

# THE DAILY REVIEW.

VOL. XIV

WILMINGTON, N. C., TUESDAY, MAY 27, 1890.

NO 139.

It is King Ice now. He rules the coast and strange to say his reign is more severe up North than it is in the South. There is already some talk of an ice famine this Summer. The failure of the Hudson River crop has seriously affected the situation. In the whole country the crop is short about six million tons and two-thirds of this shortness is in the New York section. There was about the usual crop harvested in Maine but it was all sold months ago and is now being held at fancy prices. Most of this, however, comes to the torrid South and New York will get but little of it. Last year ice was sold in the big city to the heavy trade at 40 cents a hundred and to families at 50 cents. This year it is 70 cents to dealers and \$1 to families. It wholesales at \$10 to \$12 a ton and there is every indication that these prices will be advanced next month. In 1870 ice was \$16 a ton and it may reach these figures this season.

But it is not in the consumption of ice alone that the scarcity is felt. Fresh meats have already been advanced by dealers and—woe is me!—there is some very serious talk of putting up the price of beer to 10 cents a glass. Possibly this may not be done but if it isn't there will be more froth in a glass than was ever known before, even by the oldest inhabitant. And yet it seems to us that the remedy is within reach. Men need no longer depend upon fickle nature for a supply of the crystal consolator. Art is at hand to supply all deficiencies. An ice factory can be run up and put in operation in from 30 to 60 days. And it will be done. By the first of July, long before the dog days, there will probably be a hundred new factories in various parts of the country, each turning out an average of a hundred tons a day. No greater incentive to such enterprises can be furnished—than is now found in the present condition of affairs.

A wonderful place is that magnificent city of New York—wonderful in her ways and in every view one may take of her. Just how wonderful is very forcibly told in the following, from the New York Herald:

There is nothing in the world so fascinating, ponderous, eloquent, dry and altogether delightful as a table of statistics.

Let us give you a few figures which stir the imagination, excite the general pride and make our admiration for this great metropolis—New York—blaze like a cannon coal fire. We have about 1,700,000 inhabitants, including the sachems of Tammany, the quarrelling county Democrats and a small minority of Republicans, all grumbling in chorus about our dirty streets.

We owe a little matter of \$144,301,215.42. We can pay the forty-two cents whenever called for, but the rest we will probably leave to our children with our blessing. It is a great advantage to have posterity to look to. We shall not have much else to leave it, so take a peculiar pleasure in according it the gracious privilege of paying our debts. By the time they begin to express their gratitude in a few appropriate remarks we shall be where the woodbine twineeth.

The interest on this sum, paid upon an annual growl, is pretty nearly \$7,000,000. The total amount which has to be raised by taxation, and which is expended in keeping the municipality abreast with the Christian civilization of the country, is about \$24,000,000. This sum is handled by gentlemen who obtain their positions by political influence, but who would scorn—or words to that effect—to use a single penny for party purposes or drop it unseen or unaccounted for into the wrong pocket. Our taxable wealth trends on the heels of \$2,000,000,000, which shows that some of our citizens carry financial umbrellas for a rainy day. The Communist smacks his lips over these figures and thinks it about time to wax a general divvy, but the day has not yet been fixed.

The city has clear title to a good bit of property, owns parks, piers, public buildings, which if we were hard up could be sold for more than \$300,000,000 under the hammer, and at private sale for a round hundred millions more.

We are therefore perfectly solvent as a municipality, and can afford to indulge in all of the comforts and some of the luxuries of life. These figures show that New York is in the centre of creation, and that all other cities, however boastful of their excellence, are merely suburbs.

Farmers, we can supply you with Peanut Sweeps and Diggers, Scraper and Coulters Points. Seven different size wings and two size points for the "Boy Clipper," the most improved plow on the market. N. Jacobi Hdw. Co., factory agents.

## LOCAL NEWS.

INDEX TO NEW ADVERTISEMENTS  
SNEED & Co.—Furniture  
C. W. YATES—Crockets Sets, etc  
CLYDE'S S. S. Co.—Change of Schedule  
BRUNHILD, SIMON & Co.—Special Notice

Warren's Ice Cream Parlor open till 10 p. m.

Rubber Hose, Lawn Mowers and Rakes of the latest and most improved makes are sold by the N. Jacobi Hdw. Co.

Keep dry and you will keep healthy. Umbrellas, rubber coats, &c., at I. Shrier's, S. E. corner Front and Princess streets.

The Sunday School of St. Thomas' Catholic Church went down to Wrightsville Beach to day on an excursion and notwithstanding the disagreeable weather there was a large party.

Capt. E. J. Pennypacker, lessee of the Opera House, has purchased four hundred red plush chairs which will replace those now in the parquette, as also the benches in the rear. The chairs cost \$2,000 for the lot.

The box sheet for the entertainment of "The Merry Company," at the Opera House to-morrow night, is now open at Mr. Yates', and the seats are being rapidly taken. Those who have not yet secured seats should see to it at once.

