

THE DAILY REVIEW.

VOL. XIV

WILMINGTON, N. C., MONDAY, JUNE 30, 1890.

NO 168.

Chicago seems to have had a very bad attack of hot weather. There were over one hundred cases of sunstroke there on Saturday and ten deaths.

The New York Herald has raised its powerful voice against the Electoral bill. It hits it some very hard licks and is unsparing in its denunciation of the Republican party.

The date of Kemmler's execution has not been fixed since the failure of the last effort in his behalf but it will probably be some day in the first week in August that he will be done to death by electricity.

Will the electoral bill pass? is a question of scathing interest now. We say that it will not—that it will never go to the President for his signature. It will pass the House but it will be pigeon-holed in the Senate. This is our opinion at this stage of proceedings.

In the Wake county convention, held in Raleigh, on Saturday, resolutions offered by Mr. Otho Wilson were adopted, the first of which demanded "the abolition of National banks and the substitute of legal tender treasury notes in lieu of National bank notes," but in all of the accompanying resolutions, strange to say, Mr. Wilson offered no suggestions as to what is to be done when the National banks are abolished.

The National banks are not an unmixed evil, no matter what some of the politicians may say and pretend to think. Until some better system is devised it is not worth while to talk about ruling them out. There must be banks of some kind to handle and care for money and the National banks seem to have met this requirement very handsomely. Once upon a time the country was flooded with wild-cat currency and the loss thereby to innocent parties was very great. Even the issues of the best banks were subjected to a heavy discount away from home. Some of our readers can well recollect the trouble and annoyance caused by this fact. Now, a bank bill is a bank bill everywhere and it is good for its face value in the remotest parts of the country. The trouble is that there are not enough banks of any kind, due, in a great measure, to the further fact that there is not enough money for commercial purposes. We are heartily in favor of abolishing the tax on State banks but we are not yet in favor of a change in the status of the currency. The only fault we find with it is that there is not enough of the stuff.

What steam is to the engine, Hood's Sarsaparilla is to the body, producing bodily power and furnishing mental force.

What steam is to the engine, Hood's Sarsaparilla is to the body, producing bodily power and furnishing mental force.

The grass here is becoming parched for the want of rain.

The thermometer registered 92 degrees in this office at 2 o'clock today.

There was a plentiful promise of rain last night but the clouds passed over and we didn't get a drop.

The tax listers will meet at the Court House on Saturday next to revise the lists. See notice elsewhere in this issue.

Mr. A. Price Yopp has resigned his position on the W. O. & E. C. R. R. and Mr. D. G. White has been appointed to the vacancy.

Capt. F. M. James reports 10 interments, 5 adults and 5 children, and all colored, in Oak Grove Cemetery during the month of June.

Mr. James C. Stevenson removed his family to Carolina Beach this afternoon, for the season. Mr. Stevenson has a cottage there.

I am Manufacturer's Agent for Barbed and all kinds of Wire, Combination Wire and Iron Fences. Orders solicited. James I. Metts.

The moon will be full on Wednesday morning, and to-morrow night and Wednesday night will be the time for moonlight excursions.

Take care of your dumb beats this hot weather. When driving seek the shady side of the street and do not let them stand in the sun.

Mayor Fowler advertises in this issue for proposals for work on unopened streets, the bids to be opened at 12 o'clock on Saturday next.

There was another big rush for salt water yesterday and the Seacoast train was crowded with a large number of perspiring people.

Gerbrig Dr. Witte, Zeplien, cleared to day for Hamburg, with 1,731 casks of spirits, 200 barrels rosin, valued at \$34,850, shipped by Alex. Sprunt & Son.

Mr. J. A. Brown, proprietor of the Island Beach Hotel, was here today. He says that his house is pretty full now, although there is always room for a few more.

There will probably be a large fleet in the regatta of the Carolina Yacht Club at Wrightsville on the Fourth. Some twelve or fifteen are expected to enter and they will all be cat-rigged.

Reports from the Canetuck section of Pender county are to the effect that the crops are all good but that rain is greatly needed. Some of the wells and springs in that section are going dry.

If Friday next is a fair day there will not be many stay-at-homes. Our people will flock to the seashore then by the thousands and it will tax the transportation facilities of the railroads and the steamboats to move them all on time.

Farmers, we can supply you with Peanut Sweeps and Diggers, Scraper and Cotter Points. Seven different size wings and two size points for the "Boy Clipper," the most improved plow on the market. N. Jacobi Hdw. Co., factory agents.

Firecrackers in New York cost twice as much this year as they did on the last Fourth of July. The stock has become greatly reduced, owing to a big strike in China. The market will probably recover its equilibrium by next Christmas, when our Southern boys will want them.

Some small boys who were swimming in Spring Branch, about a mile below the city, on Saturday last report that while they were there a boat passed up the branch, propelled by a small colored boy, in which was seated a colored man with a pistol in his hand and a dirk secured at his waist, who was masked with a long blue cloth hanging down his face, in which was pierced holes for the eyes. The boys became alarmed, and gathering up their clothes, skeddaddled for home.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Robert B. Bellamy, wholesale and retail druggist.

Forecasts. For North Carolina, fair weather, except showers on the coast and stationary temperature. Local forecasts, from 8 a. m. to-day, for Wilmington and vicinity, fair weather.

