The following article submitted to us for publication, amply illustrates the feeling on this latter point:

"There seems to be a great feeling of indignation and dissatisfaction among the liquor dealers of this city, at the action of the Board of Aldermen yesterday, raising the city license \$108 a year higher. They claim to be imposed on too much. They say that the remunerative days in liquor are over and that they are barely making a living sell ing the same in connection with other goods. The majority of liquor dealers here have always been loyal to the Democratic party but recent an appropriation of \$500, or as much steps by county and city in raising as may be necessary, was made to the license on them yearly until they have it now beyond their reach, laws and ordinances of the city. threaten to turn this friendly feeling into disgust."

Blow Your Nose.

Alas, too often an admonition of a mother to her child. The poor innocent has probably inherited catarrh and is not responsible for its sore and filthy nostrils. Did you know that tender, soft, thin skin lining the nostrils, called the mucous membrane, extends all over the body. Every organ in the system and every prifice at the surface has this thin delicate lining as a protector. So you see what a fix the body is thrown into when the mucous membrane becomes irritated and inpoisonous matter in the blood.