We have it now. A Pump that is always primed, never requiring a tub of water to start it. It is the bright invention of a North Carolina genius and is pronounced by all to be the best pump on the market. See it and you will have no other. N. Jacobi Hdw. Co.

A Good Idea.  
The city authorities will grant each policeman a week's holiday this Summer. They can go wherever they please during that time and their pay will still go on. It is a good idea, and a generous one. The plan went into effect yesterday and policemen Robert Moore and George Gafford are off duty this week.

Tourists.  
Whether on pleasure bent or business, should take on every trip a bottle of Syrup of Figs, as it acts most pleasantly and effectually on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 50c and \$1.00 bottles by all leading druggists.

Heavy Rain Showers.  
This city and section have been visited with another heavy rain. It began to fall at 3:45 o'clock this morning and from that hour until 3 o'clock this afternoon the rainfall was 1.16 inches. The storm seemed to be central about Charlotte yesterday for there was three inches of rainfall there for the 24 hours ending at 6 o'clock last evening. There has been too much water for the young crops.

Only a Small Row.  
There was a small sized row at the County House of Correction this morning. One of the prisoners became obstreperous and declared he was going to town. Superintendent King ordered him to his cell but he refused to go and was aided and abetted by two others. A messenger was dispatched to the city for aid and a squad of police and a deputy sheriff were sent out and captured all three and confined them in the cells in the stockade, heavily shackled.

The Diocese of East Carolina.  
The Newbern Journal learns from a private source that the recent council of the Diocese of East Carolina at Greenville inaugurated some decided plans of activity. It was determined to employ a general missionary for the Diocese, the Bishop to select the proper person. Resolutions favoring the establishment of a college in the Diocese were passed, and a committee to solicit funds for that purpose was appointed. Mr. J. B. Bonner, of Aurora, promptly subscribed \$1,000 to the fund.

The office of Chancellor was created and Mr. Henry R. Bryan, of Newbern, was elected to that important position.

For bracing up the nerves, purifying the blood and curing sick headache and dyspepsia, there is nothing equal to Hood's Sarsaparilla.

## All About Ice.

What does it cost to make a ton of ice? is a question which has been propounded to us fifty times (more or less) to-day. Why we should have so suddenly become an authority in the matter of ice is difficult to understand. But unquestionably much interest has been manifested in the statement made by us yesterday to the effect that a gentleman in this city had gone North, with plenty of money in his pocket, to purchase an ice plant.

But as to the cost of the manufacture of a ton of ice: We don't know anything about it but suppose that it will depend upon a hundred contingencies and as to whether only one ton, or many tons, is to be made. We have heard that ice is sold sometimes as low as \$3 a ton for natural ice and \$4 a ton for the manufactured article and therefore the cost, if a large quantity is made, must come somewhere within these figures.

## Democratic Primaries.

The Democratic voters of New Hanover county are hereby requested to assemble at the places herein-after named, on Wednesday, June 4th, 1890, to select delegates to a County Convention to be held on Saturday, June 7th, 1890, at 12 o'clock p. m., in the Court House in Wilmington, N. C., and choose members of the Executive Committee to serve for the next ensuing two years.

The voters of First Ward will assemble at Brooklyn Hall at 8 o'clock p. m.  
The voters of Second Ward at County Court Room, at 8 o'clock p. m.  
The voters of Third Ward at City Hall (up stairs) at 8 o'clock p. m.  
The voters of Fourth Ward at City Court Room, at 8 o'clock p. m.  
The voters of Fifth Ward at Fifth Ward Bucket Company's Hall, at 8 o'clock p. m.  
The voters of Cape Fear township, at M. G. Chadwick's store, at 12 o'clock m.  
The voters of Harnett township, at Macomber's old store, at 12 o'clock m.  
The voters of Masonboro township, at School House, at 12 o'clock m.  
The voters of Federal Point township, at Biddle's store, at 12 o'clock m.  
By order of Executive Committee, J. D. BELLAMY, JR., Ch'm.

## E'nal Berith.

This organization, which sprung into existence more than half a century ago, dates its origin from the fact of the rejection of an Israelite by a literary society in New York on purely sectarian grounds. From that time it has been established in every State in this country and has extended its benign influences across the Atlantic, and bodies of the rite have been established in Palestine, Egypt, France and Germany. The great aim of the order is to educate the Jewish mind, elevate the Jewish character, and to battle against the persecution and oppression of the Jewish race. Its charitable purposes are shown in the endowment law, the erection of structures for the orphan and the aged and infirm, and the formation of literary associations for mental and moral culture.

The highest body of the order will meet in Richmond on the 1st prox., and an address of welcome to the delegates will be pronounced by the Governor of Virginia, at the State House, on the 2d of June. Matters of great importance will be discussed by the members, and as the meetings are held only quinquennially, the business to be transacted will occupy one week.

Mr. J. I. Macks will attend as the delegate from the lodge in this city.

