THE DAILY REVIEW.

VOL. XIV.

WILMINGTON, N. C. FRIDAY, MAY 9, 1890.

NO 124.

Harvard intends to erect a mon-
ster club house for the use of all
clubs connected with that univer-
sity. It will cost about \$75,000.

Winter lingers around Benning-
ton, Vt., where, up to a day or two
ago, a small pond was covered with
ice twelve to fourteen inches thick.

The town of Roswell, Lincoln
county, N. M., is two hundred and
sixteen miles from any railroad. No
other place in the United States can
say as much.

A novel way of raising money to
build a church has been adopted by
a congregation in an Iowa town.
They borrowed \$120,000 and gave
life insurance on a number of the
members, which is to be applied on
the debt as fast as death ensues.

A steel company in Illinois, em-
ploying 2,000 men, has decided upon
the novel plan of placing a premium
on the constancy of the employee's
service. It offers to men who stay
one year 1 per cent of their wages in
addition, two years 2 per cent., and
so on up to five years, when 5 per
cent. will be added to their pay.

The most important real estate
deal last week in Chicago was the
transfer by E. W. Willard of his sev-
enty acres south of Jackson Park
and the Hyde Park water works to
the Turner estate, of St. Louis. The
price paid was \$350,000. The land
was purchased away back in the
'40's by Mr. Willard at \$2.50 an acre.

The Emperor of China recently
made a visit to a great personage,
with a retinue of 10,000 persons. The
great personage will have to do a
great deal of oppressing in order to
raise the money to pay the expenses
of this visit. That is always the
way in an effete monarchy. No
matter what is done or undone, the
people pay the cost.

A bookseller who observes the
reading habits of young women says
that the young women of New York
seldom read back farther than a
year. They keep up famously with
the new works of note in the lighter
fields of literature, but that no one
of them is found reading the older
English writers, with the single ex-
ception of George Elliot.

Next to the Binghamton and Chat-
tanooga districts, Southwestern
Virginia has been and is now the
favored spot in the commercial
South. During Governor Lee's Ad-
ministration it is estimated that
\$100,000,000 have been invested in
various enterprises within the State
and yet the surface of Virginia's vast
mineral deposits has hardly been
scratched.

There are, perhaps, thirty cater-
ers within a mile of Union square,
New York city, who make a busi-
ness of supplying private dining
tables. For the regular customers
a gas oven is provided and left in
the family kitchen. This meal goes
to the house in a caterer's basket,
and is popped out of the basket into
the oven. Therefore there is no
danger of cold dinners.

The Congressional committee ap-
pointed to investigate the immigra-
tion business reported the discovery
of a single square mile of territory
in New York city where 270,000 peo-
ple live, which is 8,000 more human
beings than can be found dwelling
in any other square mile on the
earth's surface. These people are
said to be all Italians, speaking only
their own language and observing
foreign customs.

The oddest proposition made for
a long time is that of a man at Big
Sandy Run Gap, in the wildest part
of Kentucky. A railroad is build-
ing in that country and one Peter
Kidd offers \$500 cash for the priv-
ilege of covering the first engine and
cars that get into that place with a
canyass for twenty-four hours and
of charging twenty-five cents admis-
sion to the mountaineers and their
families for entering the tent.

A bill to abolish suits for breach
of promise of marriage has actually
been introduced in Parliament. Such
action at law have become so fre-
quent that Sir Roger Lothbridge
has drafted a bill to put a stop to
them, which is in this form: "1,
From and after the passing of
this Act no person whatever
shall be entitled to maintain an
action in respect of the breach of

promise to marry. Provided al-
ways that this Act shall not apply
to any action commenced before the
passing of this Act.

ry now is for some summery weather.

proved makes are sold by the N. Ja-

Blackberries seem to be ripening
pretty fast in the woods around the
city but very few have as yet been
seen in market.

Keep dry and you will keep
healthy. Umbrellas, rubber coats,

A row of trees—one row—on
Third street, North of Marke', would

There is a depression in the grade
on Market street, almost opposite
this office, which should be reme-
died, to prevent water standing in
the gutter.

on the noon train to-day from the
87th Convention of the N. C. Luth-
eran Synod, and will hold services
as usual next Sunday, preaching in
German in the morning and in Eng-
lish at night, in Luther Memorial
Building.

We have it now. A Pump that is

tub of water to start it. It is the
bright invention of a North Caro-
lina genius and is pronounced by all
to be the best pump on the market.
See it and you will have no other.

We learn from the Fayetteville
Observer that of the total amount
of naval stores received at Wilming-
ton on Friday, 2nd inst., overall the
railroad and river lines of transpor-
tation, the Cape Fear and Yadkin
Valley Railway carried in 26 per
cent. of the spirits turpentine, 47 per
cent. of the rosin and 20 per cent. of
the tar.

Steamship *Delaware* cleared and
sailed this morning for New York
with a good cargo of freight and the
following passengers: Miss Grace
Johnson, J. B. Hanks, A. R. Camp-
bell, Mr. Eddy and John Turner. She
is to run regularly this Summer be-
tween this city and New York, re-
quiring only about two days for the
passage between the two ports.

