The improved method of fastening strings of Planos, invented by us, is one of the most important improvements ever made, making the instrument more richly musical in tone, more durable, and less liable to get out of tune. Both the Mason & Hamlin Organs and "lanos excel chiefly in that which is the chief excellence in any musical instrument, quality of tone. Other things, though important, are

much less so than this. An instrument with unmusical tones cannot be good. Illustrated catalogues of new styles, introduced this season, sent free. MASON & HAMLIN

Organ and Piano Co.

cigarettes. The cigarettes were of the patent knee-stretching pants finest Turkish leaf, perfumed, and the makes every gustomer of ours lo outer wrapping of each one was of pale like a literary man. See? You w rose colored satin. They were altogether too pretty to smoke. 'But did they smoke them?' I was not there, you remember; but don't half the women in New York smoke a cigarette once in a while, and do you suppose they could resist the particular temptation of these dear little rose colored things? I don't."

-New York Evening Sun.

Pie Timber Is Scarce.

Every lover of pie-and almost every person, either secretly or openly, does love pie-will be interested in the fateful fact that "pie timber," under which generic term is comprehended dried apples, peaches, plums, squash, pumpkins, etc., is scarce. Evaporated apples have gone up 25 or 30 per cent. since the beginning of the year. Canned apples, pie peaches, and the product of the golden skinned pumpkin and the sober squash are all higher, and have an upward tendency. The raw material for an important and adult American industry may not be in the bony clutch of famine, but it is in a condition which every thoughtful lover of pie must regard with serious concern.

-New York Commercial Bulletin.

Changing the Oxus' Course. According to private information from Merv the construction of the large dam changing the course of the Oxus, known under the ancient name of Sultan Bend, is being pushed forward with great energy. Among the people there great excitement prevails, as there seems to be no doubt that large tracts of country will be ruined as soon as the waters of the Amoo Daria are diverted to the large territories which have now for three years belonged to the czar himself. The water of the river will not be sufficient for the territories now cultivated by the natives and for the large imperial estates. -- Cor. London News.

Given by Eight Hundred Cabbies. Nobody can accuse the Glasgow "cabbies" of ingratitude. Mr. John Burns has worked indefatigably for thirty years to tion can make special price on same. promote their welfare, and 800 of them have joined forces to present him with an illuminated address inclosed in a silver gilt casket. The movement was quite spontaneous on the part of the donors, and the chairman of the Cunard company was not let into the secret till the last moment.-London World.
