as second-class matter.

Snowflakes the size of the human hand fell over a small area in Carson City, Nev., during the recent cold spell. They didn't, however, come from the heavens, but from a

factory's steam pipe, whence they emerged in the shape of steam, being converted into snow by contact with the cold air.

Mr. Gladstone is 80 years old, but his mind and body are in as fine a condition as when he was only threescore. His voice is still clear and ringing, and he is never thrown off his guard. He is tall, slim and bony has been all his life fond of healthy, out-of-door exercises, and to this he attributes his vigorous old age.

A letter from Port Spain, Trini dad, speaks of the recently discovered curative qualities of a plant locally known as cousin mahoe, whose botanic name is the triumfetta semitriloba. In cases of dyspepsia, indigestion and liver complaints the therapeutic effects of this plant have been something wonderful. The doctors on the island prescribe it largely, knowing its valuable prcperties.

A French savant calculated the time required for a journey around the earth, and has obtained the following results: A man, walking day and night, without resting, would take 428 days, an express train, 40 days; sound at a medium tempera ture 32½ hours; a cannon ball, 21¾ hours; light, a little over one-tenth 29 and 30. of a second; and electricity, passing over a copper wire, a little under one-tenth of a second.

Mutilated bank notes to the value of half a million dollars are frequently destroyed in one day at the Treasury Department in Washington. They are thrown into a large hopper and ground to a pulp, which is afterward sold by contract to a paper manufacturer, so that the dainty sheet of paper on which a lady writes her invitations may represent what was formerly a hundred thousand dollars.

The personal respect that Lord Beaconsfield and Mr. Gladstone had for each other is not generally un derstood. A friend of Mr. Gladstone says that on one occasion he was abusing Lord Beaconsfield and that Mr. Gladstone warmly resented the attack, defending Lord Beaconsfield, pointing out his many good qualities and expressing great admiration for his pluck. Lady Beaconsfield once told Mr. Gladstone that she admired him next to her husband, and that it was really terrible to see two such great men calling each other names.

Hon. Daniel E. Grffin, chairman of the New York Democratic Committee, regards the municipal elections in that State as but an evidence of the general feeling throughout the country. "The tendency," says Mr. Griffin, "towards most reckless extravagance shown by the present Congress, dissatisfaction with the present National Administration and the State Legislature are the prime causes for the remarkable growth of the Democratic sentiment of this State, of which these elections are a slight evidence. I have kept a pretty close watch upon the politics of New York for years, and I believe that if there was a general State election next tall we would carry the State by 50,000 majority." Mr. Griffin says byterian Church. It is thoroughly orthodox it looks to him as if the campaign of 1892 will be fought largely upon the lines of 1888, but as to who will In popularity the PRESBYTERIAN is con-stantly advancing. It is

A Millionaire in a Minute.

Instances are on record where toilers in gold mines and diamond fields, who, by one turn of a spade, a single movement of the hand, have been transformed from penniless laborers to millionaires. But they were not so lucky as is the consumptive who finds a means of restoration to health, who learns that the dread disease from which he suffers is not incurable. Dr. Pierce's Golden Medical Discovery will cure consumption (which is lung scrofula), and nothing else will. For all diseases of the blood, such as blotches, pimples, eruptions, scrofulous sores and swellings, it is unequaled. It is quaranteed to cure in all cases of diseases for which it is recommended, or money paid for it will be promptly refunded.