We Still Hope.
Our suggestion as to the delivery
of the Memorial Address in the
Opera House has met with general
favor. It is rather late, it is true,
but we hope that it may be taken
earnestly into consideration. There
will be a great deal of difference be-
tween sitting in the Opera House, in
a comfortable chair and standing in
the sun, in the open air, at the
Cemetery and there will be just that
much difference in the enjoyment of
the audience.

Tried to Shuffle Off.
A love-lorn colored damsel, living
in the lower part of the city, while
under the influence of the green-
eyed monster attempted last night
to shuffle off this mortal coil by
swallowing a vial of laudanum. A
doctor and a stomach-pump reliev-
ed her of the nauseous dose and she
is now out of danger. We have sup-
pressed the name at the request of
the young man for love of whom
the desperate deed was undertaken.

Badly Scalded.
We regret to learn that the young-
est child of our friend, Maj. Duffy,
of the *Star*, was severely scalded
this morning by the overturning of
a pot of hot coffee. The hands and
chest were burned although the in-
juries to the latter were much light-
er than to the former. The coffee
pot was on the hearth at the time of
the accident, and the child, who is
about eight months old, crept up
and capsized it at a moment when
the attention of the mother was
called to some other matter.

The Florence Extension.
The Fayetteville Observer says:
The engineer corps of the Atlantic
Coast Line R. R. Company, Mr.
Latta in command, arrived here on
Monday evening last, and it is their
design to commence work immedi-
ately on the Southern extension of
the Wilson & Fayetteville branch
of the great Coast Line system.
Their objective point will be Row-
land, with a total distance of about
forty miles to complete the South-
ern through connections; and, after
some finishing up of the location of
the line, we may expect grading and
construction to commence in earn-
est.

Do You Know How It Feels?
Rheumatism. Every one has heard
the word "How's your Mother?"
"Oh, she's well except her rheuma-
tism." How carelessly the answer
is given. Do you know how it feels
to have rheumatism? Oh! it's terri-
ble, the swelling and the excruciat-
ing pain of ankle, knee, elbow and
shoulder, just as if each point was a
bundle of irritated nerves, each one
seemingly bent on giving more pain
than the other. Laying awake all
night longing for daylight, aching
too severely to sleep, applying lin-
iment every half hour to temporari-
ly relieve the agony. Praying, curs-
ing, turning, twisting, but no ease,
no comfort. What is it that causes
rheumatism? Ah, there are a thous-
and causes. What is it that cures
rheumatism? Thank God, there is
at least one cure. It is called B. B.
B., or Botanic Blood Balm. It has
cured more cases of rheumatism
than any other known remedy. Try
it. Do not suffer longer.

J. H. Laing, Dawson, Ga., writes:
"I suffered with rheumatism in my
shoulders and general debility. Five
bottles B. B. B. improved my health
and the rheumatism left me."
J. P. Davis, Atlanta, Ga., (West
End), writes: "I consider that B.
B. B. has permanently cured me of
rheumatism and sciatica."
Jacob P. Spencer, Newman, Ga.,
writes: "B. B. B. entirely cured me
of rheumatism in my shoulders. I
used six bottles."

Butler to Hang.
Avery Butler, the boy that shot
and killed his father near Clinton a
few weeks ago, has been sentenced
to be hanged on July 11th. Upon
the recommendation of the jury that
the sentence shall be commuted to
20 years in the penitentiary, the
Judge and Solicitor will ask the
Governor for clemency, as the boy
was convicted only on circumstan-
tial evidence. He is 16 years of age,
but looks not older than 10 years. It
is said that the jury, before leaving
the box, stood 10 for conviction and
3 for acquittal. It is also rumored
that his mother urged him to com-
mit the murder, she being tired of
her husband, who was in the habit
of spending his idle hours in the
company of other women. The boy
intended to make a clean breast of
the whole affair while on the stand,
but the Judge overruled it.

Now For It.
The hotel at Carolina Beach will
probably open about the 20th inst.
A great many rooms have already
been engaged. The *Passport* will
be ready to go on the life again in
about a week, after her rejuvenation,
and then the two boats will make
four trips a day to the Beach and
probably two to Southport. It prom-
ises to be a lively season at Carolina
Beach this summer.

Water for Babies.
A physician writes urgently on
behalf of the infants. He says: "Per-
mit me to call the attention of mo-
thers who have children unable to
talk, to the necessity of giving them a
little cold water frequently in hot
weather. They suffer from thirst
equally with us, but they are help-
less and dumb. They can only cry
and moan. The mother wonders
what can ail them, searches for pins,
offers them food, and exhausts her
patience in hunting for the cause.
The torments of thirst which they
suffer brings on a fever and often
serious illness, which sixty drops of
cold water would prevent. Every
person who understands this should
urge upon mothers the necessity of
frequently giving them a teaspoon-
ful of cold water."
