TIME TABLE NO. 3

Religious Family Paper, PUBLISHED WEEKLY,

and devoted to the intellectual, moral and spiritual interests of the people.

It numbers among its correspondents many half of which will be needed at of the very best writers of the Southern Presbyterian Church. It is thoroughly orthodox home, and a part of the remainder on questions of doctrine, but free and outpoken in its views on all open questions. It allows and invites free discussion within the bounds of courtesy. In popularity the PRESEVERIAN is con-stantly advancing. It is

The Paper for the People,

and presents in its columns matter to interest And yet you are not sick enough to Sold by all druggists. \$1; six for \$5. Prepared only

cent., or 970,000,000 bushels; of the wheat crop 31 per cent., or 156,000,-000 -bushels. The stock of corn on hand is the largest ever reported in March, of the largest crop, after the miklest winter. The average of eight annual returns is 677,000,000 bushels: that of last year, 787,000,000 bushels. The estimated consumption to

March 1 is 1,143,000,000 bushels, a figure exceeded only last year and in 1886. The proportion of the merchantable corn of the crop of 1889 is 85.7 per cent., exceeded in recent years only by those of 1884 and 1886. The average value of all corn on December 1 was 28.3 cents per bushel. The average on March 1 was 27.9 cents for merchantable and 19.2 for unmerchantable, making an aggregate value of \$35,000.000 less than the December estimate. The wheat crop of 1889 was exceeded by the crops of 1880, 1882 and 1884. The average remainder in the hands of owners March 1, for 10 days past, Palmetto Railroad Co. has been 130,000,000 bushels. The average crop, during this period, 450,000,000 bushels. Only in years having a product much below this average has the March remainder fallen below 130,000,000 bushels, with

the sole exception of 1886, when a crop of 457,000,000 bushels followed one of 357,000,000. Most of the wheat have no surplus over consumption, or in those in which much the larger portion is consumed at home. The six spring wheatStates have only 45,000, 000 bushels 18,000,000 bushels of which will be required for spring seed, and the remainder is scarcely more than four months' consumption of their population. Ohio, Michigan, Indiana, Illinois, Missouri and Kansas, the only winter wheat States east of the Rocky Mountains contributing to commercial distribution, have only 60,000,000 bushels, is commercially unavailable at present prices. It is seen, therefore, that the available supply for exportation and for home consumption to

Consumption Surely Cured.

TO THE EDITOR-Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hope less cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consump tion if they will send me their ex press and post office address. Respectfully. T. A. SLOCUM, M.C., 181 Pearl st., New York.

----Have You a Cough?

Attend to it in time-do not neglect it-for it may become serious and end in Consumption. Young's Cough Balsam will cure all Diseases of the Throat and Lungs. For sale by Munds Brothers.

> WHAT IS CROFUL

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can It Be

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofulous sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLILE, Nauright, N. J. N. B.