## Weakness.

How many suffer from weakness! And what a distressful ailment it is. Always praying for strength and yet feeling oneself growing weaker and weaker. There is great virtue in B. B. (Botanic Blood Balm) as a strengthening as well as a healing medicine. Try it as a tonic and see how much better you will feel. It will improve both appetite and digestion. It is an excellent remedy to use while convalescing. It aids a natural and rapid recovery. In cases where an invalid has remained long in bed and bed sores or other ulcers break out, this remedy will afford quick relief.

W. M. Cheshire, Atlanta, Ga., writes: "I had a long spell of typhoid fever, which at last seemed to settle in my right leg, which swelled up enormously. An ulcer also appeared which discharged a cupful of matter a day. I then gave B. B. a trial and it cured me."

## Refreshing and Invigorating

Delicious Soda Water as drawn from Munds Brothers' magnificent new soda fountain at a temperature of 34°. Purest Fruit Syrup, Milk Shakes and Natural Mineral Water.

## Tileston Commencement.

The graduating exercises of the Tileston Normal School will take place at the Tileston Upper Room on the Friday evening of next week, June 6th, at 8 a. m. An excellent programme has been prepared, at the close of which the diplomas will be presented to the class. There are eight in this class this year, all but one of whom are girls, there being but one boy in the class to hold up his end.

## For Richmond.

There will probably be [no] organized body of Confederate veterans leaving here to attend the unveiling of the Lee statue in Richmond. Thus far the number necessary to secure the cheap rates has not been secured. It is likely, however, that quite a large number of citizens will go. The Wilmington Light Infantry will leave here to-morrow night and quite a respectable number of the Veteran Corps will accompany them.

## Belford's for June.

The complete novel in this number is "The Woman's Version," a touching story of a Virginia girl, reduced to penury through orphanage, who lives only for her little brothers and knows the world only through books. There are several well drawn characters in this story. Judge Fenner, of Louisiana, writes of "The Race Problem; the Negro Should Solve It," a paper that opens well and contains an accurate statement of the race question. Anthony Comstock makes an earnest plea for "The Extirpation of the Crime-Breeders of the Day." Rossiter Johnson contributes the best paper on Browning that has appeared since the poet's death. Colonel Preston Johnson, of Ex-President Davis' staff, gives some pleasant reminiscences of General Lee. A less celebrated man, yet a fine soldier and a splendid poker player Robert C. Schenck, is the subject of a tribute from Donn Piatt. John F. Hume, in "How to See Europe," gives expectant tourists some valuable counsel. A lot of competitive papers on "The Ideal American Newspaper" will be found interesting. The editorial departments are all, as usual, excellent and will be eagerly read.

## Sword Presentation.

At the meeting of the W. L. I. at their Armory last night a handsome sword and belt were presented to Capt. W. R. Kenan, commanding the company. The presentation was made through Lieut. D. T. Cronly, who said:

Capt. Kenan:—The pleasure has been assigned me, sir, by the members of the company who participated in the competitive drill at Charlotte, of presenting to you in their behalf this sword and belt, as an evidence of their great appreciation of that uniform courtesy that characterized your treatment of them all on that trip, and the service you have rendered the company since you have been its commander. Of the first, it is needless for me speak; we have all witnessed it; but, sir, we would have you know that we are aware that called to the captaincy by a unanimous vote, you, realizing the sacrifice of time, energy and money necessary to fill the position, hesitatingly and reluctantly accepted it; but having done so, from a patriotic sense of duty, you no longer hesitated, but went to work at once, zealously, tirelessly and enthusiastically to build up the company, to make it not only worthy of our own respect, but an object of pride alike to our city and State, and the peer of any company in the Guard.

What has been the result? Need I ask? Sir, I say that under your leadership we have achieved all this and more. The first is evidenced by the increased and regular attendance of the members at drills and meetings, and in the renewed interest they manifest in everything pertaining to the company's welfare. The second was most forcibly shown by the generous and substantial manner in which all classes of our citizens aided us in making our festive a grand success, and in the hearty and spontaneous reception given us on our return from Charlotte. And, sir, the brilliant victories to which you led us on the hotly contested fields of Fayetteville and Charlotte bear testimony to the fact that the Wilmington Light Infantry is to-day second to no company in the North Carolina State Guard.

These, sir, are some of the results due to your skill and efficiency as a commanding officer, and in appreciation of them we beg you to accept these tokens with the assurance that so long as you can be prevailed upon to wear them as our captain, just so long will you be unanimously elected to that office.

Capt. Kenan responded heartily and happily, in graceful appreciation.

PLEASE NOTICE.  
We will be glad to receive communications from our friends on any and all subjects general interest, but  
The name of the writer must always be furnished to the Editor.  
Communications must be written on one side of the paper.  
Personalities must be avoided.  
And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so in the editorial columns.

tion both of the gift and the compliment. The sword is a very handsome and costly one.

WANTED!—50 good and experienced hands, to work on shirts. Apply at the Wilmington Shirt Factory, 122 Market street.
