fear Cornet Band. They have regu-
larly weekly practice.

Commendable.
All claims not consistent with the
high character of Syrup of Figs are
purposely avoided by the California
Fig Syrup Company. It acts gently
on the kidneys, liver and bowels,
cleansing the system effectually, but
it is not a cure-all and makes no
pretensions that every bottle will
not substantiate.

Not a True Bill.

Mr. J. M. Woollard was arrested
again last night on the charge of
being implicated in the death of W.
T. Brown, in January last, but has
been discharged. It is the third
time that this has occurred. Mr.
Woollard was arrested on findings
from the grand jury. A bill was re-
turned by them marked "a true
bill," but this was this morning
found to be a mistake. It should
have been endorsed "not a true bill."
The error was a clerical one and the
grand jury sent for the bill to-day
and corrected it. This will of course
end Mr. Woollard's connection with
the case as an accessory.

Forecasts.

For North Carolina, warmer and
fair weather, followed by rain to-
night and warmer on Friday. For
Wilmington and vicinity, fair weather.

Little Lord Fauntleroy (Suit) Can be Seen
at J. Shrier's.

I. Shrier, who is always ahead in
introducing new novelties, will sell
this week the Lord Fauntleroy and
Alfonso (King of Spain) suit. Also
a full line of children's Kilt Suits at
the lowest price for cash only. I.
Shrier, corner Front and Princess
streets.

Masquerade Ball.

A grand masquerade ball was given
last night at Concordia Hall under
the auspices of the Harmony Circle,
of this city. It was purely a private
affair, and it was in every way
successful and enjoyable. The at-
tendance was large and the floor
was filled with dancers. At mid-
night the inevitable unmasking took
place and then an elegant supper
was served up by Mr. P. E. Kiley,
the caterer. Dancing was afterwards
resumed.

A Trip on the Rhine.

Heidelberg Castle in particular
and the Rhine in general have been
very interestingly described by
Mark Twain in his "Tramp Abroad."
Its old ruined castles, with their
wealth of legendary history, its
rocky hillsides with vine-covered
terraces, and its ancient cities
with their grand cathedrals, all com-
bine to make the Rhine a region of
special interest to visitors from all
parts of the world. Castles and leg-
ends, scenery and cathedrals, will
all be well brought out at the Opera
House next Monday night.

A Big Thing.

The Fayetteville correspondent of
the Lumberton *Robesonian* says:
The work on the Cape Fear and
Yadkin Valley road above Mt. Airy
is progressing finely. As soon as
the connection is made with the
Norfolk & Western road the traffic
will be immense. The Norfolk &
Western agrees to furnish this road
with three hundred car loads of coal
per day as freight. In anticipation
of this the shops here are a perfect
scene of activity, and cars are being
turned out which are equal to any
made in this country.

The Cause of Pain.

An ache or pain is not of itself a
disease, it is but a symptom, and
warns the sufferer that there is some
thing the matter with his physical
organization. Weak kidneys, bad
blood, and nervousness are frequent-
ly the source or cause of the many
mysterious aching sensations that
afflict the body. You can remove
the cause of such distress by using
B. B. B. (Botanic Blood Balm).
C. H. Robetts, Atlanta, Ga., writes:
"My kidneys were disordered and
gave me excruciating pain. A sin-
gle bottle of B. B. B. helped me won-
derfully."

Wm. N. Nelson, McDonough, Ga.,
writes: "B. B. B. has benefited my
daughter very much. She was af-
flicted with severe nervousness. I
think it the best family medicine."
W. R. Ellis, Brunswick, Ga., writes:
"I have tried B. B. B. and find it a
great thing for the blood. It also
cured me of rheumatic pains."

Walter Yates on Trial.

The trial of Walter Yates, for the
murder of W. T. Brown, in January
last, has taken up all of the time of
the Court to-day. A venire of one
hundred had been summoned and
from this a jury was obtained about
noon. This jury is constituted as
follows: S. H. Mintz, Amos Perry,
Geo. T. Ray, C. E. Williams, Frank
Myer, W. H. Bell, A. S. Heide, G.
E. Quinn, Nelson Jenkins, David W.
Matthews, W. H. Scarborough, W.
F. Alexander, Col. B. R. Moore,
the Solicitor, appears for the State
and Messrs. Marsden Bellamy, John
D. Bellamy, Jr., A. J. Marshall and
Allen B. Brown are for the defence.
Up to our close Col. Moore had ex-
amined seven witnesses, all he had
called. These are Walter Way, J. J.
Canaday, R. H. Moore, F. P. How-
land, E. L. Robinson, Dr. T. S. Bur-
bank and F. E. L. G. Brown, the
latter the dead man's brother. The
Solicitor rested his case here. The
testimony elicited was in the main
the same as that given in at the pre-
liminary hearing and at the coroner's
inquest.

Refreshing and invigorating
Delicious Soda Water as drawn from
Munda Brothers' magnificent new
soda fountain at a temperature of
34°. Purest Fruit Syrup, Milk Shakes
and Natural Mineral Water.

Obstructions in the Eye.

An exchange says: When you get
a cinder or speck of dust or other
offensive particle in your eye, don't
rub it. Don't touch it. Don't pull
down the lid. Don't put your hand
near it. Let it alone. This is very
hard advice to follow, and in nine
cases out of ten you will find your-
self rubbing your eye before you
know it. But if you can refrain
from touching your eye at all, the
action of that organ will itself cast
out the offending mote in much
quicker time and with far less irra-
tion, while your efforts would only
hinder it and perhaps fasten the in-
truder so that it will stay a long
time. Of course, if it is a particle of
metal you will consult a surgeon or
oculist at once, but ordinary sub-
stances are best treated as above
indicated. Some peoples say: "Rub
the other eye," but this is of no use.

The Egypt Coal Mines.

The city is to be supplied with
coal from the Egypt mines, in Chat-
ham county. This coal is bitumi-
nous and is already used to a con-
siderable extent here. The Egypt
Coal Company will build three large
sheds on the premises of the C. F.
& Y. V. R. R. at Point Peter, and
these will be connected with the
line of that road by side tracks. Mr.
Thos. F. Bagley is the agent here
for the company.

The extent and wealth of the Deep
River coal fields are not generally
understood. Dr. Emmons reported
on them in the year 1852 and again
in 1856. They are described by him
in detail. He says that the coal of
that district is of the best quality of
bituminous coal, is well adapted to
the manufacture of gas and iron and
is in such great quantities that it
may be considered as practically in-
exhaustible. He estimates the area
of the beds at over 40 square miles,
containing more than 6,000,000 tons
to the mile, in all the enormous
quantity of 240,000,000 tons.

There are also bituminous slates
connected with this coal of which
Prof. Emmons says: "From 30 to 40
gallons of crude kerosene oil exists
in every ton of these slates. They
are from 50 to 70 feet thick, and it is
proper to state that it is a better oil
than is furnished from coal." These
estimates were confirmed by Admi-
ral Wilkes in a report made by him
to the Secretary of the Navy in 1859.
He remarked at one time to the late
Hon. Hugh Waddell, of this city,
that "there is no section of country
in the world, of the same area as
Chatham and Moore counties, that
is as rich in mineral resources as
are they."

If your neighbor is selfish, hard,
grasping, and suffering from a cold,
don't waste words on him, but heap
coals of fire on his head, by sending
him a bottle of Dr. Bull's Cough
Syrup.
