MANAGER'S OFFICE, Wilmington, N. C., March 25, 1890.

**NOTICE!**

THE OPERATION OF THE RULES OF THE North Carolina Car Service Association is suspended until further notice.

WASHINGTON BRYAN, Manager.

The joiners of Vienna are talking of going on a strike but they haven't yet said "joiners" to any of the other trades.

Dr. Hanau, of Zurich, has successfully propagated cancer in rats by inoculation. And that's what's the matter with Hanau.

Ordinarily there is the difference of but one little letter between a corpse and a corpse and sometimes there is not that much.

Gold has been discovered in a gravel bank near Sioux Falls, S. D. But that is nothing. There is gold in every bank in the country.

They are trying to build a big Washington Memorial arch in New York and by time the money is all in people will begin to inquire as to who George Washington was.

The Russian physician, Dr. Bapchinski, announces that he has discovered a cure for diphtheria. He says the disease is easily cured by inoculation of erysipelas. You pays your money and you takes your choice.

Some unknown person has been sending one-thousand-pound notes in anonymous letters to various charities in England, and to relieve all suspicion we state most emphatically that it wasn't done by any one in this office.

A city contemporary advises its readers here to "have their trunks whitewashed." What in the world does this mean? We have scratched out nearly all of the remaining hairs on our head trying to imagine why in the world people should whitewash their trunks!

It is proposed that plates and dishes used on board ship be fitted with iron bottoms, so that by means of electro-magnets placed beneath the table they may be kept in place during the rolling of the vessel. Next thing you know they will be wanting to try the same thing on the passengers so that they can keep their seats at the table.

The case of Boyle, the ex-priest, who is charged with a terrible outrage on the person of Miss Geneva Whitaker, a young, pure and virtuous girl, will probably be given to the jury to night. He was tried a year ago and found guilty but the case was carried to the Supreme Court on what some people term a technicality, but which was in reality a trivialty. A new trial was ordered.

The prediction comes from the Signal office that New Orleans and all of the low-lying lands in Louisiana and Mississippi are in danger of a complete overflow from the immense volume of water now accumulating in the upper Mississippi and its large tributary streams. It may be three weeks before the danger becomes imminent and in the meantime the people are warned to seek safety for themselves and their possessions in flight to higher grounds.

The disaster at Louisville was somewhat magnified at first, so far as the loss of life is concerned, but still the figures remain at an appalling height. It was only last night that communication was reestablished and some definite information could be obtained. Although the disaster occurred on Thursday evening yesterday's New York papers had not learned anything of it, which shows the complete isolation of the city by the breaking of the wires. The cyclone spread over a territory a quarter of a mile wide and three miles in length. Some of the finest and most substantial buildings in the city were leveled. The loss of life is up in the hundreds but the statements on this point were very conflicting. Not only Louisville but surrounding towns were also afflicted and the loss of life and property in Jeffersonville, Bowling Green and Metropolis is very great.

Pains in the back are frequently caused by a sudden wrenching of the spine. A few applications of Salvation Oil will give permanent relief. Price twenty-five cents. For sale by all druggists.

Delicious Soda Water as drawn from Munda Brothers' magnificent new soda fountain at a temperature of 34°. Purest Fruit Syrup, Milk Shakes and Natural Mineral Water.

## NEW ADVERTISEMENTS.

FOR SALE. Mattresses and Springs. Renovating done to order promptly. W. M. CUMMING.

Forecasts. For North Carolina, colder and fair to day and warmer and fair on Sunday. For Wilmington and vicinity, fair weather.

Palm Sunday. To-morrow is known in the Church Calendar as Palm Sunday. It is observed in commemoration of Christ's triumphant entry into Jerusalem when the multitude cut palm branches, and strewed them in His way, crying: "Hosanna to the Son of David; Blessed is he that cometh in the name of the Lord; Hosanna in the highest." It is the last Sunday in Lent.

American History. The April Magazine of American History is notable for the timeliness of its topics and the clever style in which they are treated. The opening paper by the editor conducts the reader into a fresh and untrodden field, and no one who glances over the first page will be inclined to lay the periodical aside without making a complete tour of South America. "The Romance of the Map of the United States" reveals in a pleasant fashion much that is new and curiously entertaining. "Laval, the First Bishop of Quebec," and "Diplomatic Services of George William Erving," by Hon. J. L. M. Curry, ex-Minister to Spain, are scholarly productions of the first importance and interest. "Washington at the Columbus Exposition," "An Account of Pennsylvania, 1765," "Anecdote of Lord Chief Justice Holt," and "Westward to the South Seas," are varied, instructive and delightfully readable. This great historical monthly, the only one of its kind in the country, and the best in the world, grows more and more popular every year, exerting an educational and healthful influence in every branch of literature and study. The six departments, of which no mention is here made for want of space, are worth in themselves the entire subscription price, \$5 a year. Published at 743 Broadway.

Kind Words of Cheer.

When a proprietor knows he has a grand and good remedy for the many ills that flesh and blood are heir to, it pleases him exceedingly to receive such evidences of appreciation as follows:

W. F. Miles, Milesville, N. C., writes: "I have used Botanic Blood Balm and find it to be all that it is recommended to be."

D. C. Blanton, Thomasville, Ga., writes: "I have used Botanic Blood Balm in my family as a tonic and blood purifier with highest satisfactory results."

F. O. Hoffman, editor Times, Rocky Mount, Va., writes: "I am pleased to say that Botanic Blood Balm is the best appetizer and tonic for delicate people I ever saw. It acted like a charm in my case."

F. H. Hickey, 1208 Main street, Lynchburg, Va., writes: "I was broke out all over with sores, and my hair was falling out. After using a few bottles of Botanic Blood Balm my hair quit falling out and all the sores got well."

Julia E. Johnson, Stafford's P. O., S. C., writes: "I had suffered 13 years with eczema and was at times confined to my bed. The itching was terrible. My son-in-law got me one half dozen bottles of Botanic Blood Balm, which entirely cured me, and I ask you to publish this for the benefit of others suffering in like manner."

August A. Klages, 810 St. Charles street, Baltimore, Md., writes: "From my youth I suffered from a poisonous taint in my blood. My face and body was continually affected with eruptions and sores. I am now 42 years of age and had been treated both in Germany and America, but no remedy overcame the trouble until I used Botanic Blood Balm. I have used about twenty bottles, and now my skin is clear, smooth and healthy, and I consider the poison permanently driven from my blood. I endorse it as the best blood remedy."