Progress. It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

Seventy-two New Members. At a recent meeting of the Carolina Yacht Club 72 new members were balloted for and admitted. The club is now on a splendid footing, financially and numerically, and the regatta they propose for this season promise to be unusually attractive. The first is to take place on Friday next, the Fourth.

Death of Judge Shipp. Hon. W. M. Shipp, Judge of the Superior Court, died at his residence in Charlotte on last Saturday afternoon, and was interred yesterday afternoon, at 6 o'clock.

Judge Shipp had filled many positions of trust and importance. He was first elected to the bench in 1862. In 1860 he was elected Attorney-General of the State and in 1881 was appointed by Gov. Jarvis as a Superior Court Judge, and there he has since remained, having been afterwards elected his own successor. He was twice married, his second wife, who survives him, having been a daughter of the late Judge Fredell and a sister to the late Mrs. Thos. D. Meares and Mrs. G. J. McRee, of this city.

Weekly Weather Crop Bulletin. The reports of correspondents of the Weekly Weather Crop Bulletin, issued by the North Carolina Experiment Station and State Weather Service, co-operating with the United States Signal Service, show that the week ending Friday last has been very warm and dry with an excessive amount of sunshine, slightly injuring crops generally. The rainfall was above the average only in the northeastern portion of the State, where it was especially needed and has done much good. The average rainfall for the next month is considerably higher than for June, namely, 1.30 inches, and farmers may expect heavier rains during July. The temperature this week has ranged from 64 to 104 degrees. Cotton blossoms appeared in Johnston county on June 20th, in Wake county on June 23d.

Now, Do Be Careful. The heat in June has been excessive. No one now living in this city can recall so much and such intense warm weather in any previous June. Fortunately for us, the heat is tempered here by the delightful breezes direct from the ocean, only seven miles distant in a direct line, and we have as yet no fatalities to report. Still, we cannot be too cautious. Every care and attention should be paid to articles of dress and diet. Wear as few and as light clothes as possible, do not expose yourselves to the sun unnecessarily, beware of excessive and long continued exertions, where it is possible protect your heads with an umbrella when in the sun, drink only moderately cool and above all be exceedingly careful as to diet and drink. Children and babies should be clad as lightly as possible; for the latter one soft, cool garment is sufficient. Give them just as much cool water as they want. Nursing children require this especially. Milk is not a beverage to them; it is food and like the substantial food of older persons it requires an accompanying liquid. If mothers would remember and practise this infant mortality everywhere would be greatly lessened. This advice is sanctioned by the opinions of some of the most celebrated physicians and sanitarians in the country.

Female Weakness Positively Cured. To THE EDITOR: Please inform your readers that I have a positive remedy for the thousand and one ills which arise from deranged female organs. I shall be glad to send two bottles of my remedy FREE to any lady if they will send their Express and P. O. address. Yours respectfully, Dr. J. B. MARCHESE, 183 Genesee St., Utica, N. Y.

The Blanche Rebuilt. The steam tug Blanche, which was burned at Southport some months ago, and which was towed up to the city afterwards, has been almost entirely rebuilt. The deck and deck houses have been rebuilt and the balance of the wood work is being completed and the machinery overhauled. The Blanche has an iron hull which remained intact, and the machinery was not injured by the fire. In a few weeks she will be on the river again, as good as new.

Serenely Sailing. The Goldsboro Argus predicts that "Wayne county's brilliant son and true and able Democrat, Chas. B. Aycock, will be nominated for Congress from this district on the second ballot in the coming Clinton convention, on July 23d," and adds "mark the prediction." Now, how can this be, when Col. Green's friends say that they are going to shoulder him in on the first ballot? Maj. McClammy's friends are smiling quite serenely, meanwhile, and say that "it is a bad plan to count your chickens before they are hatched."

Prof. Hargett. The death by drowning in Core Sound, of Prof. L. W. Hargett, of Onslow county, has been announced in the State news columns. Prof. Hargett was a highly educated and accomplished young gentleman and had many friends in this city. He was from Richlands, Onslow county, and taught a school last year at Pollockville, in Jones county, where he was associated with Prof. E. M. Koonce, principal of the school at that place. He was a young and progressive teacher, and his taking away is a great loss to the State.

We Can't Complain. Seated by our windows here in Wilmington, (the coolest place in the country) and enjoying the delightful breezes laden with ozone from the great Atlantic, we should not complain if we get very warm when exertion becomes necessary. There has not been a day during this long, heated June spell when we could not find comfort in the shade with a cool breeze for accompaniment. Think of what it has been elsewhere. While the thermometer registered but 90 degrees here on Saturday at interior points in the State it ranged from 92 to 98; at Augusta, Ga., it was 100 in the shade and at points in California and Wisconsin it got up as high as 104. There has been an excessively hot wave in the northwest and for some days past it has been slowly moving toward the Atlantic coast. There are no indications as yet that its maximum has been reached but it is probable that it will soon pass to the sea and that some more pleasant weather will follow by the middle of the week. The hot wave is accompanied by great humidity and this intensifies its discomforts.

Wilmington District—Third Quarterly Meeting. Bladen Street, June 29. Grace Church, July 5 and 6. Sampson Circuit, Hall's, July 5 and 6. Kenansville Circuit, Richlands, July 12 and 13.
